Addresses may be changed as often as desired. Leave orders at the counting room.

—Seattle wants a town clock.  
 —Five feet of snow in the valley this side of the Fish-hawk.  
 —A large number of men and supplies arrived on the State, last Sunday.  
 —Who knows when the Democratic primaries are to be held in this county?  
 —The Mary Graham went up river yesterday in tow of the E. N. Cooke, Ferchen pilot.  
 —The ground was cleared yesterday for the foundation of the new Presbyterian church.  
 —The body of the late Warren Hayden was taken to Unity yesterday on the Canby; the funeral takes place to-day.  
 —The editor of the Albany Democrat has slept ten years. He says the Monitor-Merrimack fight took place ten years ago.  
 —The Montezano is having the finishing touches put on this week. She will start on her initial trip for Shoal-water bay about Monday next.  
 —F. C. Montgomery, late of Kansas, who lately brought out a printing outfit all boxed up, is going to start a paper at Cheney, Spokane Co., W. T.  
 —The weather on Sunday and yesterday was too pretty to last. The clouds were banked up last evening in readiness for a brief season of weeping.  
 —Every steamer now that touches at our port brings the advance guard of colonies from Kansas who are coming to Oregon this season. There is room for them and they are welcome.  
 —The committee on Commerce in the House of Representatives expect to report the river and harbor bill next Thursday. Then we'll know what has been done for the Columbia.  
 —Sergeant Mason, who shot at Guiteau last September, has been dishonorably discharged from the service. He forfeits all pay due him and gets eight years hard labor in the penitentiary.  
 —A New Jersey farmer set an old straw stack on fire to scare out a fox, and three tramps crawled out of the smoke and upbraided him for his carelessness in not first jabbing around with a pitchfork to see if any one was there.  
 —Mr. Driscoll, of Gray's river, met with a serious accident last Saturday while going home. A small can of powder in some way took fire and so severely burned the unfortunate man in the eyes that his sight is thought to be lost.  
 —There will be a band contest at McMinnville on the 25th and 26th of next month. Any band in Oregon can enter; there will be two prizes, \$100, first, and \$50, second. Here is a chance for our Astoria boys to make a winning and increase their reputation besides.  
 —Hon. George L. Woods, who was four years Governor of the State of Oregon, from 1866 until 1870, and four years Governor of Utah Territory, from 1871 until 1875, and recently connected with the Oregon Railroad at Reno, is likely to be nominated as a candidate for Congress by the Republicans of the 4th district of California.  
 —A striking proof of the truth of the old saying that crops never fail in Oregon, is furnished by the announcement that there were fourteen children born in the town of Pendleton last week. When it is taken into consideration that the population of this place is considerable less than 1,000, the Standard thinks the rate of increase is remarkable.

**The State of Washington.**

Saturday's dispatches say Delegate Brents' bill to provide for admission into the Union of the State of Washington has been reported from the House Committee on Territories with amendments, which wholly strike out the provision for including part of Idaho Territory within the boundaries of the proposed State, and which also stipulate that neither money nor the credit of the State or of any city, town or other municipal corporation therein shall give or loan to or in aid of any association, corporation or private undertaking, and that the aggregate debt of the State shall not at any time exceed \$1 per capita of population according to the last general census. The amended bill further provides that half a million acres of public land granted for school purposes shall not be sold for less than \$5 per acre, and that the funds derived from such sale shall be kept inviolate.

**Announcement.**

The National Surgical Institute of Indianapolis, with branches at Philadelphia, Atlanta, Ga., and San Francisco, which has a national reputation, will permanently establish a branch at Portland, Oregon. Two of the skilled surgeons of this institute prepared with every needed apparatus for the successful treatment of cripples will meet all the old patients and such new ones as may desire treatment, this year, at the following places: Portland, at St. Charles Hotel, April 8th, 10th and 11th; Albany, April 12th and 13th; The Dalles, April 17th; Walla Walla, April 19th and 20th; and Seattle, April 25th and 26th, and hereafter at Portland, Oregon, on the first two weeks of May and November of each year, commencing Nov. 1882.

