

The Daily Astorian. ASTORIA, OREGON. FRIDAY, AUGUST 11, 1882. J. F. HALLORAN, Editor.

In the question of forfeiting of the Northern Pacific land grant, before congress, the minority of the judiciary committee in its first report put so clearly the right of the government to re-enter the lands forfeited by the Northern Pacific Railway that no lawyer with any professional reputation to lose would have ventured to argue against it in the house unless he had no reputation for integrity to lose. His appearance on the other side would of itself have been a confession that he held a retainer for the other side. The minority reserved the question of public policy for the second report which it made a few days ago. In this report it shows that the government in granting land "to aid in the construction" of the railway had not only paid the whole cost of construction outright, but had even accepting the extravagant estimates of the cost of the road made by its president, which were twenty-six millions more than the estimates given by the officials of the treasury, given the corporation a clear bonus of sixteen millions over and above the cost of its road.

A LONDON dispatch of the 7th says: The government has instructed Lord Dufferin, British ambassador to Constantinople, to present an ultimatum to the porte demanding that the sultan at once declare Arabi Pasha a rebel, and accept English proposals for joint action in Egypt. In event of the porte failing to comply, Lord Dufferin will be recalled and landing of Turkish troops in Egypt will be opposed by the English. The porte requested a delay for consideration of the demand, and Lord Dufferin has telegraphed the foreign office here for further instructions. It is believed that the government will not consent to any further delay. A dispatch from Constantinople reports great excitement there on the announcement of the British ultimatum.

CONTRADICTORY reports came from the seat of war in Egypt. It is claimed that Arabi Bey whipped the English in Saturday's fight; another version is that the English troops were simply on a "reconnaissance," and fell back after obtaining the desired information. Arabi seems to be gaining in power and influence. Russia is said to be making extensive war preparations, and 'tis thought that there will be a general European conflict, with England, Germany, Austria and Italy opposed to France and Russia, for though France is an ally of England, yet should Germany take part that would send the French into the opposite camp.

MILLIONS of dollars' worth of three and a half per cents have already been offered to the secretary of the treasury to be exchanged for three's. Those who declared a year and a half ago that a three-per-cent loan might be floated were called visionaries. The lapse of time has accomplished without friction what no amount of disputation would have brought about.

EIGHT thousand men are employed in building the western extension of the Northern Pacific railway. They lay four miles of track daily. It is thought there will be railroad connection from Portland to the east by the 1st of next October.

THE supreme court of Massachusetts has decided against allowing John Healy to take the benefit of the insolvent act, because, after attempting a settlement with his creditors, Mr. Healy lost one hundred dollars at a game styled "draw poker."

THE rolling-mill strikes at St. Louis cost the strikers \$100,000; the proprietors get off with a loss of \$16,000, as usual.

RUFUS HATCH, and a party of capitalists have bought 758,000 acres of land from the N. P. R. R. Co. in Montana, paying therefor \$1 an acre. It is proposed to stock it with 50,000 head of cattle.

THE commission for the revision of the tariff is still in session at Long Branch, New Jersey. Nothing has been done so far, and the supposition is, nothing will be done of practical import.

WILD fowl in Connecticut may be shot only with a gun "such as is commonly raised at arm's length." Under such provision there would seem to be need of a state inspector of fowling pieces.
