Vol. XVI.

Astoria, Oregon, Saturday Morning, November 5, 1881.

No. 31.

## PARNELL'S LANGUAGE.

Parnell's Wexford speech is what excited the wrath of Gladstone and Forster, and caused his arrest. The sharp points of that speech are reported as follows:

"Not content with maligning the Irish, the Premier maligned John Dillon. No misrepresentation was too patent, too mean, too low for him to stoop to, and it was a good sign that this masquerading knight errant—this pretended champion of the liberties of every nation except those of the Irish nation—should be obliged to throw off the mask and stand revealed as the man who, by his own utterances, was prepared to carry fire and sword into their homesteads unless they humbled and debased themselves before him and before the landlords of the country. He proceeded to declare that he would insist on tenants getting the benefits of all the improvements to which they were entitled under the clause introduced into the Land Act by Mr. Healey. Mr. Gladstone had praised Mr. Shaw as a pattern to Irishmen, but Mr. Shaw, speaking in county Cork, had declared that he never saw a process-server but his blood boiled and he felt inclined to take a pinch-pin out of his ear. If he (Mr. Parnell) had said that to-day, Mr. Gladstone would have him in Kilmainham before three weeks were out. The speech of Mr. Shaw's was more clearly an incitement to an act of violence than anything that had been said by any of those men in jail; and yet Mr. Gladstone held Mr. Shaw up for admiration to the whole Irish and American people. Mr. Gladstone had accused him (Mr. Parnell) of preaching the gospel of plunder; but the land had been confiscated three times over by men whose descendants Mr. Gladstone is now supporting in the enjoyment of their plunder by bayonets and buckshot. Mr. Parnell declared that Mr. Gladstone, in bewailing the fact that there was no moral force behind the Government in Ireland, had admitted that the English Government had failed in Ireland. He had admitted all that Grattan and the volunteers of '82 fought for, all that the men of '98 had lost their lives for, all that O'Connell had argued for, all that the men of '48 had staked their all for, all that the men of '65, after a long period of depression and the apparent death of the national life of Ireland, had cheerfully faced the dungeons and the horrors of penal servitude for, and all that they in their overpowering multitudes have reestablished and will bring to a successful, and a final issue—namely, that England's mission in Ireland has been a failure, and that Irishmen have established their right to govern Ireland by laws made by themselves on Irish soil."

## Not Appreciated.

Parson Kallloch, San Francisco's religio-politico Mayor, recently returned from a lecturing tour to Oregon. He gave his experience of his journey at Metropolitan Temple last Sunday, which is thus reported in the Call:

His lecture at Portland was somewhat of a fizzle. He arrived there in the midst of a rain, and his audience small, and the amount he received was what Spoken-dyke would call a "measly collection." Everybody was wet, the room was damp, and light so bad that he couldn't tell whether he had out his lecture on "Monopolies" or his sermon on the "Sacrament." His subject, "Monopolies," had been announced without consulting him, and the

price of tickets fixed at \$1. Dr. Kallloch then gave the different conjectures accounting for his failure. Some thought it was because his subject was unpopular, and others because he was a sandlotter from San Francisco. He dealt out a full measure of ridicule of the people of Portland, and of their dislike of Californians. He asked a Portlander how long this weather would last. The reply was, "Well, it would probably last a few weeks, and then it would begin to rain." The Doctor then asked him when their fall rains commenced. "Well," said the Portlander, "I've been here ever since 1849, and they had commenced long before that." Finally he concluded to return home, satisfied once more to get back among the savages and sandlotters.

An Englishman was bragging of the speed on English railroads to a Yankee traveler seated at his side in one of the cars of a fast train in England. The engine bell was rung as the train neared a station. It suggested to the Yankee an opportunity of "taking down his companion a peg or two." "What's that noise?" innocently inquired the Yankee. "We are approaching a town," said the Englishman; "they have to commence ringing about ten miles before they get to a station, or else the train would run by it before the bell could be heard. Wonderful, isn't it? I suppose they haven't invented bells in America yet?" "Why, yes," replied the Yankee, "we've got bells, but can't use them on our railroads. We run so 'tarnal fast that the train always keeps ahead of the sound. No use whatever—the sound never reaches the village till the train gets by." "Indeed," exclaimed the Englishman, "Fact," said the Yankee; "had to give up bells."—*Glasgow Evening Times.*

The Commissioner of the Land Office in his annual report says the number of agents now engaged in searching out and prosecuting timber depredators are inadequate and an additional force is asked. The results of the labors of those now engaged have proved very gratifying, netting a large sum of money to the Government and greatly decreasing that class of frauds. The Commissioner states the necessity for increased clerical force is absolutely imperative. Records are behind and business of the office seriously crippled. He also asks for better salaries for the present force than is paid. Altogether about fifty additional clerks of all classes are asked, the most important increase being a Deputy Commissioner at a salary of \$6,000. Three Inspectors of Surveys, General and District Land Officers are also required at a salary of \$3,000 each.

