THE CITY.

THE DAILY ASTORIAN will be sent by mail at 75 cents a month, free of postage. Readers who contemplate absence from the city can have THE ASTORIAN follow them, DAILY or WEEKLY editions to any post-office without additional expense. Addresses may be changed as often as desired. Leave orders at the counting room.

—The Oregon is due this morning.

—The Muriel came down yesterday.

—The Oregonian made $5,456 55 during 1881.

—Eastern churches are introducing the electric light.

—The "Arlington Club" has been organized in Portland.

—The earnings of the O. R. & N. Co. for '81 aggregate $4,391,681.

—Services in Grace Episcopal Church to-day at 11 A. M. and 7 P. M.

—Geo. Hiller calls attention to the fact that at his saloon on Main street, a hot lunch is daily served.

—G. W. Bullene, of Seattle, is to build a mill for the Port Townsend Mill company for $21,000.

—Preaching at the Presbyterian Church by the pastor at 11 A. M. and 7 P. M. Sunday school at noon.

—It is yet an open question whether Lieut. DeLong, the leader of the Jeannette expedition, is dead or alive.

—Methodist Church—Services at the usual hours, by the pastor. Sunday school at noon. Class meeting at 10 A. M.

—The eggs of the dinorius, an extinct species of bird, from the Island of Madagascar, were large enough for a foot-bath.

—The men are hard at work in the Wood River country, I. T., for the Oregon Short Line, and are making good wages.

—R. D. Hume will start a salmon hatchery on Rogue river next summer. He intends making it a permanent institution.

—The Fleetwood came down on time yesterday, and will run regularly hereafter. Her leaving time will be 6 A.M., hereafter.

—Seventy million pounds of butter would make a big pile, altogether. That was last year's production in the State of Wisconsin.

—There will be divine service on board the Ballochmyle, lying at the O. R. & N. Co's wharf, at 4. P. M. Rev. J. McCormac officiating.

—Since 1877 Oregon has sent 400,000 head of beef cattle to the Eastern States. The greater part of this number was raised east of the Cascades.

—The mumps and scarlet fever that so long and sorely afflicted the little folks have about run their malignant course, and the schools are filling up again.

—Nye county, Nev., is the largest county in the United States, covering 24,000 square miles. San Bernardino, Cal., with 23,000 square miles, is the next largest.

—The buoy in the middle of the north channel broke loose last Friday night and was towed into Baker's bay by the life service. The Shubrick has a job on hand now.

—We hear of several unique costumes that will be worn at the masquerade on the 14th. One of them will be Oscar Wilde, in his utterly too too aesthetic act of the sunflower and the lily.

—Mrs. Duniway threatens certain San Francisco manufacturers that if they send her any more soap, and ask pay for it in advertising, she will have them arrested. Let us soap they will take warning.

—There seems to be no let up to the Northwest - Duniway - Simpson - Welcome - Independence - Vaughn snarl. 'Tis a good advertising dodge and the parties most concerned are playing it for all it's worth.

Attention, No. 1.

Regular monthly meeting Monday, February 6th, at 7 P. M. A full attendance is urgently desired. By order
W. W. PARKER, President.
L. E. SELIG, Secretary.

Wanted

More ship carpenters and caulkers are wanted on the Barge. Apply to J. Pacquet, on the grounds.

New Stock

On the next steamer Carl Adler will leave for the East, from where he will send direct from the manufacturers' rooms, several fine pianos and cabinet organs of the most approved style and finish, together with a large assortment of minor musical instruments. It is likewise his intention to order a large stock of books, the latest and freshest, and all the novelties in stationery. He will get from Seth Thomas' celebrated clock works, fifteen hundred clocks in every conceivable style and at all prices, and intends procuring a large stock of fancy goods that will be selected under his personal supervision. His long experience justifies him in the belief that what he brings back with him will meet with the general approbation of his patrons. Special orders will be promptly attended to.

Loss of Wheat

In a letter to the editor of the Walla Walla Union, Phillip Ritz says that while the steamship was being loaded at Astoria "I strolled through the different warehouses, and it was painful to see the great waste on every side of our Walla Walla grain. In some places the wheat was shoveled up in great piles. This our farmers have to lose. When can we have our wheat shipped in bulk and moved through elevators? The company do everything in their power to save the grain, and I noticed one man patching and sewing sacks all the time, but still there must be a great loss, and will continue until the farmers insist on some plan to handle it differently. Of course as long as the farmers are satisfied the transportation companies will not consider it their duty to suggest other plans." When we have a free river, all grain loaded in bulk, at up-river points can be taken in transit to this place and there loaded for its ocean transfer, all that wastage will be saved the farmers—and not till then.

Arithmogryph.

The 10, 6, 18, 17, 19, 15, 20, 4, is a kind of thistle.

The 9, 15, 20, 21, 2, is a spicy quality.

The 3, 16, 15, 16, 7, 9, 1, is a town in New York.

The 8, 19, 5, 18, 11, 4, 8, 20, 4, 20, 4, 20, 18, 13, a city in Turkey.

