The Weekly Astorian

Is a mammoth sheet, nearly double the size of the Daily. It is just the paper for the fireside, containing in addition to all the current news, choice miscellany, agricultural matter, market reports, etc. It is furnished to single subscribers at \$2.00 per year in advance.

A limited number of small advertisements inserted at established rates.

THE CITY.

THE DAILY ASTORIAN will be sent by mail at 25 cents a month, free of postage. Readers who contemplate absence from the city may have THE ASTORIAN follow them, DAILY or WEEKLY editions to suit post-offer without additional expense. Address any change of office as directed. Advance orders at the counting room.

The Scottish Admiral, which arrived yesterday, is coal laden.

The Ethel was taken in tow for Portland yesterday by the Chief, Betts pilot.

Mr. Thos. Goodwin, who has been quite ill, was able to be in the city yesterday.

The steamer State of California will sail from this port for San Francisco to-morrow.

Mr. C. J. Trenchard left for Portland yesterday on business, to be absent for a few days.

The steamer Columbia left San Francisco for Astoria and interior ports yesterday, and will be due here to-morrow.

All sub-committees should endeavor to be represented at the Fourth of July meeting to-night at the council chamber.

Two more nets got fouled with drift and went outside yesterday morning. The men saved themselves and boats by cutting loose from the nets.

The Columbia towed, and Mr. Latham piloted, the British Admiral into port. She comes to Laidlaw & Co., sixty-six days from Newcastle, N. S. W.

The Argo has arrived from Portland, laden with 32,500 cents of wheat, valued at \$50,400. Not 32,500 cents valued at \$50,400, as reported by the Portland press.

Jerry, you of the Standard: Don't you never accuse us of spelling J. L. Stouts name as J. F. Stort. If we catch you over Ocean View this summer we'll settle for that blunder of yours.

Claims will not keep long enough in warm weather to bear shipment to the interior, hence any who want claims must come to Astoria, or near the native habitation of those excellent bivalves.

There can be nothing better for the farming community of America than the American Agriculturist. It is worth \$50 a year to anyone on a farm, but we will receive orders for it at the rate of \$1.50 per year. Include \$1.00 in your letter to pay for postal order. We charge our readers no commission on this.

He shipped a basket full of choice clams to his friend in Albany. When the clams arrived his friend took a look at them and immediately ordered them exchd for keeps. He thought his friend had shipped him something that was bad; when in fact the flavor was contracted en route. The interior air does not agree with clams.

Uncle Geo. Birchard, of Grays river, has a scrub cow also which will stand a little puffing. From December 29, 1880, to January 26th inclusive, nine chaurings from the milk of this one cow yielded fifty-nine pounds of butter, and one of the milkings was kicked over. Uncle George says she has brass knobs on her horns, and anybody that can beat this can take the knobs.

We acknowledge samples of the canned productions of the factories of Mr. A. Booth, including ox-tail soup, potted ham, potted turkey, potted tongue, and salmon. Also salmon samples from Wetherbee & Thomas, Wm. Hume, the original salmon packer, Geo. W. Hume, and the Astoria Packing company. Also labels from various factories too numerous to mention, but all of which will be assigned proper position in time; for the mutual advantage of the canning interest and THE ASTORIAN.

Probable Suicide.

Yesterday afternoon a woman known as Nellie Jones, committed suicide by jumping into the bay from the second story of the Walla-walla restaurant. She struck a pile in the descent before striking the water, and although she was quickly rescued, death ensued in a few moments. She has been employed at Music hall, but for some time past has been sick, and prior to her coming to board at the Walla-walla restaurant was on the sick list in St. Mary's hospital. It is supposed that her sickness and course of life had produced despondency, and in a temporary fit of insanity she decided to put an end to her existence by leaping from her chamber window.

One more unfortunate
Wary of death,
Rashly impetuous,
Gone to her death.

The right name of the woman is Ella Levets and her people live in Anity. Since writing the above Mr. Broecker, proprietor of the Walla-walla restaurant, called upon us to say that the woman was not a boarder in the house. She was occupying a room secured by a colored man named White, also a restaurant keeper in Astoria; upon representations made to Mr. Broecker that the room was for a sick married lady from the interior. She was furnished with meals by White, and neither Mr. Broecker nor any of his household ever saw the woman in his house. She kept her room closely, was always orderly. No disturbance of any kind has ever been heard in the room, nor anything to excite a suspicion that she was not a respectable person, here for the benefit of her health, as represented. Rumors are about, but as the matter will undergo thorough examination before the coroner, we await developments.

