the printing room.

The Elwell went to sea yesterday
afternoon. The Wallaceton goes out
to-day.

The Portland schools re-open to-
morrow. Astoria schools will begin
next Monday.

Pitzer Smith, of Roseburg, was
killed by a runaway team at that
place, last Sunday morning.

The steamship Columbia will
take 2963 cases salmon and 39 bar-
rels and will leave about noon to-day.

The Probate court will transact
business next Monday. The county
commissioners will meet next Wed-
nesday.

The directors of the Salem wool-
en mills have decided to begin work
immediately. The building is esti-
mated to cost \$200,000.

The Annie Johnson finished
loading last night. She has 250 tons
of flour from Portland, 35,178 cases
of salmon from Astoria.

Yesterday was a warm day—for
Astoria—and a dry east wind made
the shady side of the street, and cool-
ing beverages desirable.

The Wolfe finished loading last
evening. She is another of the many
vessels that have loaded at this port
and will take out a valuable cargo.

The Pierce county, W. T. Re-
publican delegates are instructed to
vote for Brants for congressional dele-
gate nominee at the coming territorial
convention.

The Circuit court was in session
yesterday, and after hearing argu-
ments, the cases in question were
carried over, and the court adjourned
for the session.

Attention is directed to the fact
that assessments on the capital stock
of the O. F. L. & B. association is
now due and payable, and in a few
days will be delinquent.

Says the Coos Bay Mail: The
run of salmon in the bay at present
are considered to be large fish. We
are informed that a great number of
them won't gill in an 8 1/2 mesh.

The Union Packing company ad-
vertise that they will pay a reward of
\$50 for the recovery of either of the
men, named Andrew Johnson, who
were drowned off the bar last Satur-
day.

Jacob Hampton, a pioneer, aged
about 78 years, died at his son's home
at Goshen, on the 19th inst. He
came to Oregon in 1845, and lived in
this state ever since.

Catherine creek, Union county,
is alive with young salmon fry hatch-
ed from this spring's spawn. The
water and weather has been extreme-
ly favorable, hence the extraordinary
number.

The Gen. Miles will leave for
Tillamook, Garibaldi and Hobsonville
to-morrow morning at five o'clock.
Fare, \$5; for round trip, \$7. The
fine weather suggests this as a pleas-
ant excursion.

The White Star Packing Company
organized last Wednesday. The fol-
lowing are the board of directors: N.
P. Johansen, F. E. Wright, B. Gal-
agher, S. Halstrom, A. Amundsen.

Under the efficient management of
Supervisor Nurnberg, a graded road
has been completed to the military
bridge on the Walluski, where it is
proposed to construct a new bridge
and slash out the old military road to
the Can farm. The residents on the
Claskanine and Nehalem will then
have what is so much needed, an
open road to Astoria, without ford or
ferry, on which to pack or drive in
stock.

GRAND JURY REPORT.

To the Honorable the Judge of the
Circuit Court of the State of Oregon, for
the County of Clatsop:
The Grand jury duly empaneled,
charged and sworn, at and for the Au-
gust term, 1882, of the said court, beg-
leave to report that we have diligently
enquired into all crimes committed or
triable in this county that have come to
our knowledge or notice, and have dis-
posed of them in accordance with our
best judgment and information, and
with all the dispatch consistent with the
importance of our trust.

We have visited and examined into
the condition and management of the
offices pertaining to the courts of justice
in the county, and find them well man-
aged and conducted, and so far as we
have been able to ascertain, in the ad-
ministration thereof the laws are faith-
fully observed.

We have visited and examined the
city jail, and find the same well kept
and the building safe and well adapted
to the purposes for which it is intended.
With regard to the county jail, we
find the same well kept and managed,
but regret that our duty compels us to
criticise the interior construction of the
building. We think the outside walls
and roof to be safely constructed, but
we find the iron used in the construction
of the cells very light, the cells without
any adequate ventilation, the hinges,
bolts and rods used in connection with
the cells and doors to be very inferior,
and badly fastened, and the building al-
most entirely destitute of sewerage.

We think some arrangement should be
devised by which the jailer or officer
feeding the prisoners, and finding it
necessary to remove one or more per-
sons from the jail could so keep them
that they need not all be in the same
department as it now is, and that better
and more secure fastening should be
furnished for all the doors, and we
herewith respectfully call the attention
of the County court to this subject.

Having now completed the business
before us we respectfully ask to be dis-
charged.

