The Annerly went to sea yesterday evening.

Mrs. Hiller advertises dressmaking, etc., under "New To-day."

The H. W. Dudley went up stream yesterday in tow of the Ocklaha.

The revenue cutter Richard Rush arrived in from San Francisco last evening.

The new steamer Gen. Miles will be launched at two o'clock next Thursday afternoon.

The excursion this morning to Hiwaco bids fair to be a pleasant one, the weather being delightful, and the water smooth.

Rev. G. H. Atkinson will preach in the Congregational church to-day, morning and evening. A cordial invitation extended to all.

Not having seen it in any of our exchanges up to date, we supply the usual remark: "peace hath her victories, no less renowned than those of war."

Presbyterian services in the Baptist Church this morning at 11 o'clock. Sabbath school at close of morning service. There will be no service in the evening.

Meeting as usual at the Y. M. C. A. Hall at a quarter to three o'clock. Song service from Moody and Sankey's Combined Gospel Hymns. Cordial invitation extended to everybody. Good singers especially welcome.

C. C. Brewer will give a prize of \$5 to any boy or girl of Clatsop county under sixteen, who will give the best recital of the declaration of independence, in Astoria, before a public audience on or about July 1st, five judges to make the award.

The Rev. Henson, of New York, says that all newspapers, except religious ones, should be suppressed; the Rev. Prime of the same city and county aforesaid, being deposed, doth say that churches should not have bells any more than theaters do. Warm Atlantic weather evidently affects the imagination.

A report from Tillamook says the Republicans have about fifty majority on the state ticket, but the Democrats have given the joint representative a majority of ten or twelve in the county offices except clerk and sheriff. If so it will give Smith but nine or ten majority in the two counties.

Rev. Geo. H. Atkinson will hold divine service in the Congregational church this morning and evening. Dr. Atkinson's subject in the morning will be "Christ's Estimate of a Disciple's Greatness." In the evening he will deliver another fine discourse prepared at the request of the Oregon City post of the Grand Army of the Republic.

The river is full of driftwood sent down by the melting snows. At Portland the water is extraordinarily high; at Kalama the railroad track is submerged, and serious loss is occasioned lumbermen and shippers at all points above. Opposite this city the current runs swiftly to the sea, and at high tide, when the wind is up stream, it looks "full."

Steele Mackayo has invented an orchestra chair which folds up at a touch and disappears, leaving the orchestra room an open, unobstructed space. This invention will be especially useful in towns where the audiences do not know when the play is ended. The disappearance of the seats down through the floor will be a signal for them to jump and leave. Then the manager can display a sign that says "standing room only," and telegraph the same to the next town.

Should be Stopped.

Speaking of those fish wheels in the upper river, the Standard says: "Up to the present year but one of these wheels was in use, now there are six. If the full grown fish constituted all the catch it would not be so bad, but the young fish are thrown out by the revolving wheel into nets as well as the other, and when they pile up in the receiving tanks beneath so as to be in the way, they are thrown back into the river again. Tons of fine young salmon, trout, sturgeon, eels, and in fact all kinds of fish are thus destroyed every year. It does seem as if this wanton destruction of the finny tribes should be stopped. Our state has laws which are intended to prevent the extermination of the fine salmon and other fish abounding in our rivers. We are informed that a company has leased the exclusive right to fish at the Cascades from the owners of the land along the banks, erected their wheels and driven all other parties from the fishing grounds, thus adding a monopoly of the business to that of the wanton destruction of the growing supply."

A Success.

The entertainment on Friday evening was a great success. A large audience, well filling the hall, greeted the friends of the church, and the interest awakened by the grand march, when all who were to take part marched up the center aisle on to the stage, was well sustained throughout. The Indian scene recalled the dangers of early exploring expeditions, by representing a well-known event in the history of old Virginia, when the sympathy of woman caused the savage chief to relent. This was well rendered, especially if we remember how difficult it is for civilized men to act like real savages. Mention must also be made of the broom brigade (nine girls marching and drilling to music) their part was a credit to themselves and to Miss Hewitt, the leader. Prof. Meyer and Mr. McIntosh delighted the audience; Miss Katie Flavel was loudly cheered; all the recitations were good. The risible faculty was occasionally touched by farcical parts, and everybody seemed to think the ice cream was delicious. The ladies of the church have desired us to thank the friends for their kindness and aid.

"Stop My Paper."

"I want you to stop my paper."
 "All right, Madam."
 "Stop it right off, too," she persisted, whacking the table again, "for I waited long enough for you to do the square thing."
 She quieted down a little as we ran our fingers down the list of names, and when we reached hers and scratched it out, she said:
 "There now, mumble you'll do as you ought to after this, and not slight a woman because she's poor. If some rich folks happened to have a little red-headed, bandy-legged, squint-eyed wheeze-squaller born to them, you puff it and then up, and make it out an angel; but when poor people have a baby you don't say a word about it, even if it is the squarrest-footed, biggest-eyed, highest-headed, noblest little kid that ever kept a woman awake nights. That's what's the matter and that's why I stop my paper."
 And she dashed out as rapidly as she came.

Children's Day.

Children's Day will be appropriately observed at the M. E. Church to-day. A responsive service will be used. Service at 11 a. m. on "The Duty of Parents." Brief addresses in the evening by Rev. J. McCormac, Mr. M. G. Royal and the pastor, also several recitations by the children. The church will be decorated. All are welcome. Seats free.

The market rate of liberty remains the same, uninfluenced by recent events.

