Thanks to Col. A. T. Hawley, of Yaquina bay, who has numbered us among his friends in Astoria, to be remembered by pleasant sketches received by Capt. Denny, of the United States steamer Wright.

The poems of Major Adams will be published before long in blue and gilt. Probably first in England, also those of the Major's sister, Mrs. M. A. A. Senter, and his deceased brother, J. I. Ira Adams. The Columbia says the probable cost of the Major's volume will be \$2.00 per copy.

Grace Church School.

The Easter term of the Grace church school commenced January 10th, and has had sixty-five scholars upon its roll since that time. The average attendance during January and February, was fifty, March and April the average has been forty. The advancement in most of the studies has been good, especially in the higher grades; but these classes have suffered from the unfortunate habit of many parents who allow pupils to attend at will, and to drop out of their studies entirely if they are inclined to do so; or if placed under discipline. Such mistaken kindness is not only an injury to the entire class, but is a sore trial to faithful teachers and scholars. A request has been made that the school should continue a summer session, and if a sufficient number can be guaranteed before June 1st it will re-open on the first of July. The success of the school during the past year, assures a permanent institution which will grow in future usefulness if it is encouraged and supported as we hope it may be.

Tualamet.

We reproduce a fine little poem today written in 1876, by Mrs. A. Davidson of Oswego. Tualamet island is a beautiful tract of land situated in Clackamas county, on the west side of the Willamet river, between the mouth of the Tualatin river and Oswego lake. It was formed into an island a few years since by a canal connecting the waters of the Tualatin river and Oswego lake; consequently it is surrounded by the waters of the Willamet and Tualatin rivers; hence Mrs. D. originated the name Tualamet, by taking the first syllable of the Tualatin and the two last syllables of the Willamet. Tualamet should be accented the same as Willamet.

A Launch.

The General Garfield was launched at Saint Helen on Wednesday last week. A big concourse assembled to see her take her first bath in the waters of the Columbia. Many went on board before she was launched and took a side which they will long remember. No man ever slipped more gracefully into the waves than she. The cheering was prolonged as she swept down with her joyous freight of human beings. She floated down nearly opposite Columbia city before the Gazette brought her to, and towed her up to Saint Helen. The Gazette also had a big crowd on board, and old and young appeared to enjoy the occasion very much. The Columbian informs us, but forgot to say whether the vessel is to be rigged as a ship, bark, brig, schooner, sloop, steamer, barge, scow or canoe.

One of the prettiest scenes in Oregon is the fishing fleet returning homeward to Astoria from the Cape Saturday evenings on a fair tide, with a leading wind. Yesterday we counted 173 boats under canvas. There were many more, but they were so close together that all could not be counted.

A letter from Gen. H. A. Morrow to Col. E. C. Mason, dated at Niles, Michigan, April 9th, states that he and his wife were called there by the serious illness of Mrs. Morrow's father, who is not expected to survive long. Mrs. Morrow, at the time of writing, was quite ill from an attack of rheumatism.

A widow masher who lives near Oregon city, and who had worn a hard trail through Doc. Howells' newly plowed field got caught in two beaver traps at the place where he jumped the fence, one day last week. It is said that he presented a worse appearance, personally, than the man who, in descending Ring mountain, got into camp ten hours ahead of time.

Major Throckmorton, of Fort Canby, informed Mayor Thompson, of Portland, with reference to a rumor of small pox among the Chinese of that city. Immediately on the receipt of this information, Mayor Thompson called out Chief Lappeus, requesting a thorough investigation. Death of Mrs. Paddock.

