A gronze that was killed on Pine creek, Baker county, recently, had pieces of gold-bearing quartz in an aggregate value of 50 cents in its gizzard.

Freights are down to 32s 6d to Liverpool, in San Francisco. In the Columbia they are below 45s—a marked contrast to last season, when as high as 92s was paid.

There are fifteen separate indictments against the officers of the ship Challenger, who are on trial at Seattle. The plaintiffs in the case produce strong testimony going to show that there was gross cruelty exercised toward the crew.

The Silvertown, which left San Francisco for Queenstown on November 16th, carried out the enormous cargo of 107,000 centals of wheat, worth, according to the Bulletin figures, \$187,354. This is thought to be the largest wheat cargo ever carried in the world's history.

The latest bill, says the Vancouver Independent, is the carpet dealer. He travels around the rural districts selling by sample at about half price, to be paid for when delivered. The victim sees the point when the innocent looking order he has signed turns up as a regular promissory note, which the innocent purchaser of carpets has to pay.

Prince Henry, second son of the German crown prince, has lately had occasion to show his quality as a sailor. On October 26th the Olga, on board which the prince is serving as naval officer, was exposed to a severe storm in the Bay of Biscay. At eleven o'clock at night a wave swept over the men who were steering and washed them down the deck. The vessel was in imminent danger, when the prince springing forward, seized the helm and held it firmly till success arrived.

Meeting to-morrow night. We the undersigned, desirous of organizing a branch of the American Seamen's Friend society in Astoria, respectfully ask our fellow citizens to meet in Liberty Hall on Monday evening, Dec. 11, at 7:30 o'clock to determine upon the steps necessary to be taken for the accomplishment of this object.

At the last regular meeting of Sea Side Lodge No. 12, the following officers were elected for term ending June 30, 1883: Geo. McLean, M. Worker, C. H. Stockton, G. F. O. P. Graham, overseer; C. Brown, recorder; S. T. McKean, financier; John Bryce, receiver; M. D. Kant, guide; Robert Hamilton, I. W.; W. H. Clough, O. W.

This lodge is in a flourishing condition. A pleasing feature, indicating its social nature and fraternal spirit is the constant addition it is making to its already large library. Among other books lately placed on its shelves are: Ladies of the White House, Lossings History of the United States, Our Wild Indians, The Prince and the Pauper by Mark Twain, American Statistician for 1882, Polygamy, Encyclopaedia Britannica, Vol. 14, Bunyan's Pilgrims Progress, Irving's works complete, Anne, a novel by C. F. Woolson, Rocky Mountains Lewis and Clarke, 2 Vols., Geo. Elliot's works 5 Vols., A Transplanted Rose, a Story of New York Society; Atlantis, The Antediluvian World, Rawlins' Ancient History, Centennial Rhymes by Will Carlton, After Dark by Wilkie Collins.

Another Open Letter.

To the EDITOR OF THE DAILY ASTORIAN: Please give publicity to the following items, which may interest the maritime public. We, the pilots of the "Cousins" are greatly astonished at Capt. J. H. D. Gray signing his name to the "open letter" published in THE ASTORIAN, Dec. 9, 1882. He could not avoid knowing that the schooner was disabled when coming in last trip, and materials could not be had, neither here nor at Portland, to repair the damage and put the vessel in a seaworthy condition, and we had to send to San Francisco to procure them. As soon as repairs have been done, which shall be done with the utmost despatch, the public, we hope, will have no cause for complaint.

Geo. W. Wood, H. A. Mathews, H. L. Hansen, Jas. E. Campbell.

Gray's River Communication.

The settlers on Gray's river, realizing the necessity of more speedy transportation, are going to have a little steamboat that will enable them to get over here, transact their business, and get back the same day. A company is now being organized and the matter will be put in practical shape as soon as possible. It is a good idea. One great drawback to the settlement of this country is the lack of communication; a man living out of the way of lines of travel, is isolated, and it is only by such efforts as our enterprising neighbors are now making, that affairs can be improved.

Bazar and Fair.

The ladies of Grace church will hold a bazar in Liberty Hall, Tuesday evening, Dec. 12th, at 7 o'clock, continuing Wednesday and ending Wednesday evening with a New England dinner. Extensive preparations have been made for this event, and an attractive programme has been arranged.

THE AGE OF MIRACLES

is past, and Dr. Pierce's "Golden Medical Discovery" will not raise the dead, will not cure you if your lungs are almost wasted by consumption. It is, however, unsurpassed both as a pectoral and alterative, and will cure obstinate and severe diseases of the throat and lungs, coughs, and bronchial affections. By virtue of its wonderful alterative properties it cleanses and enriches the blood, cures pimples, blotches, and eruptions, and causes great eating ulcers to heal.

The Upper Town School.

UPPER ASTORIA, Dec. 9, 1882.

ED. ASTORIAN: A word about our public schools. I believe no one will deny that that the perpetuity of our republican government and the free institutions of our country are based upon knowledge and virtue combined; without which, popular government cannot long stand, nor free institutions be maintained. Therefore, to carry out this principle, our common school system was adopted, and if faithfully maintained and efficiently carried out will greatly conduce to the permanence of our cherished institutions, and the freedom and happiness of our people. The beauty of this system is: it takes hold of the infants of our land and brings them under early cultivation; just as the farmer cultivates his crops; beginning as soon as the tender plant appears, weeding out the noxious plants and bringing around the roots of the cultivated one the rich earth to nourish and strengthen it. This is the business of the teachers of our land; and let me say here, that the teachers of our children are among the most deserving benefactors of our land and are not properly appreciated nor compensated. These thoughts were brought to my mind the other day, during a visit to our district school. It has been the good fortune of the directors of our district to employ an efficient and competent teacher for the present season, in the person of Miss Allen, and, according to my judgment, it is a model school, both in discipline and progress. The only difficulty is, there is too great a number of scholars for one teacher, but as there is but one room, Miss Allen prefers doing all the teaching herself rather than have an assistant in the same room to divert the attention of the school from her explanations and illustrations; and I think her judgment in the matter is correct. Just think, Mr. Editor, what an interesting picture—to see eighty pair of bright eyes, beaming with expectancy, with a twinkle of mischief peeping from one corner, (and who can blame them, for they must overflow with life sometimes,) and as many cars open for instruction from their respected teacher. That, truly, is a field ready for cultivation and for the receiving of the good seed. Miss A. has a good faculty of holding the attention of her scholars, and, although seventy-five per cent of the number are between the ages of five and ten, yet all eyes are upon the teacher and every motion of hand or finger is observed and understood. We greatly need, and must soon have, another apartment for this school, for the scholars of the district are rapidly increasing. And now let me say that the ministers of the Gospel occupy the highest position bestowed on man by the Creator, and next to him stands the instructors of our children. May the Lord bless them and give them wisdom.