The 5, 7, 17, 16, 15, 18, 16, 2, 12, is to insert a page.

The 2, 18, 22, 9, 18, 13, is in Wyoming plentiful.

The 7, 16, 20, 17, 16, 15, 11, 14, is one of modern times.

The initials produce one sea, the finals another.

—Rev. R. W. Hill, of Salem, will deliver a lecture in the Congregational Church, Astoria, on the evening of Feb. 16th. Subject, "Rienzi the Last of the Tribunes."

—Josiah West, of Skipanon, goes out on the Columbia, for a trip to California. He intends visiting some of the celebrated butter and cheese factories of that state with view to the more perfect management of his own factory.

—Yes, indeed, it is kind of discouraging to a clergyman, after he has pointed to the situation of a condemned murderer as a warning against crime, to have a deacon rise up and say: "The man was pardoned last week by the Governor."

—On the 1st inst. Representative Page, of California, presented among other petitions, one from the people of Clatsop county praying that the Astoria Land Grant be declared forfeited unless the road is built within two years. Well, the people of Astoria have done their part; Congressman George has done his; the issue lies with the pleasure of Congress.

—We are glad to see that the Olympic Club displays renewed interest in its gymnasium and that the boys do the grand and lofty business every evening now. The plea that "I am too busy to practice" is a good one, but the rules of health demand just that kind of muscular exercise that the gymnasium affords. We understand that a few new members can be admitted under very liberal terms. We refer any one desirous of joining to Dr. Hicks, or Brenham Van Dusen.

—M. D. Kant's San Francisco mask suits will be on this steamer. There will be a great rush for them, for they are the nicest lot ever bound for Astoria. Call at once and secure yours.

—I have just received the finest assortment of fancy goods in my line ever brought to Astoria, consisting of perfumery cases, toilet sets, toilet cases, fine perfumeries, fancy soaps, combs, brushes, hand glasses, and toilet articles of all kinds—splendid presents for the holidays. Call and examine goods and prices before purchasing elsewhere, at J. W. Conn's drug store, opposite Occident Hotel, Astoria, Oregon.

EXCITEMENT IN ROCHESTER.

The Commotion Caused by the Statement of a Physician.

An unusual article from the Rochester N. Y., Democrat and Chronicle, was republished in this paper and was a subject of much conversation both in professional circles and on the street. Apparently it caused even more commotion in Rochester, as the following from the same paper shows:

Dr. J. B. Henion, who is well-known not only in Rochester but in nearly every part of America, sent an extended article to this paper, a few days since which was duly published, detailing his remarkable experience and rescue from what seems to be certain death. It would be impossible to enumerate the personal inquiries which have been made at our office as to the validity of the article, but they have been so numerous that further investigation of the subject was deemed an editorial necessity.

With this end in view a representative of this paper called on Dr. Henion, at his residence on St. Paul street, when the following interview occurred: "That article of yours, Doctor, has created quite a whirlwind. Are the statements about the terrible condition you were in, and the way you were rescued such as you can sustain?"

"Every one of them and many additional ones. Few people ever get so near the grave as I did and then return, and I am not surprised that the public think it marvelous. It was marvelous."

"How in the world did you, a physician, come to be brought so low?"

"By neglecting the first and most simple symptoms. I did not think I was sick. It is true I had frequent headaches; felt tired most of the time; could eat nothing one day and was ravenous the next; felt dull and indefinite pains and my stomach was out of order, but I did not think it meant anything serious."

"But have these common ailments anything to do with the fearful Bright's disease which took so firm a hold on you?"

"Anything? Why, they are the sure indications of the first stages of that dreadful malady. The fact is, few people know or realize what ails them, and I am sorry to say that too few physicians do either."

"That is a strange statement, Doctor."

"But it is a true one. The medical profession have been treating symptoms instead of diseases for years, and it is high time it ceased. We doctors have been clipping off the twigs when we should strike at the root. The symptoms I have just mentioned or any unusual action or irritation of the wate. channels indicate the approach of Bright's disease even more than a cough announces the coming of consumption. We do not treat the cough, but try to help the lungs. We should not waste our time trying to relieve the headache, stomach, pains about the body or other symptoms, but go directly to the kidneys, the source of most of these ailments."

"This, then, is what you meant when you said that more than one-half the deaths which occur arise from Bright's disease, is it Doctor?"

"Precisely. Thousands of so-called diseases are torturing people to-day, when in reality it is Bright's disease in some one of its many forms. It is a Hydra-headed monster, and the slightest symptoms should strike terror to every one who has them. I can look back and recall hundreds of deaths which physicians declared at the time were caused by paralysis, apoplexy, heart disease, pneumonia, malarial fever and other common complaints which I see now were caused by Bright's disease."

"And did all these cases have simple symptoms at first?"