Oregonian 30th: After a brief illness, the beloved wife of Bishop Paddock, the newly appointed bishop of the diocese of Washington territory, died at St. Helens hall, in this city, yesterday morning, of typho-pneumonia. Bishop and Mrs. Paddock arrived in this city from the east over a week ago. The fatigue, excitement and labors, incident to the trip across the continent, proved too much for the lady. On arriving in San Francisco, she became too ill to leave her room. When the steamer sailed for Portland Mrs. Paddock was taken from a sick bed and conveyed on board and arrived here in a very precarious state of health. This condition, notwithstanding the most tender care and the best medical attendance, has continued to grow worse until death supervened. The affliction is a peculiarly sad one, coming as it does upon the very threshold of her entrance with her husband upon a new field, and one widely remote from all the associations that have gathered around her life.

Messrs. Woodward and Magoun have made Corbetts celebrated livery and sale stable in Portland an institution that the largest cities of the country might be proud to have. Their splendid lacks are made expressly for them, and expense is not spared in the build and outfit. They employ the most careful and experienced drivers and their horses the best that any stable can produce, while their prices are as reasonable as any. They have telephone connections, and all the appurtenances of first class metropolitan stables.

Gray's wood yard is now fitted up on the wharf foot of Benton street, and prepared to deliver wood to any part of the city sawed to any length, and full measure.

A Big Lot of Beer arrived by steamer Columbia yesterday, at Max Wagner's. Call around and see him, boys.

Go to M. C. Crosby's and get your lunch buckets, water kegs, bailers, booms and boat stoves.

P. Wilhelm, Boss saloon, opposite the Clarendon hotel, Portland, Oregon.

For the Genuine J. H. Cutter old Bourbon, and the best of wines, liquors, and San Francisco beer call at the Gem opposite the bell tower, and see Campbell.

P. J. Goodman, on Chenamus street, has just received the latest and most fashionable style of gents and ladies boots, shoes, etc.

The boat stoves made by M. C. Crosby, with fire-brick bottoms, are superior to all others in this market.

For a first-class oyster stew, fry, pan-roast or fancy roast, go to Roscoe's on Main street, opposite N. Lock's. Families supplied by the hundred or the sack, opened or in the shell.

If you want a good hot cup of tea, coffee, or chocolate after your night's fishing call at the Fair Wind chop house where you will get it, and don't you forget it.

When you want a dish of nice Eastern Oysters done up in a mode, or a good steak, or a fragrant cup of coffee, call at Frank Fabres on the roadway, and he will accommodate you. Open at all hours.

Annues Cough Syrup cures coughs, colds, bronchitis and consumption.

All bitters are whiskey in a disguised form. It is far better and more honorable for a man to "brace up" to a bar and call for whiskey than to sneak in the back door of his house with a bottle of bitters under his coat. It's whiskey in a bottle "all the same." No whiskey in Prinder's Oregon Blood Purifier.

Since the spring started to brew "cheap San Francisco beer" there is little or no demand for the article any more. Call for the Columbia brewery beer, if you want something good.

For a long time there has been a need for just such a liniment as Kendall's Spavin Cure. Read their advertisement.

C. M. Morseman & Bros., office is the head center for all prominent horsemen of New York city. In a letter of recent date says: we are perfectly satisfied that there never was anything made to equal Kendall's Spavin Cure nor can there be anything made to take its place as it removes the trouble and no remedy can do more. Read advertisement.

Fellows' Compound Syrup of Hypophosphites is not only the most reliable remedy for consumption, but it is a specific also for bronchitis and asthma.

Prices for cannery and fishermen's supplies have been slaughtered at M. C. Crosby's.

Frank Faber has removed into Dr. Kinsey's building on Water street. On the road to the steamer dock from down town, before breakfast, it will now be handy to drop in and get a cup of coffee.

Fire-brick and fire-clay in lots to suit at M. C. Crosby's.

A fine lot of French candies just received at Adler's.

Max Wagner's San Francisco National brewery beer can't be beat.

