—Have you seen the comet yet?

—"The Sounder" has been received. It is a typographic gem.

—There will be a vestry meeting at Grace at church at 7:30 this evening.

—It is thought that Company E. of the 21st, will be stationed at Fort Canby.

—The life saving station at the Cape now consists of eight men, fully equipped.

—The Cutting Packing company put up 6,000 cases of salmon at Cook's Inlet, Alaska, this season.

—8,000 centals of wheat went down in San Francisco bay, last Tuesday, by the capsizing of a barge. It is a total loss.

—At half-past four o'clock yesterday afternoon the comet was 37,500,000 miles from the sun and 123,465,000 from the earth.

—Have you trouble in disposing of your goods? Get us to spread some printers ink for you. We have a new supply and 'tis fine.

—Extended inquiry on the part of the editor of the S. F. Bulletin, gives him data for announcing that it takes 275 pounds of average wheat to make a barrel of flour.

—Villard's conditional gift of 850,000 to the state university will probably be accepted; the legislature making provision to raise $5,000 annually for that institution by taxation.

—Attention is directed to the advertisement of Wilmerding & Co.'s Peruvian bitters. The great sale of this attests its merits. Wm. Loeb is the enterprising agent for this place.

—The Portland board of trade have got Casson to introduce a fish bill in the House. 'Tis too early to comment upon it yet, but its provisions do not seem to be what is needed in the present case.

—The Portland is discharging cargo at the Main street wharf. The Jane Porter arrived in yesterday from Adelaide. The Banffshire sailed for Liverpool. The City of Sparta went down to Sand island.

—A large number of urchins gather every day on the docks to catch tomcod, and the wonder is that some of them do not tumble in. Such pushing and squeezing is liable to result some day in a sad accident.

—The memorial presented by Senator Reed, praying congress to declare the Astoria land grant forfeited, has passed both houses. We hope there will be no case of "lost, strayed or stolen from," speaker's or president's desk *this* time.

—Attention is directed to the advertisement of Wm. Howe. He is a practical boat builder of long experience, and having recently bought out the extensive establishment of C. H. Bain & Co., is now prepared to fill extensive orders in his line.

—The W. W. Statesman says it is rumored that the Union Pacific people have collected a small army of Montana "roughs" for business in Burnt river canyon, and that a physical struggle is on the tapis in that locatity, the object being the possession of that route.

—There is now considerable cutting of rates on towing and lightering between here and Portland. The Kylemore's rate was fixed at a private figure finally, but supposed to be about 80 cts. per ton for lightering including wharfage, the usual rate being $1.25. There is a promise of more fun in the near future.

Matters at Salem

The ballot on Wednesday gave Mitchell 39 votes, Shattuck 28, Failing 14, Richard Williams 8, George H. Williams 1. Yesterday there was one ballot taken with exactly the same result. A private dispatch received at this office last night, says: "Will lose one more to-morrow; the rest are solid, and will vote for Mitchell the balance of the forty days." And so the game goes on. This is the twenty-third day of the session and no senator yet. It is fast coming out of the realms of possibility into the domain probability that the session may close with the question undecided.

Oregon Short Line.

A correspondent of the Salt Lake Tribune, writing from the railroad crossing of the Kelton stage road, says: To come, to see, to conquer the minor difficulties of life, is a comparatively easy affair: but to conceive, to plan and execute so prodigious an undertaking as the construction of a railroad across the arid plains and through the rocky hills of Idaho territory; to conquer the stubborn resistance of the vast beds of lava rock, to say nothing of a kind of cement abounding, is an enterprise so stupendous that none but those who are daily eye-witnesses to the prosecution and progress of the work can fully realize its immensity. Such an undertaking was the Oregon Short Line railroad company. From American Falls (to which point, and a little farther westward, the road is completed) to Boise City, and almost within sight of each other, may be seen hundreds of construction camps, with their hordes of teams and men, blasting, plowing, slushing, snaking, picking and shoveling, and rushing forward to completion another thread in the great network of American railroads.

It has been officially decided that Hailey shall be the terminus of the standard gauge Wood river branch of the Oregon Short Line; this branch will leave the main line at the Little Wood river crossing, about 60 miles distant, and is expected to reach Hailey this season, but I deem it doubtful, although there are several thousand men on the line, and the graders are within ten miles and rapidly approaching. At present, passengers come by the Utah and Northern to Blackfoot; thence by stage a distance of 130 miles.

A Pioneer Bell.

Astoria Engine Co. No. 1, are talking of getting a new bell. The bell now in use is a pioneer, having done service in this city many years before the arrival of any other bell, for many years calling all and sundry from labor to refreshment at the Astoria House, when that was the popular resort. The bell was presented to the company nearly nine years ago by Mr. Conrad Boelling, and has tolled many a varied story.