Regular convocation of Sts. John R. A. chapter (this Thursday) evening, at 7:30 o'clock sharp.

The new steamer Willamette does not belong to the Oregon Railway and Navigation company. She is the property of the Oregon Improvement company.

A Chinaman working on the Oregon Railway and Navigation company's railroad near The Dalles, fell over a cliff 350 feet into the river, last Saturday.

The Standard adds the following, on the way to this port from Hongkong: P. J. Carlton, W. H. Besse and N. Boynton. The steamer is in berth at this, and the St. Vincent for San Francisco.

Mr. Robert G. Long, of Ellensburg, called yesterday. Bob is well fixed on the ranch, and likes company. We have been to see him twice. He always kills a fatted steer or two whenever we have been there.

Workmen on Tillamook rock began the work of constructing another building yesterday for a store-house, engine-house and boat-house. An iron trolley and staircase is to be constructed up the northeastern slope of the rock.

Our old-time friend Dadd Frank Easterbrook, who has nearly worn his fingers up to the first joints trying to dig a fortune out of an Oregonian's thin space box, goes to Wood river. We hope he will strike it rich. Dadd deserves a fortune sure.

The Amity brass band, not feeling satisfied with the decision at Dallas, has challenged the Lafayette band to play a contest for \$100. The terms to be that the Amity band furnish the Lafayette boys three pieces, and the Lafayette band to furnish the Amity boys the same number, and each to have thirty days practice.

Iroquois, the Derby winner, was bred by T. Welch, at Chestnut Hill, Pennsylvania, and was foaled in 1876. He is a rich brown colt, with a blaze face and near hind foot white above the pastern, and about fifteen hands three inches high. On the 30th of August, 1879, he was shipped to Liverpool, and went from there to Newmarket.

The deep blue sea is almost transparent now in its clearness. Capt. Was told us of a place where a half dollar could be seen upon the bottom at sixty feet depth. We believe one could almost be seen in the water about Tillamook rock, were it not for the surge and the dashing of the heavy swells. The line of the Columbia river is very distinctly marked where the waters meet.

The Union Pacific railroad company has determined on running the Utah and Northern to Helena, Montana. The fact that surveyors have been put to work to locate the proposed route, and the fact that men and teams have been forwarded to the front, speaks in favor of the proposed route, and it may be safely asserted that Helena will soon have railroad communication of her own.

By whose authority is it that the street crossings on the roadway are made places to store stove bolts, wood, etc. The roadway is none too wide anywhere, and the superintendent of streets should see to it that no such use as this should be made of the crossings, which are the only convenient turn outs. Nailing slabs on the planks to cover holes should be stopped, as they frighten horses passing over them.

Appleton's Home Books.

The Home Garden is the third in the series of these books published by Appleton & Co. The present volume is edited by Ella Rodman Church. The suggestions are generally in good taste, though many of the plants recommended for ornamental grounds are better adapted to eastern than to Pacific coast gardens. There is a pretty full description of the best roses known to gardeners, and it may be noted that the best roses known in the Atlantic states, are the best on this side of the country. The illustrations in this small volume are uniformly good. For sale at the book-stores in San Francisco.

In Memoriam.

At a regular meeting of Astoria Lodge No. 461, A. O. U. E., June 4, the following resolutions were read and adopted:

Whereas, By the hand of an angel we have been greatly beloved and esteemed Sister, Fannie Fox, has been removed from the scenes of this life; therefore be it

Resolved, That by the death of Sister Fox, the Good Templars lodge of Astoria, and the temperance cause generally, has sustained an irreparable loss of one of its best and noblest members.

Resolved, That as members of the organization to which she belonged, we extend to the husband and other dear ones our most heartfelt sympathies and words of encouragement.

Resolved, That as our circle of unity is broken, our lodge room be draped in mourning, and all members in good standing wear a like badge for thirty days, in respect for our deceased sister.

Resolved, That these resolutions be spread upon the records of the lodge, and a copy transmitted to the family of our deceased sister, and to THE ASTORIAN for publication.

E. M. MERRILL,
E. A. CORWELL,
E. F. MEAD,
Committee.

The Wyoming people, who have perhaps had as much to say against the star postal routes as anybody, are now grumbling because they cannot secure further benefits from the service. They solemnly ask that several routes be extended, notably that between Lumbia and North-park.

The Bouncing says: "North-park is now assuming proportions which demand that some attention be paid to those who are settling and investing there. All classes of industry are starting up there, and asking for recognition from the outer world.

The service should have been increased; but with the violent measures now being taken toward the increase of all western routes, it will probably require some time to secure this much needed aid."
