Probable Origin.

How the small-pox case in Upper Astoria was contracted is quite a mystery. The young lady has not been out of Astoria for a year nor away from home, excepting to church and school. The most plausible solution, however, is that an uncle who has lately arrived from the east, and has been living in the family since his arrival, may have brought germs of the disease in his clothes. The train on which he came was quarantined at the state line in the Sierra Nevada mountains on account of one case of small-pox being discovered among the passengers. Mr. Bell was vaccinated at the time among the rest, and his vaccination took well. His old clothes were, also, thrown away, yet in some way the disease must have been brought by him.

The vaccination of the others in the Bell family have all been successful. There is, therefore, no danger of any others in the family taking the disease. A house is being erected near their house into which the family expect to move while the house in which the small-pox case is now, is being fumigated. The patient, Miss Bell, is considered to be out of danger.

Clatsop Road.

Many citizens, both on Clatsop plains and at Astoria, are becoming alive to the fact that our county is sadly in want of roads, and none could be of greater benefit to the county at large, than the proposed road from Smiths Point to Skipanon Landing. It is not beyond the means of this community to put such a road through at once. The distance from Smiths Point to the tide land on the south side of Youngs bay, is exactly two miles, and at the cost of $2 per foot a road sixteen feet wide, such as now exists between here and upper Astoria, could be built from the end of the bridge on the tide land to Skipanon Landing, which is exactly one and a half miles, and an earth road of same width could be built at the rate of one dollar per foot, and sanded, making whole cost of road, not including cost of draw-bridge, twenty-eight thousand dollars. The cost above stated is based upon absolute facts, and we hope that the call for a meeting in another column will meet with a hearty response from our business men, and the best means of taking the matter in hand at once determined upon.

Prospective Improvements.

The Secretary of War has sent to Congress the report of Capt. Powell, of the corps of engineers, upon examination and surveys of Young's, Lewis and Clarke's, and Skipanon rivers in Oregon, and Gray's harbor and Chehalis river in Washington Territory, and the survey for a proposed canal from Shoalwater bay to Baker's bay, W. T. The report recommends an appropriation of about $15,000 for a snag boat to be used in patrolling the lower Willamette and Columbia and above named Oregon rivers; $5,000 for a cut-off canal at the bend in the Skipanon river, and $1,000 for dredging the mouth of the Skipanon. Capt. Powell also advises appropriation of $5,000 for removal of obstructions this year from Chehalis river. The project for the above named canal is reported practicable and its first cost is estimated at $325,000.

Don't.

The Oregonian says that the ships Sterlingshire and Carnegie which were towed out on the same day as the Corsica did not strike on the bar. This is news to us here. Perhaps it is best not to mention every little pounding a vessel gets, or even the steamships get, in crossing the Columbia River Bar; but when it is positively known a vessel strikes don't say "it did'nt strike."

For Rent

Two splendid front rooms, suitable for offices. Inquire of Alex. Campbell.

Canneries.

Considerable activity is manifest among the different canneries here and in the vicinity, and a general overhauling of plant is going on in the different establishments. New boats to be built, others to be repaired; new nets and net racks; large quantities of lead, tin, salt and twine purchased; and men engaged for the coming season, which promises to be the liveliest in the history of the business. The following, as near as we can get it, is a list of the canneries in Astoria and vicinity: Wm. Hume, Geo. W. Hume, J. O. Hanthorn & Co., Elmore Packing Co., the Astoria Packing Co., Weatherby & Thomes, A. Booth & Co., Scandinavian, Fishermen, West Coast, Occident, Anglo American, Pacific Union, and Ocean Canning companies, C. Timmins & Co., S. D. Adair & Co., Jno. A. Devlin & Co., C. Leinenweber & Co., and the Co-operative Canning company, of Astoria. At Ilwaco are the Aberdeen Packing Co., and the Cape Hancock Canning Co.; the latter, an institution as yet, we believe, in inception. Across the the river is Joseph Hume; at Eagle Cliff Wm. Hume has one also. Then there is the Pillar Rock, Columbia, Eureka, Woody Island, and two others; the cannery of J. W. & V. Cooke, at Clifton; J. West, New Westport; S. Williams, Tansy Point; Hapgood & Co., Cutting & Co., Jas. Quinn, Jackson & Meyers, and J. G. Megler & Co., at Brookfield, W. T.
