

Our "Heathen Schools."

In a religious exchange the last issue at hand publishes with approving editorial comment a communication which, among a good many other similar statements, says: "So far as our public school system is concerned, it cannot be denied that the children who attend these schools are being put through a course of instruction from which they will graduate as so many cultivated heathens."

of ignorance that includes itself who prate of "godless" schools and heathen rulers; and who, when foul sewage, impure water and typhoid fever cause a new slaughter of the innocents, talk solemnly of a "mysterious dispensation of providence."

The Fall Elections.

Elections will be held this fall in thirteen states, and in seven of them, viz: Iowa, Massachusetts, Minnesota, Mississippi, Ohio, Virginia and Wisconsin, the choice of Governor. The other states in which voting will take place are Colorado, Maryland, Nebraska, New Jersey, New York and Pennsylvania.

In 1877 the yield of wheat in California was 25,000,000 bushels; in 1878, 37,500,000 bushels; in 1879, 37,300,000 bushels; in 1880, 47,000,000 bushels; and in 1881, (estimated), 25,300,000 bushels.

Human nature is self-asserting and self-adjusting. All the agitation and turmoil that we see around us is as natural as the sounding of the foam-capped wave as it thunders down the beach.

Among the first things brought before the forty-seventh congress for its consideration will be the propriety of building a new White House. Those who ought to know claim that the present executive mansion is positively unfit to live in.

LATE statistics show that including what has already loaded and gone to sea there is in sight enough tonnage to carry in round numbers 900,000 tons out of an estimated surplus of 1,200,000 tons.

WHAT course Arthur intends to pursue in the make up of his cabinet, and the giving of the many offices at his disposal is still a matter of uncertainty. As the Washington Post says, when a man has nothing to lose by doing as he pleases and nothing to gain by doing as somebody else desires, he may be generally expected to take the course most consistent with his own wishes.

MRS. GARFIELD has very sensibly requested that all this sickening expose relative to viscera, intestines, autopsies, etc., be stopped. It was simply an advertising dodge on the part of the physicians and has no reasonable excuse for continuance.

"Does Arthur keep a scrap-book?" is the question that is now agitating the minds of a good many public men in this glorious land.

HOLMAN'S PAD.

FOR THE

STOMACH,

LIVER,

AND

KIDNEYS.

In all cases of biliousness and malaria in every form, a preventative and cure of chills, fever and dumb ague, Dr. Holman's Pad is a perfect success. And for dyspepsia, sick headache and nervous prostration, as the pad is applied over the pit of the stomach, the great nervous center, it annihilates the disease once.

It regulates the liver and stomach so successfully that digestion becomes perfect.

Prof. D. A. Loomis says: "It is nearer a universal panacea than anything in medicine." This is done on the principle of absorption, of which Dr. Holman's Pad is the only true exponent.

For all kidney troubles, use Dr. Holman's Renal or Kidney Pad, the best remedy in the world and recommended by the medical faculty.

Beware of Bogus Pads.

Each genuine Holman's Pad bears the private revenue stamp of the Holman Pad Co., with the above Trade mark printed in green. Buy none without it.

For Sale by all Druggists.

Dr. Holman's advice is free. Full treatise sent free on application.