"Every one of them, and might have been cured as I was by the timely use of the same remedy—Warner's Safe Kidney and Liver Cure. I am getting my eyes thoroughly opened in this matter and think I am helping others to see the facts and their possible danger also. Why, there are no ends of truths bearing on this subject. If you want to to know more about it go and see Mr. Warner himself. He was sick the same as I, and is the healthiest man in Rochester to-day. He has made a study of this subject and can give you more facts than I can. Go, too, and see Dr. Lattimore, the chemist, at the University. If you want facts there are any quantity of them showing the alarming increase of Bright's disease, its simple and deceptive symptoms, and that there is but one way by which it can be escaped."

Fully satisfied of the truth and force of the Doctor's words, the reporter bade him good day and called on Mr. Warner at his establishment on Exchange street. At first Mr. Warner was inclined to be reticent, but learning that the information desired was about the alarming increase of Bright's disease, his manner changed instantly and he spoke very, earnestly:

"It is true that Bright's disease has increased wonderfully, and we find, by reliable statistics, that in the past ten years its growth has been 250 per cent Look at the prominent men it has carried off: Everett, Sumner, Chase, Wilson, Carpenter, Bishop Haven, and others. This is terrible and shows a greater growth than that of any other other known complaint. It must be plain to every one that something must be done to check this increase or there is no knowing where it may end."

"Do you think many people are afflicted with it to-day who do not realize it, Mr. Warner?"

"Hundreds of thousands. I have a striking example of this truth which has just come to my notice. A prominent professor in a New Orleans medical college was lecturing before his class on the subject of Bright's disease. He had various fluids under microscopic analysis and was showing the students what the indications of this terrible malady were. In order to draw the contrast between healthy and unhealthy fluids he had provided a vial the contents of which were drawn from his own person. 'And now, gentlemen,' he said, 'as we have seen the unhealthy indications, I will show you how it appears in a state of perfect health,' and he submitted his own fluids to the usual test. As he watched the results his countenance suddenly changed—his color and command both left him and in a trembling voice he said: 'Gentlemen, I have made a painful discovery; I have Bright's disease of the kidneys,' and in less than a year he was dead."

"You believe then that it has no symptoms of its own and is frequently unknown even by the person who is afflicted with it?"

"It has no symptoms of its own and very often none at all. Usually no two people have the same symptoms, and frequently death is the first symptom. The slightest indications of any kidney difficulty should be enough to strike terror to any one. I know what I am talking about for I have been through all the stages of kidney disease."

"You know of Dr. Henion's case?"

"Yes, I have both read and heard of it."

"It is very wonderful is it not?"

"A very prominent case but no more so than a great many others that have come to my notice as having been cured by the same means."

"You believe then that Bright's disease can be cured."

"I know it can. I know it from the experience of hundreds of prominent persons who were given up to die by both physicians and friends."

"You speak of your own experience, what was it?"

"A fearful one. I had felt languid and unfit for business for years. But I did not know what ailed me. When, however, I found it was kidney difficulty I thought there was little hope and so did the doctors. I have since learned that one of the physicians of this city pointed me out to a gentleman on the street one day, saying: 'there goes a man who will be dead within a year.' I believe his words would have proven true if I had not fortunately secured and used the remedy now known as Warner's Safe Kidney and Liver Cure."

"And this caused you to manufacture it?"

"No, it caused me to investigate. I went to the principal cities with Dr. Craig the discoverer, and saw the physicians prescribing and using it and saw that Dr. Craig was unable with his facilities, to supply the medicine to thousands who wanted it. I therefore determined, as a duty I owe to humanity and the suffering, to bring it within their reach and now it is know in every part of America, is sold in every drug store and has become a household necessity."

The reporter left Mr. Warner, much impressed with the earnestness and sincerity of his statements and next paid a visit to Dr. S. A. Lattimore at his residence on Prince street. Dr. Lattimore, although busily engaged upon some matters connected with the State Board of Health, of which he is one of the analysts, courteously answered the questions that were propounded him:

"Did you make a chemical analysis of the case of Mr. H. H. Warner some three years ago, Doctor?"

"Yes, sir."

"What did this analysis show you?"

"The presence of albamen and tube casts in great abundance."

"And what did the symptoms indicate?"

"A serious disease of the kikneys."

"Did you think Mr. Warner could recover?"

"No, sir, I did not think it possible. It was seldom, indeed, that so pronounced a case had, up to that time, ever been cured."

"Do you know anything about the remedy which cured him?"

"Yes, I have chemically analyzed it and upon critical examination, find it entirely free from any poisonous or deleterious substances."

We publish the foregoing statements in view of the commotion which the publicity of Dr. Henion's article has caused and to meet the protestations which have been made. The standing of Dr. Henion, Mr. Warner and Dr. Lattimore in the community is beyond question and the statements they make, cannot for a moment be doubted. They conclusively show that Bright's disease of the kidneys is one of the most deceptive and dangerous of all diseases, that it is exceedingly common, alarmingly increasing and that it can be cured.

—Call and examine the Union pump at John A. Montgomery's, cheap and of superior pattern and quality.

—Despondency is sometimes called "the blues," because the later term describes at once the color and effects of impure blood. Change it to "rose-colored health" by using King of the Blood. See advertisement.
