ASTORIA, OREGON: THURSDAY, NOVEMBER 9, 1882

ISSUED EVERY MORNING. Monday Excepted. J. F. HALLORAN & COMPANY, PUBLISHERS AND PROPRIETORS.

Terms of Subscription: Sent by Carrier, per week, 25 Cents; by mail, four months, \$1.00; by mail, one year, \$3.00.

Advertisements inserted by the year at the rate of \$1.00 per square per month.

Transient advertising, by the day or week, fifty cents per square for each insertion.

The Abnina and Stonewall Jackson are coming down the river.

By last night's mail we received the Seattle Post-Intelligencer of Oct. 24th.

Thos. A. McBride has been appointed prosecuting attorney for this judicial district.

T. A. Orcutt is building a neat little craft at Ramer, and will launch it on Saturday.

"Prof." Scott, who gave out-door concerts in this city a few weeks ago, is drawing crowded houses on the upper Sound.

Portland companies furnish the electric light for \$20 a month. We will be content to work along by gas light for a year or so.

The Welcome thinks it is among the possibilities that Judge Deady will be promoted to the circuit, and that Cyrus Dolph will be appointed to succeed him.

The hospital at Halifax, N. S., was burned last Tuesday night; some forty unfortunates perished miserably in the flames, it being impossible to rescue them.

Parties in from the offing say that the water spout seen off Tillamook last week was the first they had ever seen north of San Francisco. It is unusually large and well-defined.

The J. W. Marr, Coloma and Robt. Dixon went to sea yesterday. The Whistler and another bark crossed in to load at Knappa. The Helicon is alongside the dock and begins discharging to-day.

Gov. Newell, who is working for the construction of a road towards the Chehalis river and Gray's Harbor, says that before anything can really be done, people at home must interest themselves to some extent in it.

From Washington territory, so far, election returns are meager. Wallcut precinct, Pacific county, went solid Republican.

At Stark's point, Waukiakum county, Breuts get 14 votes, Israel 13, the rest of the ticket went Democratic.

Nothing has been heard of the new paper in Portland that was going to make it hot for the Oregonian, for some time. The material is said to be on the wharf in boxes; the other paper—the Argus—will be issued in a few days. Ireland says he doesn't want any paper in his.

The Chinese are burrowing their way into Portland thoroughfares. Last week one-fourth of the block on Third and Morrison streets was sold to a Chinese firm for \$50,000.

The Mongolians are capturing the north side of Chenamus street, in Astoria, above Main. The property there is desirable, but the influx of Chinese will depreciate rents in that vicinity.

The hills about Astoria looked beautiful in the radiant sunlight yesterday afternoon. In the years to come when those hills are all graded down and street cable cars make five minute trips to the suburban villages on Young's bay, the old Astorian will tell of the wonderful growth of fir and fern, of moss and maple, of vines and verdure that grew "in that very spot," when Astoria was only a little place of 3,000 or 4,000 people.

In 1856, Oroville, Cal., was almost totally destroyed by a fire, which originated in Chinatown. By immediate ordinance the Chinese were restricted to a certain quarter of the place, and placed in definitely prescribed limits.

Since then the Oroville Chinatown has been burned out five times; \$100 would cover all damage to white residents occasioned by these fires. There is a healthy, well-developed moral to the above, as regards Astoria.

Portland Firemen. Among the members of the Portland fire department the question arises what is to be done with the property on hand, as they will soon disband. It is suggested that all possible be realized towards procuring sufficient funds for the perpetuation of the exempt fireman's association.

Another proposition is to have each company appropriate five hundred dollars for the improvement and repair of the firemen's plat in the cemetery; others want to have a "blow out," a grand whoop up at the time they are mustered out. The cemetery proposition seems to meet with the most favor.

EASTERN ECHOES.

A Cold Day For Bossism.

The Empire and Keystone States Repudiate the Gaggers.

The Republican Party Unloads for a Triumph in 1884.

The results of last Tuesday's election throughout the United States are not yet fully known, but enough has come across the wires to confirm what nearly everyone had already surmised—that the Republican candidates would be beaten, in New York and Pennsylvania, and that the Democrats would make large congressional gains. It seems certain that in New York, Grover Cleveland, the Democratic candidate for governor, is elected by 150,000 majority, thus electing a Democratic governor for the first time in eight years, Sun Tilden having swept the state in 1874. New York gave Garfield 21,033, which shows the extent of the rebuke the voters of the Empire state have administered to Messrs. Arthur, Conkling, Folger & Co. In Pennsylvania, which is always good for 20,000 Republican majority, Patterson, the Democratic candidate for governor, runs 20,000 ahead of his Republican competitor; that is the first time Pennsylvania has elected a Democratic governor since Pennypacker was elected in 1856, and illustrates how nicely Don Cameron and the Philadelphia "Mysterious Pilgrim Club" have been scooped. In a square fight Pennsylvania is as good for a Republican majority as Iowa, but steady-going Pennsylvanians, for once, "bucked" and flung their would-be riders in the ditch. In Massachusetts, Ben Butler has finally got in as governor. Ten years ago we heard him say that "Democrat was no near hell that he smelt of sulphur," but ten years is a long time in the life of a politician.