"De man who neber sines makes a poor nex' doar neighbor. De woman who keeps feelin' of her shoulders to see if wings have started makes a poor mother and a wuss housewife. If you have neber injured a man an' gone to him an' made up, you don't know what real happiness am. If your conscience has neber driven you to prayer, you can't feel de goodness ob de Lawd. My advice to you am to be a little wicked—not 'nuff to make men fear or hate you, but jist 'nuff to keep you convinced dat you must help to support churches an' pay ebus attentun to what de preachers say or you'll be left behin' when de perchusion starts."—*Detroit Free Press.*

The disease called the "pink-eye," which for some weeks has been raging among horses in the

East, is on its travels westward, having appeared in Denver last week. It is policy for all who have horses to post themselves as to the disease and its remedies. The sickness is said to be due to atmospheric influences. In the East horses at pasture were not affected. Poorly fed and over-worked animals generally fell a prey to the epidemic. If animals that were properly cared for were attacked they recovered in a few days.

## They Know Them.

Dr. Bingham describing his interviews with eminent surgeons in New York city says: "My reception in each case was very cordial, and each time the following colloquy took place, if not in words at least in substance:

After pursuing my letter the great tyee would fold it carefully, reach out his hand and say, "I am very glad to see you. Sit down. Pleasant day. Just had an interesting case, etc." Then suddenly, "where are you from?" "Walla Walla, Washington Territory." "From where?" "Washington Territory." "Great God! where's your touma-hawk?" "This is a little embarrassing to a stranger but I am slowly getting used to it."—*Walla Walla Union.*

President Arthur has asserted that the whole year's salary of the President's office shall go to Mrs. Garfield. He will thus serve the Government six months without pay. His gift is the largest and noblest that has yet been contributed to the fund.

The Revolutionary war cost the United States \$135,193,703. Great Britain lost 50,000 men, incurred a debt of £100,000,000 or \$500,000,000, and lost her American colonies.

## Peruvian Bitters.

Cinchona Rubra. The Count Cinchona was the Spanish Viceroy in Peru. His wife, who was prostrated by an intermittent fever, from which she was freed by the use of the native remedy, the Peruvian bark, or, as it is called in the language of the country, "Quinina." Grateful for her recovery, on her return to Europe in 1622, she introduced the remedy in Spain, where it was known under various names, until Linnaeus called it Cinchona, in honor of the lady who had brought them that which was more precious than the gold of the Incas. To this day, after a lapse of two hundred and fifty years, science has given us nothing to take its place. It effectually cures a morbid appetite for stimulants by restoring the natural tone of the stomach. It attacks excessive love of liquor as it does a fever, and destroys both alike. The powerful tonic virtue of the Cinchona is preserved in the Peruvian Bitters, which are as effective against malarial fever today as they were in the days of the old Spanish Viceroys. We guarantee the ingredients of these bitters to be absolutely pure, and of the best known quality. A trial will satisfy you that this is the best biter in the world. "The proof of the pudding is in the eating," and we willingly abide this test. For sale by all druggists, grocers and liquor dealers. Order it.

Whenever you want to buy an article, purchase it from a store-keeper in town. You know them, they are identified with you in the interest of keeping up the city, which is an organization for mutual protection, and if you are cheated you know where to apply for redress. When you buy of a itinerant pedlar, whom you may never see again, if you are cheated you must pocket your own losses.

The time has long since passed when mechanical trades provided our sons with a living. Labor-saving machinery, patent tools and steam have robbed the trade of the future it offered to our boys in the days of the indentured apprentice system. The idlers and do-nothings of our metropolitan cities are composed largely of tradesmen and professional men, and merchandising is a failure, if the number of bankrupt merchants who had to succumb to the pressure of the times can be taken as a criterion. What the country needs is producers, and the waste fields of unutilized land offers an opportunity to place the rising generation in the way of making money for themselves and better times for posterity.

All citizens of Oregon who desire to inform their friends in the states of the condition and progress of this state can have no more complete and comprehensive volume of facts to send them than by subscribing for this journal, and having us mail it weekly to their friends. We mail it as directed. For \$5.00 in advance, we mail three copies of THE WEEKLY ASTORIAN one year.

## Money to Loan.

\$1,500 on good real estate security. Inquire of J. Q. A. BOWLEY.

## Notice.

Just received per steamer Columbia, a fine lot of eastern oysters, which will be served up in first-class style at Rosses, Occident block.

## Notice.

We still offer another prize of seven dollars to any person making the best score in six shots with the rifle, and three dollars for the best with the pistol; payable the 15th inst., after which there will be no more shooting up to the 25th at the Astoria Shooting Gallery.