**Fishing Boats.**

The fishing boat business is in full swing here at present. Time was when the boats were made in San Francisco almost exclusively, but the boat makers of Astoria do better and cheaper work and get ninety-nine per cent of the business. A good boat costs from \$200 to \$250, is built of oak and cedar, copper fastened, decked on the ends and sides, and furnished with center-boards. Some of the boat builders here think that clinker-built boats would stand rougher usage than those built on the present model, but the old style gives universal satisfaction to the cannerymen and fishers, and, so, is adhered to. They make good sea boats and can be rowed or sailed as best serves the fishermen's turn. There will be from 1200 to 1400 on the river this season; the item of boats, alone, representing an investment of \$300,000.

**Police Court.**

March 13th, 1882.  
 E. Haley, disorderly, deposit \$5. No appearance. Deposit forfeited.  
 —The Astoria Iron Works will cast a ton of iron to-day.  
 —Mr. Frank Elbersson who has been visiting friends in Corvallis, returned on yesterday afternoon's steamer.  
 —San Francisco argues that as long as the opium business can't be stopped it might as well be made to yield a revenue to the city; so all opium joints are to be licensed. It is a step backward. If the logic of California prevails and is legitimate, how would it be to carry it to its natural sequence and license all sorts of vice and crime? It means that or nothing.  
 —The end of the track on the Northern Pacific is now at Rosebud river, 35 miles west of Miles city, Montana, and is being extended at the rate of three-fourths of a mile per day. The grading is nearly completed to Big Horn river, and beyond that and west to Stillwater the heavy work is well under way. The tracklaying will not be hindered any by the grading, and when spring opens will progress at the rate of one and one-fourth miles per day.  
**Pro Bono Publico.**  
 To my customers and the public generally, I would announce that I have left on the Oregon to lay in my stock of goods, clothing, furnishing goods, etc. for spring and summer trade. I will try my utmost to select a very fine assortment of them. The best of all is not too good for Astorians. Prices will range very low, as goods are really cheap this season. Wait for my return to get your outfit. M. D. KAST, Merchant Tailor and Clothier, Main street, Astoria, Oregon.  
 —Furnished or unfurnished rooms can be had at the Union Hotel.

**THE BIG SPRING SHOW.**

Spring's advertising agents come. Unheralded by trumpet or drum. To give for April, May & Co. Announcement of the season's show. They stretch a sign across the sky. And every day it rises high. Telling in print that all may see The many wonders soon to be. Announcements shine on plains and hills. And rushing streams and babbling rills Are talking as they shout and sing About the splendid show of Spring. On every field the words appear: "You soon shall see a marvel here." In every forest, overhead: "Here shall a gorgeous tent be spread." They capture all our ears and eyes, And whisper of a grand surprise: They say the bluebirds soon will bring The wonders of the show of Spring. Our towns and cities they invade, And fill the avenues of trade; Then straightaway in the windows' glow Announcements of the season's show. The old, old show, yet always new. That never fails to come when due— The sight that all rejoice to see, And, best of all, the show is free.

**AN UNUSUAL FUREOR.**

**A Recent Excitement Investigated by the Herald and the Results Made Public.**

Cleveland, O., Herald.  
 A few weeks ago we copied into our columns from the Rochester, N. Y. Democrat and Chronicle "A Remarkable Statement," made by J. B. Henion, M. D., a gentleman who is well known in this city. In that article Dr. Henion recounted a wonderful experience which befell him, and a few days thereafter we published from the same paper a second article, giving an account of the "Excitement in Rochester," caused by Dr. Henion's statement. In the first article Dr. Henion stated that for a number of years, up to last June, he had been afflicted with what seemed at first a most mysterious trouble. He felt unaccountably tired at frequent intervals; he had dull and indefinite pains in various parts of his body and head, and was very hungry one day and entirely without appetite the next. However, as a physician, he thought, and so did his fellow physicians, that he was suffering from malaria.

