Baldet & Co. offer their steamer Katata, for sale—see ad.

Dr. A. C. Kinney and wife returned from Salem last evening.

Coal is \$12.50 a ton in Walla Walla, and is taken with great thankfulness at that figure.

The steam tug Pioneer, en route to the Columbia river, arrived at San Francisco yesterday afternoon.

The quarterly examination of teachers for Clatsop county, begins next Friday morning at the court house.

Joe Hume has sold his cannery at Knappa to the Knappa Packing company, a corporation formed in California.

The State and Oregon swung into the docks yesterday on their way, the former to Portland, and the latter to San Francisco.

Up to date there has been shipped to California from this port, since the commencement of the season, 162,496 cases salmon.

Just our luck! The star sharpers have gone and discovered two comets, and now it is too cloudy to see higher than the bell tower.

A twenty thousand-dollar fire last Monday in Portland, burned half a block of wooden buildings south of the Clarendon hotel.

This season there are in Oregon and Washington Territory, 1,185 acres in hops; the yield will be 1,200,000 pounds, worth \$500,000.

It is estimated that it will cost a little matter of \$30,000 per mile in building the uncompleted portion of the Northern Pacific railroad.

—Jas. C. Van Rensselaer died in Portland, last Monday, aged 62 years. Deceased crossed the plains with W. H. Gray, now of Olney, thirty years ago.

The H. S. Gregory and Iroquois have sailed for Cork from Puget Sound, the former with 61,636 centals of wheat, and the latter with 70,000 centals.

A telegram yesterday afternoon conveyed the intelligence that the situation at Salem was unchanged. Mitchell had 41 votes, and the convention adjourned after one ballot.

On yesterday's steamer arrived Mr. H. B. Cartmell, agent for L. P. McCarty's Statistician, and traveling correspondent for the S. F. Call. Mr. Cartmell is taking orders for the Statistician—a valuable work of reference.

It should be remembered, says an exchange, that W. T. stands for Wyoming Territory. No doubt letters intended for Washington Territory are often delayed on this account. The New York Sun speaks of Port Townsend as a Wyoming village of 917 inhabitants. Mistled, no doubt, by the abbreviation W. T.

—We are informed, from sources of undoubted authority that J. H. Mitchell has declared himself in favor of the forfeiture of the Astoria land grant. If this is so we are heartily in favor of sending him where he can do the most good, and hope he will be successful in the present contest; and in saying this we but voice the sentiment of nine-tenths of the population of this section of the State.

Yesterday's Fire. The fire alarm rang loudly at half-past eight yesterday morning, and the fire companies were instantly on the double quick out the roadway. The house of John McCann, on the beach above O'Brien's hotel, was on fire in the upper part, and was badly damaged, the loss being confined to the upper story. The department, as usual, worked hard, and by their prompt appearance and united effort, succeeded in getting the flames subdued and saving the building. The loss is, comparatively speaking, very light.

Just What May be Expected.

A man recently arrived in Portland from the Nehalem tells the Standard that parties who located there on lands of the Astoria and Forest Grove Railroad company, are having much trouble with new settlers, who are endeavoring to jump their claims, on the ground that the railroad having failed to fulfill its agreement, the land has reverted to the government, which it seems is not the case. One of the squatters went so far as to cut and sell a portion of one of the old settler's fields of grain which was on land he claimed. The settlers are willing to pay the government for the land if it reverts, but object very strongly to being robbed of the improvements they have made by new comers. The proper way to do is to obviate all this trouble by having the Astoria land grant declared forfeited.

A New Steamboat.

Messrs. Shively and Humbel are building a steamboat on the beach in front of O'Brien's hotel, which though not so large as the Queen of the Pacific, will better serve the purpose for which her owners intend her. She has a stoutly framed keel, will be eighty feet over all, twenty-one foot beam, and is calculated to run anywhere that the Columbia or its tributary flows. She will have an Oregon built boiler and machinery throughout, and will be launched in two weeks.

The Same Here.

