The newness of our surroundings must serve as explanation of any discrepancy in news items in to-day's issue. We shall take it as a favor if our friends—which includes the entire reading public—will post us as to happenings and occurrences of which they ken.

At 3 o'clock last Wednesday afternoon the new steamboat Elizabeth J. Irving, while on her second trip to Yale, took fire at the town of Fort Hope, on Fraser river, and was totally consumed. She had on board the mails, eighty passengers and a full freight of railway and other goods. Everything was destroyed totally. All the white passengers, it is thought, were saved, but it is believed a number of Indians lost their lives.

A correspondent to the Eugene Journal says: A curiosity in insect life has been discovered a mile and a half from the springs by hunters. They say every bush, tree, and shrub is completely covered, and stripped of every vestige of foliage, by thousands of caterpillars of all sizes under an inch and a half long. A person passing along the trail soon wears a coat of these insects, and his gun is covered with them. Whence so many of these disgusting pillars come so suddenly is a mystery unable to be solved by local insectologists.

The Oregonian correspondent from Albany has not a very flattering opinion of the exhibit at the Linn County fair. And in relation to the matter of fairs in the abstract he takes the high moral stand that their influence is bad upon young men and women, particularly young men.

Every species of vice is spread out before them in alluring forms. Gambling in a dozen forms—I do not refer to the races, which benefit the stock interests of the country—is licensed and given the best stand on the ground, frauds of every sort are openly permitted and practiced—all for a little money for the society. It would be easy to prevent these very grave abuses.

Mr. Henry Villard and party arrived at this city yesterday morning. Said party included several well-known gentlemen. Among them were Herr Herzog of Berlin, Germany, Secretary of State with Bismarck; Professor James Bryce, of Oxford, member of the English Parliament; Gen. Henry H. L. Winger, late Consul at Sonnenburg, Germany; William W. Bates, the celebrated Chicago ship-builder; Charles Fairchild, a Boston capitalist; S. G. Reed, Charles F. McKinn, a New York architect. Mr. Spofford, son of the Librarian of Congress, is private secretary to Mr. Villard. The party also includes George A. Pillsbury, of Minneapolis, the greatest miller of the world, and J. C. Henderson, engineer and constructor, who built the Columbia and Oregon, steamers, and Alfred L. Stokes, of Chicago, General Eastern Passenger Agent of the Oregon Railway and Navigation company. Upon arriving here they were met by a large delegation of distinguished citizens from Portland who had come down in the steamer Wide West. After a brief sojourn, during which time the tourists strolled along the city front, the Wide West swung out with all on board for Portland. When they return, which will be about Nov. 1st, most of the travelers will make a more extended trip down the coast, visiting Yosemite, etc., and then return East.

Various Causes.

Advancing years, care, sickness, dis-appointment, and hereditary predisposition—all operate to turn the hair gray, and either of them inclines it to shed prematurely. AYRES HAIR VIGOR will restore faded or gray, light or red hair to a rich brown or deep black, as may be desired. It softens and cleanses the scalp, giving it a healthy action. It removes and cures dandruff and humors. By its use falling hair is checked, and a new growth will be produced in all cases where the follicles are not destroyed or the glands decayed. Its effects are beautifully shown on brassy, weak, or sickly hair, on which a few applications will produce the gloss and freshness of youth. Harmless and sure in its operation, it is incomparable as a dressing, and is especially valuable for the soft lustre and richness of tone it imparts. It contains neither oil nor dye, and will not soil or color white cambric; yet it lasts long on the hair, and keeps it fresh and vigorous. FOR SALE BY ALL DEALERS.

Williamsport Property. Great bargains are now offered in the city of Williamsport for any persons wishing to locate from one lot to five acres. It is well adapted for gardens, dairy ranches or pleasant homes; well elevated, situated one mile south of Astoria on Youngs bay, with a good grade road to the place. For further information call at my residence near the cemetery. JOHN WILLIAMSON.

To the Public. The undersigned would inform the public that he has the best San Francisco National Brewery beer, and the best and strongest vinegar made. The reason I have so much vinegar on hand is owing to the fact that I borrowed from a great deal of National beer. I desire to say that the National beer never sours in kegs, but you can't say that of Chicago beer. I can produce just lots of evidence on that. MAX WAGNER.

What is all this About? It is all nothing. Facts prove that I keep the best beer in Astoria, the regular Albany beer. Also the genuine Albany Bottled Beer kept always on hand. CHAS. GRATKE.

A cough, cold or sore throat should be stopped. Neglect frequently results in an incurable lung disease or consumption. Brown's Bronchial Troches do not disorder the stomach like cough syrups and lozenges, but act directly on the inflamed parts, allaying irritation, give relief in asthma, bronchitis, coughs, catarrh, and the throat troubles which singers and public speakers are subject to. For thirty years Brown's bronchial troches have been recommended by physicians, and always give perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25 cents a box everywhere.
