"The War of 1886"

The pamphlet entitled "The War of 1886, between the United States and Great Britain," lately issued in London, is exciting much attention. The interest which it has excited is not by any means confined to army and navy officers, but is generally shared by public men. It is regarded as the clearest presentation of our inadequate border and seacoast defenses yet made by any of our writers or speakers. The fact that it purports to be only a fancy sketch appears to be lost sight of by those persons who discuss it, so entiretirely plausible and possible do all of its proportions appear. To most it seems a startling presentation of the subject, and it seems certain to attain its evident object -namely, to direct attention to the weak spots of our system of national defense, or rather to the utter lack of effective coast or border defense. It is exceedingly significant that the story of supposed events is not regarded as extravagant, either with respect to possible future attacks upon our lake cities or those of the seaboard. - Washington Special.

It has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid

SALICYLICA works with marvelous effect on this acid and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe, Highest Medical Academy of Paris reports 95 per cent cures in three days.

NEW YORK. 1883. More people have read THE SUN during

the year just now passing than ever before since it was first printed. No other news-paper published on this side of the earth has been bought and read in any year by so many men and women.

We are credibly informed that people buy, read, and like Tite Sun for the following reasons amone others. reasons, among others:

Because its news columns present it tractive form and with the greatest poaccuracy whatever has interest for human kind; the events, the deeds, and misdeeds, the wisdom, the philosophy, the notable fol-ly, the solid sense, the improving nonsense-

ill the news of the busiest world at present

all the news of the busiest world at present revolving in space.

Because people have learned that in its remarks concerning persons and affairs The SUN makes a practice of telling them the exact truth to the best of its ability three hundred and sixty-five days in the year, before election as well as after, about the whales as well as about the small fish, in the face of dissent as plainly and tearlessly as when supported by general approval. The SUN has absolutely no purposes to serve, save the information of its readers and the furtherance of the common good.

Because it is everybody's newspaper. No man is so humble that The SUN is indifferent to his welfare and his rights. No man is so rich that it can allow injustice to be done him. No man, no association of men, is powerful enough to be exempt fron the strict application of its principles of right; and wrong.

wrong

Because in politics it has fought for a dozen years, without intermission and sometimes aim at alone among newspapers, the
fight that has resulted in the recent overwhelming popular verdlet against Robesonism and for honest government. No matter
what party is in power, Tim S vs stands and
will continue to stand like a rock for the interests of the results in the spirit inwhat party is in power. The SUN stands and will continue to stand like a rock for the interests of the people against the ambition of bosses, the encroaciments of monopolists, and the dishonest schemes of public robbers. All this is what we are told almost daily by our friends. One man holds that The SUN is the best religious newspaper ever published, because its Christianity is undinted with cant. Another holds that it is the best Republican newspaper printed, because it has already whipped half the rascals out of that party, and is proceeding against the other half with undiminished vigor. A third believes it to be the best magazine of general literature in existence, because its readers miss nothing worthy of notice that scurrent in the world of thought. So every riend of The SUN discovers one of its many sides that appeals with particular force to is individual liking.

It you already know The SUN, you will observe that in 1883 it is a little better than ever before. If you do not already know THE SUN, you will find it to be a mirror of all human activity, a storehouse of the choicest products of common sense and imagination, a mainstay for the cause of honest government, a sentinel for genuine Jeffersonian Democracy, a scourge for wickedness of every species, and an uncommonly good investment for the coming year.

Terms to Mail Subscribers. The several editions of THE SUN are sent by mail, postpaid, as follows: DAILY-55 cents a month, 86.50 a year with Sunday edition, 87.70.