But yet he grew worse, and was finally obliged to give up a large and lucrative practice. Still he was not conscious of his danger, nor that a monstrous disease was becoming fixed upon him, although his organs had become gradually weakened. The symptoms above described, continued, accompanied by others of an aggravated nature, and he noticed a peculiar color and odor about the fluids he was passing; that they were abundant one day and very scanty the next, and were covered with froth or filled with brick dust sediment. But even then he did not realize his real and alarming condition. At last, however, he was brought face to face with the fact that he was the victim of a most terrible disease, and he made heroic efforts for recovery. He traveled extensively and consulted the best physicians, but they could give him only temporary relief, and that principally in the form of morphia. And so he grew steadily and constantly worse until his life became a torture. His pulse was uncontrolable. He lived wholly by injections, and for six days and nights he had the hemorrhages constantly, which are considered the sure indications of coming death.

When hope and life were nearly exhausted his pastor, the Rev. Dr. Foote, rector of St. Paul's church, strongly urged him to try a means which the reverend gentleman had seen used with remarkable results. He objected at first, but finally consented, and was conscious of an improved condition the first week. His pains gradually disappeared; his stomach resumed digestion; his heart became regular; his headaches disappeared; he had no more chills and fever, or acidity of the stomach; he gained twenty-six pounds in three months, and is a well man to-day, being entirely cured of a most pronounced case of Bright's disease.

Although conscious of the consequences from his professional brethren, still as a duty to his fellow men, and according to a vow he made on what he thought was his dying bed, he published a card detailing his illness and his remarkable cure. "Since my recovery," he says, "I have thoroughly investigated the subject of kidney difficulties and Bright's disease, and I believe more than one-half the deaths which occur in America are caused by BRIGHT'S DISEASE OF THE KIDNEYS. It has no distinctive symptoms of its own (indeed it often develops without any pain whatever in the kidneys or their vicinity), but has the symptoms of nearly every other known complaint. Hundreds of people die daily whose burials are authorized by a physician's certificate of "Heart Disease," "Apoplexy," "Paralysis," "Spinal Complaint," "Rheumatism," "Pneumonia," and other common complaints when in reality it was Bright's disease of the kidneys. Few physicians and fewer people realize the extent of this disease or its dangerous and insidious nature. It steals into the system like a thief, manifests its presence by the commonest symptoms, and fastens itself on the life before the victim is aware. It is nearly as hereditary as consumption, quite as common and fully as fatal. Entire families, inheriting it from their ancestors, have died, and yet none of the number knew or realized the myster-

ious power which was removing them. Instead of common symptoms it often shows none whatever, but brings death suddenly and as such is usually supposed to be heart disease.

The second article, entitled "Excitement in Rochester," was made up of interviews with Dr. Henion himself, who confirmed all said in his card, and also with Mr. H. H. Warner. The latter gentleman did not regard Dr. Henion's case as particularly exceptional, because he had known of very many such cures by the same means in all parts of parts of the land. Kidney diseases," he said, are carrying off tens of thousands every year, while Bright's disease is increasing 250 per cent. a decade, and yet the people do not realize it or seek to check it until too late. He related how a New Orleans medical professor, lecturing on this disease, thinking to show his class what healthy fluids were, subjected some of his own to a chemical test, and although he had no suspicion of it before, discovered that he, too, had the dreaded disease, which proved fatal in less than a year. There was also an interview with the celebrated chemist of the New York State Board of Health, Dr. S. A. Lattimore, who said he had analyzed the remedy which cured Dr. Henion, and found that it was "entirely free from any poisonous or deleterious substances."

