J. F. HALLORYS. Astoria Chamber of Commerce, It is an accepted fact in all circumstances that "the Lord helps ling about their tariff. We have those who help themselves," a commission that takes in old Particularly is this the case where tariffs to mend. We have here in Astoria an organization- COMIC ENGLISH OPERA COMPANY the Chamber of Commerce-which is directly illustrative of the good New York and London Successes. that can thus be accomplished. In Portland 'tis but necessary to read the records of their Board of Trade to see what immense benefit has accrued to that city through 28 ARTISTS! the organized efforts of her busines men. Our home institution has also a worthy record. Among the many points advocated and PRIDAY EVENING. ATG. 18th. endorsed by the Astoria Chamber of Commerce may be mentioned its successful effort to have the U. S. revenue cutter detailed for ADMISSION, Columbia river service; the work of building a light house on Tillamook rock is due primarily to the petitions and representations of that body; the improvement of the Columbia river bar has been especially advocated and treated upon by the Chamber of Commerce, and the lack of success in its efforts in that direction are due wholly to extraneous causes. No place can exist having so many natural advantages as Astoria without having enemies. This is perfectly natural. Diversity of At Capt. Regers old stand, corner interests and supposed necessity for consequent antagonism on the part of more wealthy competitors often result in producing an opposition that has no real reason A MODEEN BUILT HOUSE OF FIVE Supposed for existence. Time and persenguing of the following of the first house o verance are wonderful allies, and in this case must be called in. The work on the Locks and the Cascades has been faciliated by reason of the memorials from our local trade body, and the presence of the Shubrick at Astoria is due to the most strennous efforts on the part of the gentlemen composing that body. The office was located here, but other and presumably weightier reasons were advanced, which moved the office to Portland while the headquarters of the vessel remained here. The signal station now to be built at the Cape, and connected by line and cable with Astoria, was especially petitioned for and advocated by our Chamber of Community of the part of the place, to the good of the place, to the good of the place, to the good of the place, Astoria, August 7, 1882.

NOTICE IS HEREBY GIVEN THAT ON the last Monday in August, 1882, the loand of Equalization of Classop country will attend at the office of the County Cherk in said country, and publicly examine the assessment roll for the purpose of cornecting all errors therein, in the valuation, description or quality of all persons interested to appear at said Board at that this and place with their couplaints or requested for my they have in that matter.

Our Chamber of Commerce works for Astoria. In one sense the interests of the two communities are identical; and the two commercial bodies can work in harmony for the advancement of the common good. In conclusion, we would suggest that of late there has not been that activity on

measures advocated, without meet-
