The collier Willamette will be down to-day, and sail hence for Seattle.

The Oregon came down from Portland yesterday noon, and swung out to sea at 2:30 p. m.

Carpenters are in great demand. There isn't an unemployed artisan of that persuasion in the city.

Mr. John Rogers of the Central Market, has made arrangements to keep all the finest fresh fish, etc., in their season.

Rev. Mr. Milligan left for Salem yesterday morning to attend the Presbyterian Synod at that place.

The Olympic Hop to-night promises to be a pleasant affair. Contribute to its success by your presence.

The case of MacDonald has been postponed till Saturday, for the procurement of further testimony from Portland.

Max Wagner's San Francisco National brewery beer can't be beat.

Fresh lard, of their own manufacture, at Warren & Eaton's.

One of the newest styles in ladies' bonnets is a gilt buckle, with three inches of purple ribbon on each side. But you'll never see one of those at the theater.

There will be a sociable for the little folks at the residence of Mrs. C. Brown next Saturday evening. All the children are cordially invited to attend.

In some localities the water must be boiled before it can be used. How tiresome it must be for a man to sit down in a saloon and wait for the bar-keep to boil him a glass of water.

Dr. Lockhart, medical and surgical diseases of women. Rooms over City Book Store.

Mr. Callender of the Knappton Mills, informs us that they are at present sawing 60,000 feet daily, running eleven hours. He ships all his lumber to points on the coast below. The Knappton mills have cut about 4,000,000 feet this season.

Celestial Visitor.

There is a star which is sometimes called the Star of Bethlehem, and which, according to some astronomical calculations, is now due, and may at any time blaze forth in all its brilliancy and celestial glory. This star was last seen in 1572. It shone out suddenly where no star was visible before, and was so bright that it could be seen at noonday. It gradually faded, assuming various hues as it did so, until it disappeared. This wonderful star is believed to have been seen in the years 1264 and 942. Its apparent period of extended backward, indicates an appearance of this star about the time of the birth of Christ; hence its name, Star of Bethlehem. If you wish to know where to watch for it, look some forty degrees to the southwest of Jupiter, and you will see a group of stars arranged thus:

These are in the constellation Cassiopeia, and the letter "O" shows where the great star is expected to appear.

Forty-one million bushels is Minnesota's wheat crop this year.

The new law in New York discourages the boys, by stating explicitly that a man must support his wife.

A large and well selected stock of the latest books, now on exhibition at Adler's book store.

Massachusetts newspapers are to be prohibited from publishing marriage notices in the future, because marriage is a lottery.

Had Cornwallis known that in one hundred years the Americans at Yorktown were to be charged twenty-five cents for a three-cent cigar and \$10 a day for board, he would have slept better the night of his surrender.

A splendid lot of Eastern Oysters just arrived by the State of California at Tom Smith's Oyster Saloon, Main Street.

For pure unadulterated cheek, the Eastern advertising agents remove the confectionery. The latest is a proposition from a New Jersey pump manufacturer, offering an interest in a Jersey cranberry swamp in payment for an ad. of his alleged pump.

Hot, cold, and shower Baths at the Occident hair dressing saloon, twenty-five cents.

There are over 150 ships at present in the harbor of San Francisco. The Bulletin thinks that no harbor in the United States makes so good a showing. Well, for our size, we think Astoria makes a better showing, relatively. Twenty-three vessels this week; come now!

The last number of the Polar is a hand is a good deal better than its predecessors, and is really a credit to its publishers. The articles are not so rabid as was the opening chorus, and we can read without being tantalized by the assumption that no one but the editor knows anything, and that he knows all about it, whatever it is.

The finest and freshest candies and French sweetmeats at Adler's. Newest novelties by every steamer.

Last Tuesday evening a grand lodge of Knights of Pythias for Oregon was instituted in Portland. By special dispensation Vancouver, on account of its nearness to Portland, was added to the jurisdiction of Oregon. Full delegations were present from the various lodges throughout the state. Astoria was well represented in members and officials. A parade took place yesterday afternoon.

Adler's new stock of goods, now being opened, is enormous. To enumerate the styles and varieties would be impossible. Take a look at them yourself.

The Portland Standard and the Seattle Post-Intelligencer credit us for what they take from our columns. The rest just "scoop," and never twister. Of course it's all right; only it strikes us as being hardly fair to never give credit for items that sometimes take considerable trouble and research to get right. A recent exchange had seven separate articles from THE ASTORIAN and never a credit.

The Tam O'Shanter is loading with lumber at the Knappton mills for San Francisco. She will take 650 M; the Modoc will take from the same mills 550 M for San Francisco and the Melancthon will take 350 M to San Diego. The Jas. A. Garfield, will be down this week and will load with 400 M for San Francisco. All the above named are Oregon-built vessels.

Policies in the Northwestern Marine Insurance Co. are being taken in great numbers. H. J. Hansen, the agent for this place, reports several this week. Any person desiring a policy should either see Mr. Hansen in person or address him a postal card at the Astorian post-office.

It is reported that confluent small-pox of the most virulent type, is raging at New Tacoma, and that the town has been quarantined in consequence.

The Commissioner of the General Land office, in his annual report, says that in Washington Territory during the year ending June 30, 1881, the total sales were 417,905 acres, and receipts \$206,068. Homestead entries included 227,920 acres.

The New Testament authorized edition revised, for twenty-five cents at Charles Stevens and Sons City Book store.

The new machinery for the Salem Mills gives that institution a running capacity of 200 barrels per day. Next spring the company propose to build a new mill with a capacity of 300 barrels per day. A flour mill and a woolen mill would help Astoria a good deal and would, we believe, be paying investments.

What measure it is to pay ones debts? In the first place, it removes that measurability which a person feels from dependence and obligation. It affords pleasure to the creditor, and therefore gratifies our social affection. It promotes that future confidence which is interesting to an honest mind. It opens a prospect of being readily supplied with what you want on future occasions. It leaves a consciousness of our virtue; and it is a measure we know to be right, both in point of justice and sound economy. Finally, it is the main support of simple reputation. Pay us, that we may pay others.

John Muir, the general freight agent of the O. R. & N. Co., says that a uniform rate of \$10.50 per ton of 2000 pounds has been made on through wheat shipments from points east of the Cascade mountains to San Francisco, while the rate to Portland is \$8 per ton. Either of these rates are open to any shipper who wishes to avail himself of them, and no preference, special privileges or special rates will be accorded to any one person.

The steamer Fleetwood has discontinued her Sunday trip, deeming it more to the interest of the patrons of the boat to leave here on Mondays, Wednesdays and Fridays, and leave Portland on Tuesdays, Thursdays and Saturdays, arriving at 1:30 p. m., giving passengers abundant time to transact business and return next morning.