C. W. HAMBLIN,
Foreman.

The fastest time ever made be-
tween Victoria and San Francisco
was made by the steamship Dakota in
60 hours and 19 minutes from wharf to
wharf. The next best time was
made by the City of Chester in 60
hours and 30 minutes.

The Rev. Mr. Wilson, the new
minister for Grace church in Astoria,
writes to Bishop Morris from Salt
Lake City, that he expects to take the
steamer of the 27th from San Fran-
cisco for this place. He may be
looked for, therefore, on the steamer
to-day.

Attention is directed to the ad-
vertisement of the 3d annual picnic
of the Y. M. C. A., which appears
this morning. The select character
of this excursion, coupled with the
pleasant nature of the entertainment
will doubtless insure a very pleasant
and successful excursion.

The steamer Yaquina came down
from Portland last Sunday morning
and left for Yaquina and Coos Bay
at half-past four. The Yaquina has
been rebuilt on somewhat a different
model, and has more carrying ca-
pacity than before. She will leave
for the Sound to load with coal
on her next trip. Capt. Hustler is
the Astoria agent.

It is considered impossible to find
the bodies of the two men drowned
on the bar while in tow of the Miles,
last Saturday. Each was named An-
drew Johnson; they were stockholders
in the Union Packing company. Three
members of that corporation have
been drowned this season, the first
having been Frank Brown, for whose
body a fruitless reward of one hun-
dred dollars was offered.

The Afton went upstream yester-
day. The City of Sparta arrived from
Adelaide, on Sunday. The bark
Scottish Chieftain, McIntyre master,
arrived in the same afternoon. This
vessel is bark-rigged, and has 1,392
registered tons, tonnage. She comes
last from Vladivostok, at the mouth
of the Amoor river, in Siberia, and
has 390 tons coal, and 210 tons ce-
ment, together with a consignment of
liquors for Oregon.

The Portland papers say that the
Walla Walla which has been at work
on St. Helen's bar has already made a
channel 500 feet long, 100 feet wide
and 24 feet deep, and 'tis thought
probable that that depth can be ob-
tained for the entire width of the bar.
The new dredger will be launched
about the 6th of September, and with
that steadily at work, together with
occasional help from the Umatilla and
Walla Walla, it is expected that the
usual trouble experienced at seasons
of low water will be, in a measure,
obviated.

Mr. C. H. Cooper intends to leave
about the 15th of next month for San
Francisco to be in time for the arrival
of the latest Eastern and European im-
portations.

The Only Way.

One of the worst features connected
with these appropriations is the fact
that money thus appropriated is so
liable to be peddled out in schemes,
which to say the least, are no more
than mere experiments. If Oregon's
appropriation is to be spent dredg-
ing the Columbia bar, our judgment is we
might with as much profit take it out
to sea and cast it overboard. A few
thousand dollars may aid the ex-
chequer of a few superintendents and
laborers, but will never permanently
improve the Columbia bar. Whoever
undertakes that work will find he has
a long and costly job on hand; and
yet it can be done; not by dredging,
but by proper break-water jetties;
and this is the only way in which it
can be done.

When this work is commenced Oreg-
on should not be content with a plan
of improvements which will be meas-
ured by the appropriation. It should
be thorough and permanent at every
point, and if the appropriation is in-
sufficient, when it can be shown that
the work is valuable and enduring,
more can be obtained. In the mean-
time, the different localities should
drop all rivalries and work together.
—Polaris.

Heard The Other Side.

Mr. Editor: My attention has
been attracted to an item which ap-
peared in your Sunday's issue the 27th,
relating to a disaster which terminated
in the loss of two valuable lives. Their
untimely death is immediately traceable
to the direct result of the misman-
agement of the expedition. The parties
representing it are wholly responsible
and alone to blame for the loss of the
lives of these men. I undertake to review
the facts.

Neither the men who so miserably
perished nor any of the survivors
agreed to go or even of their tollition
much less from their own "choice,"
stated in your Sunday's issue; they did
not prefer to cross the Columbia bar in
empty open boats, minus anything ap-
propriate to a proper outfit on a hazar-
dous trip of that kind, but requested the
permission of taking the steamer, in-
stead, which was denied them by J. W.
Hume, who did not even condescend to
treat his fishermen with the same con-
sideration that he extended to his Mon-
treal employees which of itself, is suf-
ficient to impress one most unfavorably
with Mr. J. W. Hume's conduct in this
particular instance at least. The alter-
native he left his fishermen was either
take the chances for their lives in an
empty boat or be summarily dismissed
from his employ, which threat he forth-
with proceeded to execute to teach his
men submission, which impresses our
minds very powerfully that J. W.
Hume holds the lives of his fishermen
very cheap when we consider that for
the paltry sum of ten dollars per man
he might have secured their passage on
the steamer, and thereby averted the
fate of the two brave men, instead of
being instrumental in launching them
into eternity and sending them to a
premature and watery grave.