The other states show, in the aggregate, a Republican loss, though Mahone carries Virginia by 25,000 majority; Nebraska defeats the woman suffrage amendment; prohibition figured prominently in a good many state canvasses and got a black eye. Following is the latest up to the closing of the telegraph office.

(SPECIAL TO THE ASTORIAN.)

PORTLAND, Nov. 8, 7:45 P. M.—It is now almost definitely settled that Cleveland's majority in New York will not be less than 150,000. The Democrats claim California by 10,000 majority; Stoneman's election is assured; there is nothing so far to indicate how the congressional districts have gone, though the Democrats have probably elected four out of six congressmen. In Nevada it is probable the Democrats elect Jewett Adams governor; C. C. Powning, the Republican candidate for congress will probably pull through; the Mormons in Lincoln county went back on Cassidy and voted solid for Powning. The Republicans make a clean sweep in Illinois, carrying the state by 20,000 majority, and gain one congressman in Indiana. St. John, the Republican candidate for governor of Kansas, was beaten by those opposed to the prohibition movement; the rest of the state Republican ticket is elected.

The Solid Eighteen.

Last week the "mighty minority"—less Voorhees, who had gone east—met in stony session in this city for the purpose (unavowed, but suspected by sympathizers of Mr. Mitchell) of bull-dozing J. N. Dolph. Being the makers of the king, in part, they wanted to dictate, we understand, his entire course. At this, J. N. Dolph smiled derisively—the sarcasmous view as it were, and figuratively sat upon the lordly eighteen with all the avordupois and weight of dignity. The Polk and Benton county honorables are particularly flattered out by Mr. Dolph's independence of action, and now beat their breasts and cry mea culpa, because they did not vote for Mitchell. Whether the new senator has refused to give them all federal offices, or will not pledge himself to get the government to build the Yaquina bay railroad, is not definitely known, but that the backs and hearts of the Polk and Benton bolters are broken is an assured fact, and that the entire delegation has gone home with a reduced estimate of its mighty importance.—Sunday West. com.

THE DEAD CANNOT BE RAISED.

nor if your lungs are badly wasted away can you be cured by the use of Dr. Pierce's "Golden Medical Discovery." It is, however, unequalled as a tonic, alterative, and nutritive, and readily cures the most obstinate cases of bronchitis, coughs, colds, and inefficient consumption, far surpassing in efficacy cod liver oil. Send two stamps for Dr. Pierce's pamphlet on Consumption and Kindred Affections. Address WORLD'S DISPENSARY MEDICAL ASSOCIATION, Buffalo, N. Y.

A BILL

For an Act to amend Sections 37 and 57, of Title 4, of an Act to Establish a Uniform Course of Public Instruction in the Common Schools of this State, approved October 29, 1872.

Be it enacted by the Legislative Assembly of the State of Oregon: Sec. 1. That section 37, of Title 4, of an act to establish a uniform course of public instruction in the common schools of this state, be amended so as to read as follows:

Sec. 37. The duties of directors of school districts shall be:

1. To authorize the clerk to call special meetings;

2. To issue warrants to the clerks, authorizing them to collect in the name of the district, and in the same manner as the state and county taxes are collected, all taxes assessed to the inhabitants thereof, and upon the taxable property of non-residents;

3. When authorized by a majority vote of the district, to purchase, lease or build school houses, and to buy or lease lands for school purposes, and to take care of, and furnish their school houses with the necessary fuel, light, libraries, apparatus, etc.;

4. To see that the wishes of the district towards outside scholars are respected;

5. To employ teachers and assist them in the government of the school;

6. To audit all claims against the district, and draw orders on the clerk for the amount;

7. To require of the district clerk a bond of such form as shall seem just and reasonable for the faithful performance of his duties;

8. To examine and correct the assessment roll made by the clerk, as hereinafter provided;

9. To levy rate bills, whenever in their opinion it is for the best interests of the district to do so, fixing therein the amount of tuition to be paid by each pupil attending school, and direct the clerk to collect the same in the name of the district;

Sec. 2. That section 57 of said act be amended so as to read as follows,

Sec. 57. The clerk shall act as secretary of all meetings, and shall, at the end of each quarter (when authorized by the directors), make out the rate bills for tuition then due and collect the same without delay.

A Prosperous Community

An old and valued correspondent from Chehalis county, W. T., in renewing his subscription sends cheering words in reference to THE ASTORIAN and adds: "By another year I think you will get quite a number of subscribers in this county, there is a great many people coming in here and locating on lands. I don't know of any county that has a brighter prospect than Gray's Harbor. Emerson's saw mill is in full blast; the Jennett mills are turning out well. The steamer Montesano now runs from my place to Elma, on the Chehalis river, and is doing a good business. Help is scarce here, both male and female, and wages high. Men and women who are willing to work can find employment in this county."

Experiment at Filling.

Early next month the O. R. & N. Co. will try the experiment of pumping from the bottom of the Willamette river, and to be used in filling Couch's lake, the site of the proposed new depot. A centrifugal pump has been ordered and is promised to be done in twenty days. The bottom of the river near the Portland shore, north of Columbia wharf to Weidler's mill, is clean sand for a distance of 30 feet down. Water-tight cars will be run to the bank, sand pumped into them and then hauled to the place of deposit. The engineers express the opinion that the proposed experiment will be successful, and in that case, the entire work will be done by this means.—Oregonian, 8th.

Convincing.
