—If it take ten mills to make a cent, where are the profits on a barrel of flour?

—A. G. Spexarth has been appointed deputy road supervisor for this district.

—The Cowlitz is full of fine smelt; this fish is now being brought in large quantities to Astoria, where it meets with ready sale.

—Breakfast caps for young ladies are the latest fashion. And, conversely, fashionable young ladies are the latest to breakfast.

—Four feet of snow on Fishhawk mountain; roads impassible on the Nehalem; all communication stopped and a thaw hoped for.

—The man who bought his son a boy's chest of tools on Christmas, has a fine assortment of three-legged chairs in the house by this time.

—A Michigan girl earned sixteen dollars husking corn and bought two pairs of striped stockings. She probably wanted to go to the skating rink.

—The Astoria Packing Co. has been consolidated with the Astoria Fishing company; it will be run this season under the name of the former corporation.

—Work will shortly be begun upon the new road from the west end of Concomly street around the point. It is proposed to build it to the canneries below town this season.

—Mormon women do not keep open houses on New Year's day, and they never look for anything in their stockings on Christmas. They have all they can do to be Mormons.

—Thos. Jewett is hauling sand by the ton to the new Knights of Pythias building. It comes from the point below and when mixed with lime from Tacoma forms good mortar.

—We are sometimes so impressed by a fellow man's estimate of his importance that we tremble at the mere suggestion of what might have been if the Lord had forgotten to make him.

—The number of gubernatorial candidates now in training in this state is something surprising, considering that the office is only worth $1,500 a year—the salary of an average book keeper.

—The Southern Pacific Railroad company has fixed the through tariff on wheat at thirty-nine cents per bushel or $13 per ton for car load lots from San Francisco to Galveston and New Orleans.

—The plant of the Columbia Canning Co., of Fisherton, has been bought by a new canning company who are going to move it and build between the West Coast and Pacific Union Canning company.

—The fog rolled off yesterday morning and the bright sun shone out in pleasant contrast to the damps and mists of the early part of the week. Building of all kinds is very active, new houses, shops, etc., going up on every hand.

—Where does all this Canadian money come from that is in town? "Times go by turns." During the war American silver coin was a nuisance in Canada, and was only taken at a discount. With the resumption of specie payment Canadian silver coin is becoming a nuisance in this country.

—"Why don't you trade with me?" said a close-fisted tradesman, to a friend, the other day. The reply was characteristic: "You have never asked me, sir. I have looked all through the paper for an invitation in the shape of an advertisement, and found none. I never go where I am not invited."

Found Drowned.

As the steamer Willamette Chief was backing from the slip below the O. R. & N. Co.'s dock yesterday noon, the tide being low, the dead body of a man appeared, which had been, evidently, in the water for a long time. The remains were conveyed to Coroner Franklin's undertaking rooms, and a jury summoned. The verdict was that the body was that of J. J. Brien, whose mysterious disappearance was noted in this paper about four weeks ago. He was a former resident of this place, but of late had been living in Portland, where he has friends and relatives. They were notified by telegraph last evening.

Died in an Epileptic Fit.

San Francisco dispatches of the 22d say: Among the passengers arriving by the steamer Columbia yesterday were Dr. I. N. Severn and wife, who came from Astoria. Last evening while out walking about the city Severn was suddenly seized with a violent epileptic fit. He was removed to a receiving hospital, where he continued to grow worse, and died last night at 8 o'clock. Deceased had been subject to such fits for two years. He was thirty-seven years of age, a native of New Jersey, and a graduate of the university of Pennsylvania.

Tug Service.

Capt. Geo. Flavel, now in the city, made a proposition yesterday to the committee appointed by the board of trade, to sell his tugs now used on the Columbia river bar. His offer, it is understood, is viewed favorably by the committee; and within a few days, subscriptions will probably be received for a joint stock company to buy and operate the tugs. A meeting of the committee was held yesterday afternoon, the prevailing sentiment being, in case the purchase was made, to immediately buy or build another tugboat of great power, suitable to the requirements of the Columbia river bar.—*Oregonian 24th.*

Republican Proceedings.

