

The Daily Astorian.

ASTORIA, OREGON: TUESDAY, MAY 10, 1881. D. C. IRELAND, Editor.

A Matter of Facts.

We are printing a newspaper. We have no enemies to punish, nor friends to reward, by the manner of writing our news paragraphs. If we choose to suppress any part of news which might be damaging to the parties concerned, it is nevertheless news; and our act has been prompted by a motive of simple kindness to the persons or person immediately interested. But when such persons or person set themselves up as censors to criticize an act intended as a benefit to them solely, and we hear of it, we shall probably not be so careful again to cover their omissions. We have proper respect for all, disrespect for none. We, too, must be respected where respect is due to us. Sensible men will be willing to comprehend this status of a newspaper. And, so far as we are concerned, we intend to let them know hereafter that an item of news on the street is no less a matter of news in THE ASTORIAN—but we shall always confine our items to the facts existing.

Late rains are said to be beneficial to Kansas farming interests.

A mad dog in Halifax bit seven children on Saturday. Shoot the dogs.

Three children were killed by lightning in Winona, Minnesota, on Saturday.

The Northern Pacific railroad is not so flush this week as it was last by about \$10,000,000. Distress.

There is said to be a scarcity of sailors at Portland. Portland is too far inland to have everything she wants.

James B. Doyle, the notorious Illinois forger, gave \$20,000 bonds on Saturday. He is a high toned rascal, with plenty of seeds.

Another man has just died who was one of the first to run up the stars and stripes in California. Tommy Patterson of Portland.

Officer Minto chased a gang of highwaymen into the brush south of Turners Saturday. Minto and posse only had revolvers; the gang had Winchester rifles. A bullet was put through the hat on one of Mintos men.

Buy the Weekly.

THE WEEKLY ASTORIAN for this week is full of just such information and news of the country as your friends in the east want to see. It has very few advertisements, and is a check to the muzzle of information that no family can successfully squeeze along without. Two dollars will buy the whole year for a year, \$1.50 for six months, or ten cents per copy.

Shipping tags by the thousand, or to order, plain or printed, at THE ASTORIAN OFFICE.

The rooms which we have to let in THE ASTORIAN building are the finest in the city for office purposes, and the rate is very reasonable.

All citizens of Oregon who desire to inform their friends in the states of the condition and progress of this state, can have no more complete and comprehensive volume of facts to send them than by subscribing for this journal, and having us mail it weekly to their friends. We mail it as directed. For \$5.00 in advance, we mail three copies of THE WEEKLY ASTORIAN one year.

By a recent postal decision men can actually make money by getting their bills and statements of accounts printed. Statements of accounts and bills of sale when made out on paper having printed headings, can be sent by mail for one cent, if the envelope is left unsealed; whereas, if it is made out on unprinted paper, it will cost three cents. Thus by patronizing THE ASTORIAN two cents can be saved on every bill or statement that is sent out through the mail.

What pleasure it is to pay ones debts! In the first place, it removes that uneasiness which a person feels from dependence and obligation. It affords pleasure to the creditor, and therefore gratifies our social affection. It promotes that future confidence which is so interesting to an honest mind. It opens a prospect of being readily supplied with what you want on future occasions. It leaves a consciousness of our virtue; and it is a measure we know to be right, both in point of justice and sound economy. Finally, it is the main support of simple reputation. Pay us, that we may pay others.

Some say that it is no use for them to advertise, that they have been in the place in business all their lives, and everybody knows them. Such people seem to forget to take in consideration that our country is increasing in population nearly 50 per cent. every ten years, and no matter how old the place may be, there are constant changes taking place; some move to other parts, and strangers fill their places. In this age of the world, unless the name of a business firm is kept constantly before the public, some new firm may start up, and, by liberal advertising, in a very short time take the place of the older ones, and the latter rust out as it were, and be forgotten. No man ever lost money by judicious advertising.

Horse Education.

In something written we have an interesting recollection of having made reference to a general disposition among boys in their teens, as well as boys of maturer years, to enlighten and bless the world with their profound knowledge of the horse and his history. Our books and newspapers are full of this kind of literature, and it varies in style from the production of the child at school, commencing with: The horse has four legs and a tail; up to the eloquent tribute of the scholar when he quotes from Job: That his neck is clothed with thunder and the glory of his nostrils is terrible. He smelleth the battle afar off, the thunder of the captains and the shouting. Between these two extremes of the child at his first school composition, and the professional literature, we have every grade of pretension, and each professing to have mastered the whole subject. As we approach the close of this nineteenth century, we begin to look for something better in this department of knowledge from those who assume to instruct. And it is to be found in Kendall's Treatise on the horse, sent by mail to any person for twenty-five cents, postage paid. Apply to THE ASTORIAN OFFICE, or address D. C. IRELAND, Astoria, Oregon.

The boat stoves made by M. C. Crosby, with fire-brick bottoms, are superior to all others in this market.

Chewing molasses peppermints and chewing candies of all flavors, at the Astoria candy factory, made fresh every day, opposite the bell tower.

NEW TO-DAY.

POST—May 7th, about fifty fathoms net made of barbour's 4-1 ply. Curks and leads marked J. O. F. & Co. Finder will be suitably rewarded. J. O. HANTHORN & CO. May 8th, 1881.

"Marian King." WE HAVE NOW PLACED THIS FIRST class vessel on the berth for salmon loading to Liverpool. The particulars regarding rates of freight and insurance, apply to RODGERS, MEYER & CO., Portland, Oregon.

Notice to Consignees. PURCHASERS OF TIN PLATES AND consignees of merchandise by the "Clan Grant," will please take notice that this vessel commences discharging at Hostlers dock, Monday, May 10th. All merchandise left on the dock after 10 o'clock P. M. of the day of discharge, will be at owners risk. RODGERS, MEYER & CO., Consignees of vessel.

CAED—Astoria, May 9, 1881. I desire to give notice to the fishermen on the Columbia river that the "Argonaut," owned by J. V. Cook, of Clifton, respects no rights that fishermen have in common on said river, when the fishermen refuse to work for the price that the owner of the boat offers. The said boat has destroyed for me a part of my nets, and the owner of it refuses to make any restitution for what ever, although I have requested them to do so. He saves other nets, which he floats them, mine he cuts and destroys simply because I refused to furnish him with fish at the price he wished.

ANTOINE X ADAMSAPPLE, Signature witnessed. sllwkw*
