—The fines in the police court for the current month aggregate over $400.

—Iowa has given a large majority in favor of a prohibition clause in the constitution.

—The Portland board of education has elected a corps of 58 teachers for the ensuing term.

—Fritz Porlaise, of St. Johns, has had $1000 stolen from him, but can't prove who did it.

—The frame of the new Presbyterian church shows up among the surrounding residences and foliage.

—The next session of the grand lodge of I. O. G. T., will be held here on the second Tuesday in June, 1883.

—The Columbia went to sea yesterday morning; the Oregon was not able to make the entrance until 8:30, last evening.

—According to programme, Guiteau is to be hanged at 1 P. M., to-day, which would correspond to 9.45, this A. M., in this longitude.

—Messrs. Stockton, Worsley and other active workers, were busy in front of the engine houses yesterday, getting up flags, decorations, etc.

—The British barks Rainbow, Duke of Connaught, and Corina; and the British ships Merwanjee Framjee, Ballochmyle and Selene have arrived out.

—It is thought that by the 1st of August the lines of the N. P. R. R. will be completed and in operation to Rock Island, 526 miles east of Portland.

—Mrs. Scoville, Guiteau's sister, is in Washington. Folks who know her say she is liable to shoot the president for not reprieving her brother. Hardly.

—There will be divine service at the Congregational church next Sunday, the Rev. T. W. Walters, lately from the east, officiating in Astoria, for the first time.

—A San Diego, Cal., dispatch says "John Ivy was shot at Julian last Tuesday, by Jay Bush, and instantly killed, and is now in jail at San Diego." What for?

—Yesterday morning, says the Standard, the driver of No. 1's engine and his assistant hitched up the team and hauled the engine out on the sidewalk in eleven seconds exactly, from the time the gong struck.

—Three's cannot take their engine to Astoria, but the Standard thinks they will probably have an opportunity to run for the prize notwithstanding, in which case "Shake 'em up, boys!" "Give it to 'em!" "Start your water!" "Hit 'im with the wrench!" "Put that pipe down!" and other similar phrases will probably be heard.

—A gentleman from Portland yesterday afternoon, tells us that there will be a big delegation down here on the Fourth. The fact that such an attractive programme is offered, together with the natural desire to get away from the heat for a brief season, will undoubtedly send a large lot of people down here from up-river points.

—Parties down from points on the Willamette, manifest surprise that the "high water" does not interfere with us of Astoria. One Portland arrival, speaking of it to one of our leading merchants yesterday, said: "Doesn't it bother you folks down here?" "Oh, no," was the good natured response; we don't notice it much in the river; of course, such a freshet must be troublesome to parties living on creeks in the interior."

The Old Engine.

Rescue No. 2, are fixing up their quarters in gay style for the reception of their visiting comrades on next Monday and Tuesday. The old hand engine has been brought out, and the quarters usually assigned to that antiquated piece of furniture will be made to do duty as headquarters of the commissary department during the boy's stay here.

That old engine is held in high respect, not for any special value or beauty, but like a good many other old articles in this life, "for the good it has done." It was in 1869 that our city fathers concluded that they could no longer get along with a bucket brigade, and decided to buy a hand engine. Capt. Flavel, who was in the council at the time, bought the engine in Portland, from No. 1's, and when A. B. Hallock, the engineer in charge, brought down the "masheen," the whole town turned out. It was a regular holiday; Astoria wasn't quite as big in those days as it is now, and the arrival of an engine for the city was quite an event. After the usual outbursts of demonstrative welcome, it was considered in order to give the engine a "fair shake," so all hands manned the brakes, and every able-bodied man in town "bore down," to see how she worked. Water was thrown 165 feet, and it was considered that the city had well invested its $800. Two hundred feet of leather hose were purchased, but all the grease in Oregon couldn't make that hose pliable enough to be of any use. Many old residents will remember the lively chase there used to be around Arrigoni's corner to get the engine to an incipient blaze, and the sight of the old concern as she stands alongside the city hall, awakens a good many recollections of the days when Astoria only had 500 inhabitants.