Some say that if it is no use for them to advertise, that they have been in the place in business all their lives, and everybody knows them. Such people seem to forget to take in consideration that our country is increasing in population nearly 40 per cent. every ten years, and no matter how old the place may be, there are constant changes taking place; some move to other parts, and strangers fill their places. In this age of the world, unless the name of a business firm is kept constantly before the public, some new firm may start up, and by liberal advertising, in a very short time take the place of the older ones, and the latter rust out, as it were, and be forgotten. No man ever lost money by judicious advertising.

WASHINGTON CITY NEWS.

Secretary Blaine. WASHINGTON, April 19.—A well known physician here declares that Blaine is suffering from Brights disease of the kidneys, and will never be a well man. The worst symptom is the fact that his ears have bleached out as white as his face. This only comes when the disease is so far advanced as to render recovery almost hopeless. Blaine has the same nervousness and disinclination to be regarded sick that marked the manner of Carpenter, when the same dread disease was driving him rapidly to the grave.

More Royal Gosh.

The republican caucus committee has been in conference with the president to-day and an executive session is certain to be held next week. Once in executive session the nomination of Robertson, along with others, will be referred to the committee on commerce. This cannot be prevented. A majority of that committee agree with Conkling in opposing Robertson, and there it will be in Conkling's power to report it or not. Evidence all goes to show that he will report it this session. He wants to get an opportunity to put on record his position in the Robertson case. He has remained silent as long as he cares to. He regards present circumstances and conditions as favorable to him.

Horse Education.

In something written we have an indistinct recollection of having made reference to a general disposition among boys in their teens, as well as boys of maturer years, to enlighten and bless the world with their profound knowledge of the horse and his history. Our books and newspapers are full of this kind of literature, and it varies in style from the production of the child at school, commencing with: The horse has four legs and a tail; up to the eloquent tribute of the scholar when he quotes from Job: That his neck is clothed with thunder and the glory of his nostrils is terrible. He smelleth the battle afar off, the thunder of the captains and the shouting. Between these two extremes of the child at his first school composition, and the professional literature, we have every grade of pretension, and each professing to have mastered the whole subject. As we approach the close of this nineteenth century, we begin to look for something better in this department of knowledge from those who assume to instruct. And it is to be found in Kendall's Treatise on the horse, sent by mail to any person for twenty-five cents, postage paid. Apply to THE ASTORIAN office, or address D. C. Ireland, Astoria, Oregon.

GENERAL EASTERN NEWS.

Sam Brannans Generosity. NEW YORK, April 29.—A characteristic Broadway scene was afforded yesterday in front of the Astor house. Immigration latterly, as is well known, has been something unprecedented. Poor creatures emerging from Castle garden, where they are cooped up like fowls, take a stroll along Broadway and return before the gates are closed in the evening. A party of Italians dressed as at home, came sauntering up street yesterday afternoon, and when opposite the entrance of the Astor house encountered Sam Brannan, who was enjoying his afternoon cigar. Being struck with their quiet, homely good nature he gave father, mother and daughters some money. Overjoyed with their unexpected good fortune, they seized poor Brannans hands and repeatedly kissed and kissed them. A cheering crowd collected, and blessing Brannan, as soon as possible withdrew.

Great Locomotives.

PHILADELPHIA, April 29.—Ten iron giants for the Pennsylvania railroad company will be built this summer. They are to be built for the particular purpose of making up time on portions of the road where there are long stops. The monster locomotive known as No. 10, was built as an experiment and the result has been satisfactory.

The Kentucky Volcano.

LOUISVILLE, April 29.—A volcano has broken out on the farm of N. A. Jarnagin, in the southern portion of Ohio county. One day last week Jarnagin was attracted to the place by the escaping gas from the earth and found that the earth was seemingly on fire. He held sticks over the place and the heat caused them to ignite.

McAfee, Chase, Belt, Wade and Adams, Rev. Isaac Dillon and a host of others. Mr. N. Newton of this city has taken the agency for the sale of these beds and lounges in Astoria, and will be pleased to have all call and see them at the store of Mr. E. C. Holden for a few days.
