

The XXI President.

GEN. ARTHUR has made a very favorable impression upon the public men of both parties with whom he has been brought in contact, and on so much of the general society of the capital as he has met under restricted circumstances.

But the verdict is unqualified that he has seen and patiently heard all who approached him, with a frankness and cordiality that surprises most of them, and without the least affectation of official consequence, while never forgetting what was due to his position.

All the indications and the experience thus far warrant the belief that he will be popular with Congress, beyond any President for many years past, and that the White House, in its social aspects, will become what it has not been for a long time, the centre of a cultured circle, with no sign of vulgar pretension, and no parade of offensive eccentricities, or of hypocritical cant.

If he should be as fortunate in his political policy as it is confidently expected he will be in his personal intercourse, Gen. Arthur will be very apt to give the Republican aspirants for the Presidency in 1884 much more trouble than than they are now anticipating.

Tyler, Fillmore, and Johnson all failed signally in the desire to succeed themselves, because they lacked the art to conceal a consuming ambition. The very effort to push it forward with indecent haste disgusted the country, and turned both parties against them.

A Winter Passage.

THE ship Macmillan, from Antwerp for San Diego, came by the way of the Cape of Good Hope, which route is certainly novel for a vessel bound from the English channel to Pacific ports; but the experiment suggests an important problem for navigators when making the winter passage.

THE Californian for November has a pleasing table of contents which includes several interesting articles. This magazine has deservedly won a place in the popular favor, and if it had a regular corps of paid contributors, could go still higher in the matter of literary excellence.

GEORGE FRANCIS TRAIN announces that he has made his last speech and written his last letter. If this be so, Arthur's administration, thus far, is not as much of a failure as Eastern papers would have folks believe.

THE electric light towers of Denver, Colorado, and Nevada City, California, are pronounced failures. The Republican of the former place stigmatizes the light as being "an intolerable nuisance."

Most people say that important member, the nose, was placed exactly in the center of the face, but it is asserted that as a matter of fact, it is rarely or never found thus placed; it is almost invariably a little out of the "square," and the fact of it being so is often that which lends a peculiar expression and piquancy to the face.

STOMACH,

LIVER,

KIDNEYS.

In all cases of biliousness and malaria in

every form, a preventative and cure of chills,

fever and dumb ague, Dr. Holman's Pad is a

perfect success. And for dyspepsia, sick-

headache and nervous prostration, as the

pad is applied over the pit of the stomach,

the great nervous center, it annihilates the

disease at once.

It regulates the liver and stomach so suc-

cessfully that digestion becomes perfect.

Prof. D. A. Loomis says: "It is nearer a

universal panacea than anything in medi-

cine." This is done on the principle of ab-

sorption, of which Dr. Holman's Pad is the

only true exponent.

For all kidney troubles, use Dr. Holman's

Renal or Kidney Pad, the best remedy in the

world and recommended by the medical

faculty.