The venerable "Hunneyman tub," which was built in Boston in 1857, will be accorded a place of honor in Tuesday's procession, and though our modern steam engines, the Amoskeag and Silsby, resplendent in the sun in all the glitter of polished machinery will be the cynosure of most eyes, yet the old hand engine will be viewed with interest by many a one who grabbed her and started on a lively gallop to amidnight blaze years ago.

Queen of the Pacific.

The new steamship Queen of the Pacific, which was built by Messrs. Cramp & Sons, of Philadelphia, for the Pacific Coast Steamship company, to ply between here and San Francisco, is now twenty-one days out, and should reach San Francisco in the latter part of September. She is 336 feet long, 38.7 feet beam, 22.6 feet hold, 30 feet of awning deck, is 2,727 tons custom house measurement, has 1,200 tons dead weight cargo capacity, or sixteen feet draft. She is half brig rigged, with iron masts in one piece, and is well canvased. Her rate of speed will average sixteen knots per hour. She carries eight boilers, and will consume about sixty tons of coal per day. The propeller wheel was made in England at a cost of $15,000, and is sixteen feet in diameter. The total cost of the vessel will reach in the neighborhood of $500,000. Capt J. E. Alexander is in command of the ship, with C. Erickson as chief officer.

—The County court met pursuant to adjournment, and after closing up some unfinished business, adjourned, *sine die*. The new board, Messrs. Fisher, and Leinenweber, and Judge C. B. Maguire man the county ship next Wednesday.

—Cooper has the finest sign in Astoria; probably as fine as any in the State. It runs almost the entire width of the building. When one enters his store it is readily seen why his sales are so large, as the stock is of the finest quality, and of a price that surprises those who have heretofore paid first-class prices for second-class goods. He deserves the success he receives for showing such enterprise, and has the handsomest store in Oregon. So sojourners say, seeing several stores similarly situated.

—A bran new tug "Escort No. 2," arrived in yesterday. She was built at Coos Bay, and is just up from San Francisco, whither she had been to get her machinery placed. She has been hired to scrape on the bar. Capt. Flavel was asked to furnish two tugs as it is the intention to put two scrapers to work during the coming month. He has given them the Columbia, but could spare no more from his business, so this one was sent for. She is a fine looking craft. It is a source of pleasure to see the work being pushed so indefatigably.

The Boss Excursion.

One of the most pleasant excursions of the coming Fourth will be that given by Columbian Engine Company No. 3. The steamer A. A. McCully will leave here at 11 A. M., on the 3d, for Astoria, and on the Fourth excursionists will attend the firemen's tournament there, leaving home at 6 o'clock on the morning of the 5th. The fare for the round trip will be $2.50, thus giving all a chance to enjoy a pleasant trip and spend the 4th by the sounding sea at a very moderate outlay. There can be no doubt but that the excursion will be largely attended, as No. 3 is a favorite company and one of the most efficient in the department. They have been to a large expense in purchasing and keeping horses, and their exchequer is in a depleted condition, and the numerous friends of the company have expressed their intention of making the excursion a grand success financially and otherwise.

The above is from the Standard. That paper and the Oregonian, and also the Salem Statesman have been kindly toward the enterprise of our Astoria boys from the start, and deserve praise therefor.

The Real Reason.

Some people are inquisitive enough to want to know why the Wells Fargo express box doesn't come on the fast boat. It isn't right to ask such questions. These are the same people who want to know why Astoria mail takes three days to go to Seattle and why Astoria mail is carried up to Portland and then back again. The real reason is found in the eight beatitudes: "Blessed are the meek, for they shall inherit the earth," one of whom we are which.

Weak, Nervous, and Debilitated?

Reader are you afflicted? Do you wish to recover the same degree of health, strength, and energy you experienced in former years?