The Republican State Central Committee met in Portland last Wednesday, and after the usual preliminaries the committee on prelimaries made the following report:

Your committee appointed to recommend an apportionment and draft a call for a state convention, would respectively recommend that the basis of apportionment for membership be fixed at one delegate for every 120 votes, and one delegate for each fraction over one-half thereof cast November 2, 1880, for Hon. C. B. Watson, presidential elector, which will give each county the following number of delegates to the state convention, viz:

Baker	4	Lane	8
Benton	6	Linn	12
Clackamas	10	Marion	17
Clatsop	4	Multnomah	27
Columbia	3	Polk	6
Coos	5	Tillamook	1
Curry	1	Umatilla	10
Douglas	10	Union	6
Grant	4	Wasco	11
Jackson	6	Washington	7
Josephine	2	Yamhill	9
Lake	2	Total	171

It was recommended that primaries be held Tuesday, April 4th, county conventions Saturday, April 8th, and decided that the state convention should be held in Portland on Thursday, April 20, 1882.

Well Said.

In concluding a sensible and well written article on the necessity of completing the locks at the Cascades and opening up the Columbia river, the editor of The Dalles Times says: "The editor of the Oregonian knows full well that opening the Columbia river to navigation is an object in which a larger scope of country is interested than any matter now before congress. It includes the bar at the mouth, and every rapid in a river, second not even to the Mississippi in volume of water, for a distance of hundreds of miles. This river and its tributaries drain as fertile a country as can be found on the continent, and is the only route many sections have of getting to market." It is now in order for the "infallible" of the Oregonian to inform our fellow laborer at The Dalles that he, also, has "an insane notion."

She Lectured, all the Same.

Mrs. A. S. Duniway was announced to speak before the bench, bar and others at the court house in Salem on Tuesday evening last, and Judge Boise adjourned court for the purpose. When she arrived at the appointed time, she found the court room locked, by order of Judge Shaw, of the county court, who sent her word that he "loved the ladies, but they couldn't speak in that house." Mrs. D. was accordingly obliged to remain over at Salem another day, and lectured at Reed's Opera House Wednesday evening. She also inserted an explanatory card in the Statesman, in which she goes for Judge Shaw's scalp, and concludes by expressing a wish: "That the ladies of Marion will soon be permitted to use their votes in aiding the wise men of the country in selecting a gentleman to the office Judge Shaw disgraces—one who will 'love' them less and treat them better."

Casual Remarks.

(*a*) A Nevada gentleman whom Judge Lynch had convicted of loving his neighbor's horses not wisely but too well, casually remarked that he had no words to express the poorness of his opinion of the law relating to the ownership of live stock; (*b*) An epicurean fox who confessed to a pronounced taste for grapes, casually remarked that certain full clusters that hung higher than he could spring were much too acidulous to suit his palate. (*c*) One of the ancients, who had vainly sought transportation on Noah's ark, casually remarked, as he earnestly made for the top of the highest flag-pole in his neighborhood, that he didn't believe there was going to be much of a shower. (*d*) Roscoe Conkling casually remarked, as he read the result of the balloting that consigned him to private life, that the will of the majority was but another name for "abhorrent and forbidden forces." (*e*) The "infallible" editor of the Portland paper, casually remarks that though the columns of his own paper give him the lie, yet he has always maintained that the mouth of the Columbia ought to be improved, and that it is an "insane notion" for any one to suppose that the Portland paper ever opposed it.

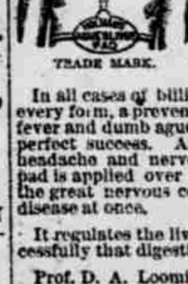
HOLMAN'S PAD.



FOR THE STOMACH, LIVER, AND KIDNEYS.

TRADE MARK.

In all cases of billiousness and malaria in every form, a preventative and cure of chills, fever and dumb ague, Dr. Holman's Pad is a perfect success. And for dyspepsia, sick headache and nervous prostration, as the pad is applied over the pit of the stomach, the great nervous center, it annihilates the disease at once.

It regulates the liver and stomach so successfully that digestion becomes perfect.

Prof. D. A. Loomis says: "It is nearer a universal panacea than anything in medicine." This is done on the principle of absorption, of which Dr. Holman's Pad is the only true exponent.

For all kidney troubles, use Dr. Holman's Renal or Kidney Pad, the best remedy in the world and recommended by the medical faculty.

Beware of Bogus Pads.

Each genuine Holman's Pad bears the private revenue stamp of the Holman Pad Co., with the above trade mark printed in green. Buy none without it.