I make these assertions on the ground
and for the reason of conveying to the
friends of the deceased and the public
generally a correct view of the case and
to prove to them the incorrigible greed
and rapacity of J. W. Hume.

And the utter irresponsibility and
lack of judgment in the person of Capt.
Whitcomb? No man of ordinary com-
mon sense and understanding, claiming
to be who represents himself to be
who would, under any circumstances,
have attempted to cross the Columbia
bar with a string of boats and their liv-
ing freight unprotected for cases of
emergency, knowing as he ought that a
southwest gale had been prevailing for
some days previous in the cove, caus-
ing a heavy ground swell on the bar.
But we have had evidence of his skill
on a former occasion.

Another Wonderful Discovery!

It has been discovered within the
last few days that the nicest place to
buy your fall stock of provisions is at
A. M. Johnson's.
It has also been discovered that the
largest and best lighted store is A. M.
Johnson's.
Also that he has nothing but first-
class goods at very low prices. Also
that the children are waited on imme-
diately. Also that your goods are sent
to your house, on the instant, and the
ladies know that it is the easiest
grocery store in town, and please not
forget it.

A cough, cold or sore throat should be
stopped. Neglected frequently results in
an inoperable lung disease or consump-
tion. Brown's Bronchial troches do not
disorder the stomach like cough syrups
and balsams, but act directly on the in-
flamed parts, allaying irritation, give
relief in asthma, bronchitis, croup,
catarrh, and the throat troubles which
singers and public speakers are subject to.
For thirty years Brown's bronchial
troches have been recommended by
physicians, and always give perfect
satisfaction. Having been tested by
wide and constant use for nearly an en-
tire generation, they have attained well-
merited rank among the few staple
remedies of the age. Sold at 25 cents a

Peruvian Bitters

Cinchona Barks.

The Count Cinchona was the Spanish
Viceroy in Peru in 1630. The Countess,
his wife, was prostrated by an intermit-
tent fever, from which she was freed by
the use of the native remedy, the Per-
uvian bark, or, as it was called in the
language of the country, "Quina." Grate-
ful for her recovery, on her return
to Europe in 1632, she introduced the
remedy in Spain, where it was known
under various names, until Linnaeus
called it Cinchona, in honor of the lady
who had brought them that which was
more precious than the gold of the mines.
To this day, after a lapse of two hun-
dred and fifty years, science has given
us nothing to take its place. It effec-
tually cures a morbid appetite for stimu-
lants, by restoring the natural force of
the stomach. It attacks excessive love
of liquor as it does a fever, and destroys
both alike. The powerful tonic virtue
of the Cinchona is preserved in the
Peruvian Bitters, which are as effective
against malarial fever to-day as they
were in the days of the old Spanish
Viceroys. We guarantee the ingredi-
ents of these bitters to be absolutely
pure, and of the best known quality.
A trial will satisfy you that this is the
best bitter in the world. "The proof of
the pudding is in the eating," and we
will willingly abide this test. For sale by
all druggists, grocers and liquor dealers.

Various Causes.

Advancing years, care, sickness, dis-
appointment, and hereditary predisposi-
tion—all operate to turn the hair gray,
and either of them incline the scalp
prematurely. AYER'S HAIR VIGOR will
restore faded or gray, light or red hair
to a rich brown or deep black, as may
be desired. It softens and cleanses the
scalp, giving it a healthy action. It re-
moves and cures dandruff and humors.
By its use falling hair is checked, and
a new growth will be produced in all
cases where the follicles are not de-
stroyed or the glands decayed. Its ef-
fects are beautifully shown on brashy,
weak, or sickly hair, on which a few ap-
lications will produce the gloss and
freshness of youth. Harmless and sure
in its operation, it is incomparable as a
dressing, and especially valued for the
soft lustre and richness of tone it im-
parts. It contains neither oil nor dye,
and will not soil or disorder the scalp,
yet it lasts long on the hair, and keeps it
fresh and vigorous.
