Republican State Platform

Adopted in the Republican State convention, at Portland, April 29th, 1882:

The Republican party of Oregon in convention assembled do make and affirm the following declaration of our political principles:

Resolved—1. That we favor honest, efficient and economic administration of every department of government.

2. That we favor the equal protection of the rights of labor and capital.

3. That we are in favor of regulating the salaries of county officers so that they shall receive such compensations as are consummate with their services.

4. That we regard the free school system of our state as the special care and pride of the Republican party.

5. That it is the policy of the Republican party to foster and encourage the development of our state by the construction of railways which will place us in direct communication with our sister states.

6. That we hold all corporations to be strictly responsible to their liabilities under the law, and recognize the right of the legislature to enact all reasonable limitations on corporate powers.

7. That to the end that all settlers upon unearned railroad lands in this state may be enabled to obtain titles without delay, and that those seeking homes may not be embarrassed in the location of lands, we favor such action by Congress as will place such lands within reach of actual settlers at a price not exceeding $2.50 per acre, under such conditions and provisions as will secure the railway companies in any vested rights or equities they may have in the proceeds of such lands.

8. That we favor the enactment of a law by Congress restoring to settlers the right to homestead and pre-empt in all cases where by abandonment of entries and filing, they have hitherto not had the full benefit of these acts.

9. That the rapidly increasing manufacturing and wool-raising interests of the state demand the continued fostering care of the general government.

10. That the reciprocity treaty with the Sandwich Islands is an imposition upon the government and the people and should be speedily abrogated.

11. That by the generous policy of the Republican party in Congress, liberal appropriations have been made to various portions of the state, and we favor a continuance of this liberal policy for the development of our state and especially for the improvement of the Columbia river and tributaries, the Yaquina and Coos bays, the proposed harbor of refuge at Port Orford, the Umpqua, Coquille and Siuslaw rivers, the construction of the locks at the Cascades and The Dalles of the Columbia river, as well as other sections of the state.

12. We profoundly deplore the untimely and tragic death of James Abram Garfield, late President of the United States, who was shot down while in the discharge of his official duties by the hand of a cowardly assassin, and we approve and applaud the practical wisdom, the unselfish patriotism and the unswerving fidelity of the constitution and the principles of the American liberty with which James A. Garfield discharged under circumstances of unparalleled difficulties the great duties and responsibilities of the presidential office during his brief occupancy there.

13. We regret President Arthur's veto of the bill for restriction of Chinese immigration as unwise and unjust, and we condemn the policy which prompted it as being opposed to the principles of the Republican party as expressed in the platform of our last national Republican convention; and

We heartily commend our representative in Congress, Hon. M. C. George, for his able efforts to secure the passage of such bill; and

We here earnestly declare it to be our belief that Chinese immigration to the United States should be restricted, and we demand that our representatives in Congress shall persist in advocating the enactment of a law that will effectively accomplish this result.

13. That we heartily endorse the course of our able congressman, Hon. M. C. George, in his untiring efforts in behalf of our State, and that we heartily approve the economical and efficient administration on the part of our present Republican state officers.

State Democratic Platform

At the State Democratic Convention held in Portland on April 5th, 1882, the following platform was adopted:

The democratic party of the state of Oregon in convention assembled, cognizant of the important consequences depending upon its deliberations, and affirming the principles laid down by the founders of this government, do declare as follows:

1. That we favor honesty, efficiency, and economy in every department of the government, both state and federal.

2. That we favor the equal protection of the rights of labor and capital under just laws.

3. That while we recognize and respect the legal rights of railroad enterprises, we demand that our legislatures, state and federal, enact such laws regulating the same, as may be necessary to prevent unjust discrimination and oppression of the people.

4. That we denounce the present tariff system as class legislation favorable to the few and oppressive to the many; and therefore demand an immediate revision thereof, a reduction of all import duties to a strict revenue standard; and that the free list be so enlarged as to include all articles of merchandise, agricultural and domestic use among the people, as far as the needed revenues of the government will permit.

5. That the president's veto of the Chinese immigration bill is a public misfortune. It sets the degrading mark of competition with the coolies of China upon the labor of the workingmen of America, and it treats with contemptuous disregard the unanimous protests and appeals of the entire Pacific coast. In behalf of the people of Oregon we disapprove and condemn it, and declare it to be the duty of every citizen, regardless of party, to express his disapproval with his vote as well as with his voice.

6. That the assassination of President Garfield was a national calamity to be regretted by every law-abiding citizen and that said assassination was the result of the pernicious practice of the republican party in applying the spoils system to every branch of the civil service of our government.

7. We believe that polygamy is a crime punishable by law, and that its existence should be made odious and impossible.

8. That we are in favor of a repeal of the navigation laws, and the removal of the duties on all materials that enter into the construction of vessels, so that American produce can be carried in American bottoms, and the American people be able to enter into competition for the carrying trade of the world.

9. That we regard the improvement of the Columbia river and its tributaries, the Yaquina and Coos bays, the harbor of refuge at Port Orford, the Coquille river, the construction of the locks at the Cascades, and the Dalles of the Columbia river, and the improvement of other harbors and rivers of our state as essential to the prosperity of its people, and we demand of our senators and representative in congress their best endeavor to secure liberal appropriations and favorable legislation therefor by the general government, the end that the whole of Oregon may share in the certain benefits ensuing from competition in transportation.

10. That we favor the maintenance of the public schools, the hope and pride of a free state, and we demand such ways and means as will contribute to the increase of funds for that purpose.

11. That we favor the taxation of all mortgages in the county where the same are recorded.

12. We assert that it is the duty of the legislature to enact such laws as will make the compensation of clerk and sheriff of every county in this state commensurate with the services performed.

13. We denounce any organization or legislation that would prescribe any citizen on account of religion or nationality.
