

The Astorian

ASTORIA, OREGON

FRIDAY, JAN. 20, 1882

J. F. HALLORAN, Editor

THERE are now two large ships on the way to Tacoma with railroad iron which we would like to load at Astoria, but we will probably have to wait until three large tugs come on to the bar before they can cross out with a full load.

THE Standard is of the opinion that M. C. George's bill "providing that all lands hereafter granted to aid in construction of railroads, which shall not be taken up by building of the roads before the first day of January, 1885, shall be declared forfeited and open to settlement," is nothing more than a shallow device to give the Northern Pacific railroad another extension until 1885, in which to earn lands fairly forfeited July 4, 1877.

AMONG the schemes which will come before the present congress is one to connect the Mississippi river and the lake system by a canal between the Illinois river at Hennepin, to Rock Island on the Mississippi. The distance is only sixty-five miles, and the estimated cost is \$3,000,000.

A REMNANT of Sioux refugees in Oak River, Manitoba, are solving the vexed Indian problem in a manner that should be mutually satisfactory. They were originally a part of Sitting Bull's band, but when he surrendered they refused to come in.

IT is reported that the Flathead Indians in Montana have ordered the Northern Pacific surveyors at work on their reservation, to cease operations, and compelled them by menaces to obey.

THE Utah delegate dispute is to be settled by refusing a seat to either claimant. It is thought that that will establish the fact that a polygamist cannot have a seat in Congress, nor can a man who was not elected.

THE cost to the Beecroft in demurrage and interest on cargo, for having to wait so long before going to sea, amounts up to over six thousand dollars, or twice as much as it would take to temporarily deepen the bar across the middle sands with the scraper.

THE New York penitentiary pays the state \$3000 a month profit over all expenses.

EFFORTS, having the probability of success, are being made to introduce carp into Oregon waters. This fish will probably live and thrive in warmer water and upon less food than almost any other, but to have it of the best flavor and in best condition for the table, it is only reasonable to suppose that, for a while at least, before being brought to such use, it should have lived in tolerably clear water of moderately low temperature with a sufficient supply of suitable food.

AN interesting assertion regarding nomenclature is made in reference to the present speaker of the house. It is asserted that his grandfather came from Ireland to America and that his name was McKeever, a common name in County Down.

ALTHOUGH in general we deprecate interference with the regular forms of justice, yet there are occasions that demand prompt vengeance; and in the triple lynching at Seattle last Wednesday, we recognize an instance in which a community did just right in twisting the necks of men who by their deeds had forfeited the right to live.

IN the dodges practiced by immigration agents the Canadian Pacific folks are ahead. Sections of the prairie sixteen feet square, are taken up along the railroad line, and carried bodily to England, and glass jars filled with black loam are also sent to show what the soil actually is.

THE tomb of Garfield is kept constantly covered with flowers, which are renewed daily. The funeral car stands within a glass house at the base of the hill on which the monument is to be placed, and is guarded by a detachment of United States troops.

CALIFORNIA papers are informing their readers, Republican or Democratic as the case may be, that they must "organize" if they want to win next fall.

THE woman suffragists have no cause to be enthusiastic over the promotion of Judge Gray to the United States Supreme Court. He made a decision a few months ago refusing to admit a woman to practice in the Supreme Court of Massachusetts.

THE Utah delegate dispute is to be settled by refusing a seat to either claimant. It is thought that that will establish the fact that a polygamist cannot have a seat in Congress, nor can a man who was not elected.

UNDER the present regime ship building in the United States threatens to become one of the "lost arts." During '81 only eleven sea going vessels with an aggregate burthen of 3,480 tons, were launched in the district of Boston.

THE American eagle which soared and screamed under Blaine's tutelage has been aptly compared to a capon since Freliaghuyson took charge of the bird.

THE price of subscription to THE WEEKLY ASTORIAN has been reduced to \$2 per annum when paid in advance. If not paid in advance the old price of \$3 will be charged.
