**Escaped—Probably Drowned.**  
 Wednesday evening Constable Ward  
 of Portland, arrested Jack McDon-  
 ald, a deserter from the ship Harry  
 Morse, and at midnight went  
 on board of the Oregon with his  
 prisoner; but no sooner had the  
 nimble son of the sea reached the  
 deck than he was up the rigging, out  
 over the deck on the roof of which  
 he dropped, and started for a saloon  
 for a parting glass, where Ward se-  
 cured him, and putting him in irons  
 put him on board the Fleetwood. On  
 the way down, Thursday, McDonald  
 stated his determination not to go back  
 to the vessel, and as the boat was  
 pushing off from Cathlamet, having  
 got Ward to take the irons off his wrists  
 under the pretext of necessity, he  
 sprang over the guard and struck out  
 for shore, the boat being about 200  
 yards out in the stream. The boat  
 immediately put back to the dock and  
 Officers Ward and Berk, after care-  
 fully examining the premises, are of  
 the opinion that he sunk before  
 swimming fifty feet. Some of the  
 passengers state that he got ashore,  
 but the probability is that the unfor-  
 tunate man made good his word, and  
 that all his earthly voyages are over.

**Note the Pompano.**  
 Under date of the 23d inst., Mr.  
 Chas. J. Smith writes us as follows  
 from Brookfield, W. T.: About a  
 month ago I received from Mr. A. J.  
 Megler, one of a half dozen strange  
 fish taken, I understand, in the salmon  
 seine near Fort Canby. In shape and  
 general appearance it resembled a  
 surf fish, or porgie as it is called in  
 these waters, but was larger, weighing  
 about four pounds; was of a slate  
 color with a bronze tinge on the side,  
 and had eyes as large a quarter of a  
 dollar. I learn from Prof. Jordan, to  
 whom I sent a description, that the  
 fish is new to science, and that so far  
 as he can judge from description it is  
 a kind of pompano. In the east the  
 pompano is caught with hook and line  
 in large numbers along the coast, and  
 is considered one of the most delicate  
 of salt water fish. It is hoped, if  
 more of these fish are taken, that the  
 taker will remember the alcohol tank  
 of the U. S. Fish Commissioner now  
 in the large Kinney cannery, to the  
 extent of a dozen specimens.

**The Walla Walla.**  
 The new iron steamship Walla  
 Walla, the fourth and last of  
 the Oregon Improvement company's  
 line of vessels, arrived in Thurs-  
 day afternoon. From Capt. De  
 Wolfe we get the following: Left  
 New York Sept. 14th; arrived at Rio  
 Oct. 5th. Left Rio on 7th, entered  
 the straits Oct. 16th, heavy sea, blind-  
 ing snow, and rough weather through-  
 out. Got to Valparaiso Oct. 29th,  
 left Nov. 2d; arrived off the bar at 6  
 P. M., Nov. 23d. She is loaded with  
 railroad material, having on board  
 about 2100 tons, and will lighter to  
 16 1/2 feet to day. Capt. De Wolfe  
 reports an English ship, the Castlehead,  
 leaving Valparaiso for the Columbia  
 the same day he left that port.

**Arrival of Troops.**  
 The State of California brought up  
 sixty-nine privates and several officers  
 of the 1st artillery, to garrison Fort  
 Canby. The Gen. Canby took them  
 over Thursday afternoon. The de-  
 tachment comprises two companies, E.  
 and L, the first named being officered  
 by Capt. Frank E. Taylor, 1st Lt.  
 Robert H. Patterson and John Pope,  
 Jr., and 2d Lt. Charles J. Bailey,  
 the latter by Cap. John C. White,  
 1st Lt. Richard G. Shaw and Abner  
 H. Merrill, and 2d Lt. H. M. Fill-  
 more.  
 —Julius Halbsguth, teacher of vocal  
 and instrumental music, piano and  
 organ tuner. Orders left at Adler's  
 book store promptly attended to.  
 —The Indians in Mendocino county,  
 Cal., poison large quantities of fish.  
 They use a weed that grows like clover  
 in bunches and is abundant in that  
 county. They bruise the weed and  
 then fasten a quantity of it in the cur-  
 rent at the head of a hole of deep  
 water. The fish become crazy from  
 its effects and die. It kills everything  
 in the hole where it is placed, from  
 the largest down to the smallest min-  
 now. The Indians in this way, gather  
 fish by the basketful.  
 —The efforts of C. W. Smith to get  
 on board the outgoing steamer yester-  
 day morning without going through  
 the usual preliminary of purchasing a  
 ticket, etc., attracted Chief Barry's  
 attention, and when finding that his  
 general appearance tallied with a writ-  
 ten description of a man who is  
 "wanted" in Portland for alleged  
 horse stealing, he turned him over to  
 Constable Ward who had come down  
 with a warrant Thursday afternoon.  
 He goes up in custody on this morn-  
 ing's boat.