—A bill has been introduced in the house authorizing the pilot commissioners to purchase a steam tug boat for use on the bar. There will be, apparently, tugs enough if they keep on. Escort No. 2, as good as the best of them, is coming here. But then it doesn't cost anything to run a tug.

—Yesterday was chilly; people in many places doubtless overhauled trunks and wardrobes, and discovered what the merry moth had eaten and bored into, what time the summer goods were daily worn. Soon will come the days of the buckwheat cakes, syrup and flapjax.

—A correspondent of the Oregonian thinks that there should be no division of the fourth judicial district: that Washington and Clackamas might be added to the third, and thus leave Multnomah, Columbia and Clatsop. He thinks the judges visits to Astoria are "mostly visits to the seaside and relaxation." The only thing the Oregonian's correspondent demonstrates is his ignorance of the subject he attempts to discuss.

A Varied Performance.

Many wonder how Parker's Ginger Tonic can perform such varied cures, thinking it essence of ginger, when in fact it is made from many valuable medicines which act beneficially on every diseased organ.

—Sweet cider, pure and fresh at J. W. Conn's.

—Another fresh invoice of those nice anchovies at A. M. Johnson & Co.

—Shoalwater bay oysters: fresh every day, at Frank Fabre's.

—If you want nice fresh lard, or good sugar-cured hams, just from the country go to F. B. Elberson's bakery.

—The new shooting gallery next to Jo. Charters' barber shop, nightly attracts crowds. It has been newly fitted up and is well worth a visit.

An Old Favorite Gone.

The *Robert E. Lee*, an old favorite with all Mississippi river travelers was burned to the water's edge, thirty-five miles below Vicksburg, last Saturday. Over twenty persons were burned alive, and a great number badly injured. The cargo of cotton was also totally destroyed. The total loss is nearly $200,000. Many in this section remember the $10,000 race between the *Robert E. Lee* and the *Natchez*, in the fall of 1870, when the two boats swung out of New Orleans together, and raced to St. Louis, with over $150,000 staked on the result. In nearly all disasters there is to be chronicled the act of a hero.

Most of the saved owe their lives to the admirable courage of the pilot, John Stout. He stood at the wheel and gave hope to all by his firmness, and as the steamer rounded at Yucatan Landing, the flames fast enveloped the brave man in the pilothouse, who, despite the fire around him, with almost the last hope of escape gone, remained at his post till he gave the word to the engineer that the boat had made the shore. Not until this was done did he, for one minute, take his hand from the wheel. He made his escape by the hurricane roof, down the hog-chain to the lower deck, and from there ashore.

Swindles

According to a Chicago street "fakir," the public is so easily gulled that imposters and sharpers actually despise their fellow-men for their sheep-like stupidity. A man he knew of ran a perfectly square game which was an out-and-out swindle, but which brought in the best people in the town. He had a pile of gold and a pile of silver coin. By paying half a dollar a person could throw dice. If he threw six sixes he took gold; if six aces, silver. No one ever did it. It was next to an impossibility, and the man raked in several hundred dollars and left. A fellow traveling down in California, lately, who had scarcely money enough to buy a few bars of transparent soap, cut the soap in very small pieces, wrapped them in tissue paper and tin foil, sprinkled them with cologne, took a sponge saturated with benzine and arnica, with it he washed the grease spots out of coats and hats that came along, pretending it was the soap, and in three hours, with a glib tongue and a little rubbing, disposed of $36 worth of what had cost him almost nothing. Another chap held forth at Bergman & Berry's corner here a few weeks ago, with a skin game where soap was sold at a dollar a cake, worth about a dollar a barrel, with a "chance" to win—a blank.

Various Causes—

Advancing years, care, sickness, disappointment, and hereditary predisposition—all operate to turn the hair gray, and either of them inclines it to shed prematurely. AYRES HAIR VIGOR will restore faded or gray, light or red hair to a rich brown or deep black, as may be desired. It softens and cleanses the scalp, giving it a healthy action. It removes and cures dandruff and humors. By its use falling hair is checked, and a new growth will be produced in all cases where the follicles are not destroyed or the glands decayed. Its effects are beautifully shown on brashy, weak, or sickly hair, on which a few applications will produce the gloss and freshness of youth. Harmless and sure in its operation, it is incomparable as a dressing, and is especially valued for the soft lustre and richness of tone it imparts. It contains neither oil nor dye, and will not soil or color white cambric; yet it lasts long on the hair, and keeps it fresh and vigorous.