## Buy the Weekly.

THE WEEKLY ASTORIAN for this week is full of just such information and news of the country as your friends in the east want to see. It has very few advertisements, and is checked to the hilt by our friends who so kindly can successfully squeeze along without. Two dollars will buy the whole year for a year, \$1.50 for six months, or ten cents per copy.

Whips, curry-combs, brushes; new stock; first-class goods, cheap for cash.

Fresh hair of their own manufacture, at Warren & Eaton's.

Hot, cold, and shower baths at the Occident hair-dressing saloon, twenty-five cents.

Dr. Lockhart, medical and surgical diseases of women. Rooms over City Book Store.

Vendor of the very best quality corn beef of Max Wagner, in any quantity at 20 cents per gallon.

Get your legal blanks at THE ASTORIAN office. A full line of over two hundred styles.

Max Wagner has had his place repainted, and it is now more attractive than ever. Stop at you go by.

Mr. John Rogers of the Central Market, has made arrangements to keep all the finest fresh fish, etc., in their season.

The New Testament authorized edition revised, for twenty-five cents at Charles Stevens and Sons City Book Store.

A splendid lot of Eastern Oysters just arrived by the State of California, at Tom Smith's Oyster Saloon, Main Street.

Warren & Eaton have moved to the corner of Hamilton and Chenamus streets, in the building formerly occupied by Trecheard & Uphur.

P. J. Goodrich, on Chenamus street, has just received the latest and most fashionable style of gents and ladies boots, shoes, etc.

Wistar's balsam of wild cherry always at hand. It cures coughs, bronchitis, whooping cough, croup, influenza, consumption, and all throat and lung complaints. 50 cents and \$1 a bottle.

A fine assortment of little boy's turbans and winter caps, the latest styles, just received at M. D. Kant's merchant tailor establishment. Don't fail to get one for your boy.

As a mild, but effectual laxative, as a safe hair tonic, blood purifier, and general strengthener, use King of the Blood. See advertisement.

Chas. Stevens and Son have a stock of umbrellas and umbrellas' tools which can be bought cheap for cash in our store opposite the bell tower, and see Campbell.

For the genuine J. H. Carter old Bourbon, and the best of wines, liquors, and San Francisco beer, call at our store opposite the bell tower, and see Campbell.

Those hats and caps for little fellows are selling rapidly at M. D. Kant's Merchant Tailor Establishment; no wonder, though, they are new and nobby styles and very cheap.

A cough, cold or sore throat should be stopped. Neglect frequently results in an incurable lung disease or consumption. Brown's Bronchial Troches do not disorder the stomach, like cough syrups, and balsams, but act directly on the inflamed parts, allaying irritation, give relief in asthma, bronchitis, coughs, catarrh, and the throat troubles which attend colds and influenza. They are adapted to. For thirty years Brown's bronchial troches have been recommended by physicians, and always give perfect satisfaction. Having been tested by wide and constant use for an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25 cents a box everywhere.

King of the Blood

Is not a "cure all," it is a blood-purifier and tonic. Impurity of the blood poisons the system, deranges the circulation, and thus induces many disorders, known by different names to distinguish them according to effects, but being really branches or phases of that great generic disorder, Impurity of Blood. Such are Diptheria, Billousness, Liver Complaint, Constipation, Nervous Debility, Rheumatism, Catarrh, Strain, Skin Diseases, Pimples, Ulcers, Scalding, etc.

King of the Blood prevents and cures these by attacking the cause, impurity of the blood. Chemists and physicians agree in calling it "the most genuine and efficient preparation for the purpose." Sold by Druggists, 25¢ per bottle. See testimonials, directions, &c., in pamphlet, "Treatise on Diseases of the Blood," wrapped around each bottle. D. HANSON, S. Y. Buffalo, N. Y.

For further information call at my residence near the cemetery. JOHN WILLIAMSON.

## Various Causes.

Advancing years, care, sickness, disarrangement, and hereditary predisposition—all operate to turn the hair gray, and either of them inclines it to shed prematurely. AYER'S HAIR VIGOR will restore faded or gray, light or red hair to a rich brown or deep black, as may be desired. It softens and cleanses the scalp, giving it a healthy action. It removes dandruff and humors. By its use falling hair is checked, and a new growth will be produced in all cases where the follicles are not destroyed or the glands decayed. Its effects are beautifully shown on bushy, weak, or sickly hair, on which few applications will produce the gloss and freshness of youth. Harmless and sure in its operation, it is incomparable as a dressing, and especially valued for the soft lustre and richness of tone it imparts. It contains neither oil nor dye, and will not soil or color white cambric, yet it lasts long on the hair, and keeps it fresh and vigorous.