We have made these condensations in order that all the material facts may be set before our readers. Since the publication of these two articles, having been besieged with letters of inquiry, we sent a communication to Dr. Henion and also one to H. H. Warner & Co., asking if any additional proof could be given us as to the validity of the statements published. In answer thereto we have received the following letters, which add interest to the entire subject and wholly verify every statement hitherto made:

ROCHESTER, N. Y., FEB. 2, 1882.  
 GENTLEMEN: Your favor is received. The published statement over my signature, to which you refer, is true in every respect, and I owe my life and present health wholly to the power of Warner's Safe Kidney and Liver Cure. It is not surprising that people should question the statement I made, for my recovery was as great a marvel to myself, as to my physicians and friends.  
 J. B. HENION, M. D.

Rochester, N. Y., Jan. 31, 1882.  
 SIRS: Acknowledging your favor duly received, we would say: The best proof that we can give you that the statements made by Dr. Henion are entirely true, and would not have been published unless strictly so, is the following testimonial from the best citizens of Rochester, and a card published by Rev. Dr. Foote, which you are at liberty to use if you wish,  
 H. H. WARNER & Co.

To Whom it may Concern:  
 In the Rochester, N. Y. Democrat and Chronicle of December 31, 1881, there appeared a statement in the form of a card from Dr. J. B. Henion, of this city, recounting his remarkable recovery from Bright's disease of the kidneys, after several doctors of prominence had given him up, by the use of a preparation manufactured in this city and known as Warner's Safe Kidney and Liver Cure.

We are personally or by reputation acquainted with Dr. Henion, and we believe he would publish no statement not literally true. We are also personally or by reputation well acquainted with H. H. Warner & Co., proprietors of this remedy, whose commercial and personal standing in this community is of the highest order, and we believe they would not publish any statements which were not literally and strictly true in every particular.  
 C. R. PARSONS, (Mayor, Rochester.)  
 WM. PURCELL, (Editor Union and Advertiser.)  
 W. D. SHUART, (Surrogate Monroe County.)  
 EDWARD A. FROST, (Clerk Monroe County.)  
 E. B. FERNES, (District Attorney Monroe County.)  
 DANIEL T. HUNT, (Postmaster, Rochester.)  
 J. M. DAVY, (Ex-Member Congress, Rochester.)  
 JOHN S. MORGAN, (Special Co. Judge, Monroe County.)  
 HIRAM SIBLEY, (Capitalist and Seedman.)  
 W. C. ROWLEY, (County Judge, Monroe County.)  
 JOHN VAN VOORHIS, (Member of Congress.)  
 CHARLES E. FITCH, (Editor Democrat and Chronicle and Regent of the University.)

To the Living Church, Chicago, Ill.:  
 Will you allow the following card, personal to myself, to appear in your widely circulated paper?  
 There was published in the Rochester Democrat and Chronicle of the 31st of Dec. last, a statement made by J. B. Henion, M. D., narrating how he had been cured of Bright's disease of the kidneys, almost in its last stages, by the use of Warner's Safe Kidney and Liver Cure. I was referred to in that statement, as having recommended and urged Dr. Henion to try the remedy which he did, and was cured.

Now the republishing of his statement in many of the leading journals of the day, has been the cause of an incessant flow of letters to me making inquiries, but chiefly whether the statement is true, or a mere advertising dodge, etc., etc.  
 I beg, therefore, to anticipate any further inquiries and save time and labor, and some postage, by saying that the statement of Dr. Henion is true, so far as it concerns myself, and I believe it to be true in all other respects. He is a parishioner of mine and I visited him in his sickness. I urged him to take

the medicine and would do the same again to any one who was troubled with a disease of the kidneys and liver—  
 ISRAEL FOOTE, (D. D.)  
 Rector of St. Paul's church.  
 Rochester, N. Y., Jan. 28, 1882.

**Notice.**

Just received per steamer Columbia, a fine lot of eastern oysters, which will be served up in first class style at Roscoe's Occident block.

**To the Ladies.**