House help was never before paid wages like those paid now. Four years ago \$20 a month was a fair price for that sort of service, as many getting less than that price as got more. Now the poorest of help gets that much, very common help gets \$30 a month, while the best gets \$35 and \$40. And yet it is all but impossible to get any but Chinese at these prices.—Seattle Post-Intelligencer.

Major Breckenridge, who has been down from Vancouver on an official visit of inspection to the forts, goes up on this morning's boat.

Sherman's circus is billed to appear here this evening. Wherever the show has exhibited, the educated horses, etc., have been very highly commended.

Unlike other cathartics, Dr. Pierce's "Pellets" do not render the bowels costive after operation, but, on the contrary, establish a permanently healthy action. Being entirely vegetable no particular care is required while using them. By druggists.

Some New Railroad Routes.

Yesterday supplemental articles of incorporation were filed in the county clerk's office by Henry Villard and others of the N. P. R. R. and O. R. & N. T. company, which comprise the O. & T. company. The original articles of incorporation gave the company power to build and operate railroads, telegraph lines, steamships and steamboats in Oregon and Washington territory, from and to certain points. The supplemental articles confer additional power to build and operate the following roads with telegraph lines, and to engage in the business referred to below. From the N. P. R. R., near the mouth of the Wash-tucca Coolee, W. T., to Moscow, I. The roads are to be built as near as possible to the places named, and over the most feasible routes. The company have also the power to assist in building and equipping all railroad, telegraph lines, steamship and steamboat lines in British provinces and the United States that connect or intend to connect and exchange traffic with the O. & T. railroad or steamship lines; also to subscribe for or purchase stock or bonds of any of the steamboat or railroad companies in the provinces or the United States, so intending to connect or exchange traffic.—Portland Standard.

OBITUARIES.

ANDERSON—Andrew Anderson was born in Wisconsin in 1852 and died in Astoria, Or., Sept. 13, 1882. Funeral services at the Methodist church.

JOHNSON—Andrew Johnson, a native of Sweden, aged 43 years, was drowned on the Columbia bar about the last of August, 1882. The body was recovered and brought to Astoria where it was buried with appropriate religious ceremony, on Sunday, Sept. 24.

WALKER—Sophia, widow of John Walker, died in Astoria, Or., Sept. 21, 1882, aged 24 years. Only one year ago deceased left her friends in Finland, her native country, and came to this place to be a bride. A few months of wedded bliss, then a watery grave and widow's weeds. The shock was too great for the fair but frail exotic. Though surrounded by kind and sympathizing countrymen and women, who—speaking her own language—did all that could be done for her comfort, she pined and died. The kindly attention of these warm-hearted foreigners did not cease until the remains had been placed in a neat casket and buried from the Methodist church, after a sermon and usual religious rites, conducted by the pastor.

Peruvian Bitters.

Cinchona Balsa. The Count Cinchon was the Spanish Viceroy in Peru in 1630. The Countess, his wife, was prostrated by an intermittent fever, from which she was freed by the use of the native remedy, the Peruvian bark, or, as it was called in the language of that country, "Quinaquina." Grateful for her recovery, on her return to Europe in 1632, she introduced the remedy in Spain, where it was known and named until a more famous name called it Cinchon, in honor of the lady who had brought them that which was more precious than the gold of the Indies. To this day, after a lapse of two hundred and fifty years, science has given us nothing to take its place. It effectively cures a morbid appetite for stimulants, by restoring the natural tone of the stomach. It restores the lost tone of liquor as it does a fever, and destroys both alike. The powerful tonic virtue of the Cinchona is preserved in the Peruvian Bitters, which are as effective against malarial fever today as they were in the days of the old Spanish Viceroy. We guarantee the ingredients of these bitters to be absolutely pure, and of the best known quality. A trial will satisfy you that this is the best bitter in the world. "The proof of the pudding is in the eating," and we willingly abide this test. For sale by all druggists, grocers and liquor dealers. Order of L. Loeb & Co., agents for Astoria.