The State of California left San Francisco, Wednesday morning at 10:35, reached Astoria at 4:45 yesterday morning, discharged 51 tons of freight, left at 5:45 and was docked here at 1:15 p. m., thus making the passage from dock to dock in 50 hours and 40 minutes, and beating the Columbia's best time an hour and fifty minutes. Several of her passengers destined for Puget Sound, boarded the Fleetwood at Astoria, made connection at Kalama with the Northern Pacific and reached New Tacoma 53 hours from San Francisco, a trip unprecedented in the history of navigation on Pacific waters.—Oregonian, 10th.

Wanted.

A woman to do housework in a small family. Must be a good cook. Apply at this office.

A CONGRESSMAN'S VIEW.

I am sick of the talk of Sam Tilden and such—
 The cheese-paring trash who grumble and pay.
 Who say we are taxing the people too much.
 And needlessly throwing their millions away.
 It is easy to talk, but suppose it were you
 Who could put your hands in a golden pile
 And draw out the thousands: say, what would you do?
 Go off and desert it? Well, I should smile.
 The money is there, and it must be spent.
 And it keeps coming in, as you see, without end.
 To get rid of the same is our only intent.
 And of course a man thinks of himself and a friend.
 "Take off the war tax," some mean fellows demand.
 But why? "It's a sacred and war-honored tax."
 This has grown with the growth of this wonderful land.
 And has fitted itself to the tax-payers' backs.
 There's scarcely a congressman here but would kick;
 And what, if you please, could a poor fellow do?
 Who wanted a dredge-boat for Terrapin creek,
 Or a custom house for Kalamazoo?
 "Take off the war tax?" Why, the people would weep.
 For nothing delights them so much as to pay,
 If this were not true, do you think they would keep
 The men of high taxes in power to-day?

We are here, as you see, and expect to remain.
 For the sake of our friends and ourselves, and our friends;
 To keep up the taxes by which we may gain.
 Promoting our own and our partisan ends.
 —E. Slat, M. C.

Of the Canadian-Pacific Railroad five hundred miles will be laid this summer. From Montreal to the Pacific Ocean the distance is 2,850 miles.

An exchange says: "A dozen women ride now where one rode a few years ago." It will be seen that this arrangement must be hard on the old horse.

This country imports eighty-two millions dollars worth of silk every year and sixteen millions of raw silk, which is used by the silk manufacturers.

One cubic foot of pure water, at 62° F., weighs 62.355 pounds; at 212° F., only 59.640 pounds. A cylindrical foot of water at 62° F., weighs 48.973 pounds.

Nothing makes a woman crazier than to plant mignonette, and when it comes up, to ascertain that the seedman put cabbage-seed into the wrong envelope.

A trifle over 40 per cent of the members of the House attend its daily sessions. It will be seen that the country is 60 per cent better off than had been supposed.

A shirt has two arms, the same as pantaloons have two legs. Yet one is called a pair and the other one, isn't it time we let up on astronomy, and paid more attention to the every day trivials that vex the clearest minds?

How far behind in intelligence and capacity for self-government the Mexicans are, is shown by the fact that in a population of nearly 9,000,000 only 11,528 votes were cast in 1880 for the successful candidate in the Presidential election, and very few in opposition.

The Proposed Tournament.

There was a large attendance at the meeting last Friday night, and again last evening, the proposition being to have a grand firemen's tournament in this city on the 4th and 5th prox., when all the fire departments in Oregon and Washington territory can compete for prizes aggregating \$500. The project received unanimous approval, and a managing committee was appointed, consisting of Chief Engineer, C. J. Tronchard; First Assistant, F. P. Hicks; Second Assistant, J. O. Borth; J. E. Thomas, Foreman H. & L., and Foreman, B. F. Stevens; C. H. Stockton, together with B. S. Worsley. The matter is in tangible shape and deserves the encouragement of every citizen in the place. Invitations are being got out and to-morrow morning's mail will take them to every fire department in Oregon and Washington territory.

The Tantalizing Salamander.

A famishing traveler, who had run down a salamander, made a fire and laid him on the hot coals to cook. Wearyed by the pursuit which had preceded his capture, the animal at once composed himself, and fell into a refreshing sleep. At the end of half an hour the man stirred him with a stick, remarking:
 "I say! wake up and begin toasting, will you! How long do you mean to keep dinner waiting, eh?"
 "Oh, I beg you will not wait for me," was the yawning reply. "If you are going to stand upon ceremony, everything will get cold. I wish by the way you would put on some more fuel; I think we shall have snow."
 "Yes," said the man, "the weather is like yourself—raw, and exasperatingly cool."

Astoria Ice Depot.

Frank Fabre is now prepared to supply families, restaurants, hotels, saloons, etc., at 3 cents per pound, on the premises. Fresh ice cream every day. Balls, parties and dinners supplied with ice cream at short notice.

The man that went galloping up Chenamus street on horseback yesterday afternoon was not running away. He was going to Carl Adler's for some Sea Side novels, before they are all gone.

H. B. Litt in Astoria.

Reliable, energetic and considered the best judge on the coast in dress goods. Mr. Litt has been the general remarks by lending wholesale houses, such as Fishner & Mayer, White, Goldsmith, S. Lipman & Co. and others. Every dress is warranted; every word is reality; and in proof of the above, we will in a few days take clippings from a copy which we understand will be printed in Portland papers, pertaining to this gentleman's remarkable success in three years. His agents are stopping at Mrs. Derby's and will execute all orders entrusted to them.