**The Beecroft.**  
 A few days ago we gave a descrip-  
 tion of the Tratalgar, a four-masted  
 vessel of 2500 tons carrying capacity,  
 and a fine specimen of naval architec-  
 ture. Below, at the O. R. & N. Co's  
 dock, lies an equally fine a ship,  
 though built on a different model—the  
 Beecroft. This vessel was built in  
 Sunderland, by Oswald, in 1875;  
 her length over all is 263 feet; breadth  
 of beam, 39 feet; depth of hold, 23  
 feet, 8 inches; draft, 21 feet, 4 inches.  
 Her registered tonnage is 1626 long  
 tons; she will carry from this port 500  
 tons of wheat and 1900 tons of flour,  
 her carrying capacity being 2400 tons.  
 The general evidence of neatness, the  
 polished decks, trimness of rigging, well  
 furnished quarters and general home  
 like air gives the Beecroft an appear-  
 ance of thorough seamanship and  
 understanding of how at the sea-  
 time to make pleasant a sea faring life.  
 Capt. Christie, who takes as much  
 pride in his ship as most men take in  
 their wives, tells us that the sailing  
 qualities of the Beecroft are un-  
 surpassed. This last trip he left Liver-  
 pool May 18th with 2,100 tons of  
 miscellaneous freight for Melbourne,  
 which port he made in seventy nine  
 days. He lay twenty-three days in  
 Australian waters, and then set sail  
 for the Columbia, arriving off the bar  
 the fiftieth day after weighing anchor  
 in Melbourne, which we believe is  
 about as quick a passage as any on  
 record.

 ting in a foundry.

 class dining-room are for sale, includ-  
 ing an A 1 range and complete outfit.

 dog fight the other day, and now the  
 people of that capacious community  
 are circulating a petition requesting  
 him to resign for illegal interference  
 with their pleasure.  
 —Fresh laid, of their own manufac-  
 ture, at Warren & Eaton's.

 the West Shore mills. One of her

 and broke the puddles out of the  
 wheel.  
 —J. W. Conn has removed to the old  
 stand of Warren and Eaton, opposite  
 the Occident.

 ployed at Kinney's cannery for several  
 years, has been engaged by A. Booth

 stock; first class goods, cheap for cash.

 inson and C. S. Humbert arrived in

 Occident hair dressing saloon, twenty-  
 five cents.  
 —The soiree of the Social Club,  
 Thanksgiving night, passed off very  
 pleasantly, there being just enough to  
 fill the hall. Supper was served by

 the heaviest export of any year in the  
 history of the Northwest.—Oregon-  
 inia 25th.  
 —L. A. Loomis left on the Oregon  
 yesterday morning for a five weeks'  
 visit to the East and old friends there  
 resident. He will bring back boilers  
 and machinery for the Transportation  
 company's boat, now building here.  
 —A splendid lot of Eastern Oysters  
 just arrived by the State of California  
 at Tom Smith's Oyster Saloon, Main  
 street.  
 —A bright sun and a crisp east wind  
 made Thanksgiving day just enough  
 like the remembered Thanksgiving  
 days back east to recall memories of  
 that day in the minds of those from  
 the other side of the Rockies. A gen-  
 eral suspension of business, a due re-  
 ligious observance by most of the  
 church going population, several pri-  
 vate dinner parties, and a social dance  
 at Liberty Hall were the leading fea-  
 tures of November's fourth Thursday  
 in Astoria.
