

The Daily Astorian.

ASTORIA, OREGON.  
SATURDAY, JANUARY 13, 1883.

The distinguished American dead of 1882, are Henry W. Longfellow, Ralph Waldo Emerson, Geo. P. Marsh, Thurlow Weed, General Warren, General Casey, Admiral Rogers, General Fitzpatrick, General Harburt, Clark-son N. Potter, of New York, God-lore S. Orth, of Indiana, Senator Hill, Josiah Quincy, Richard Henry Dana, Dr. John W. Draper, Henry W. Draper, Rev. Dr. Bel- lows and Henry James, Sr., Pres-ident Lincoln's widow, Daniel Webster's widow and Adelaide Phillips, the singer.

On the first page this morning is an interesting little bit of his- tory relative to the lapsed land grants. As far as the N. P. R. R. is concerned we have nothing to say beyond the fact that we are glad to see railroad communication with the coast. But this Astoria land grant must be forfeited. If the company does not want to build the road, others can be found who will. The fact that a majority of the House committee are opposed to any inquiry has no effect beyond temporary delay.

The methods of transporting cattle across the Atlantic have been so improved that the voyage is accomplished by the cattle now in safety. A system of ventilation has been adopted, whereby in all sorts of weather, even with the hatches battened down, the holds in which the cattle are can be kept free from the noxious vapors, which otherwise produce suffoca- tion.

"Oh how much can a family of three, live per week," is the question now being argued by the New York Sun. A mechanic undertakes to show on how little by giving figures proving that his family of three, live on \$3.48 per week. Probably he is mixed on the difference between "living" and existing.

The daily earnings of the cot- ton factories of this country are nearly double what they were in 1849. The total number of spin- ning spindles is 10,653,435; of looms, 253,759. The actual con- sumption of cotton last year was 1,700,000 bales.

A NEVADA convict, who was sent to the penitentiary for being dishonest, asks a reporter how it is that he is kept busy cutting out pocket-handkerchiefs to be put into soles and sold as good leather.

At present quotations an Ameri- can silver dollar has eight-four cents worth of silver in it.

AUCTION SALE.

Saturday, Jan. 13, 11 A. M.

Street Improvement Notice.

NOTICE is hereby given that the Common Council of the City of Astoria did on the 30th day of December, 1882, pass an ordinance, entitled "An ordinance declaring the intention of the Common Council of making certain repairs and improvements in a portion of Cedar street," the repairs and improvements to be as follows:

All of that portion of Cedar street between the east side of Salmon street and the west end of said Cedar street in that portion of said City of Astoria which was laid out and recorded by John M. Shively in Clatsop County, State of Oregon, shall be repaired and improved as hereinafter provided, and the costs thereof assessed on the adjacent property. The said repairs and improvements shall be made by removing all of the defective piles, caps, stringers and timbers now in that portion of said Cedar street which is between the east side of Salmon street and the west side of West 9th street, and by replacing the same with new and sound fir piles, caps, stringers and timbers, and all such timbers that have been by any means, in any way or displaced, shall be also replaced with new and sound ones; all timbers so replaced to be of the same size and dimensions as those of the same kind now in the street; and said portion of said Cedar street between said east side of Salmon street and the west side of West 9th street shall be replanked over the portion and to the width it is now planked, with new and sound fir planks three inches in thickness and twelve inches wide; that portion of said Cedar street from the west side of West 9th street to the west side of West 6th street shall be repaired and improved as follows: By filling it three feet at its intersection or crossing with West 9th street, and by excavating and lowering it three feet at the west side of the crossing of West 7th street, and by filling, grading or excavating the other parts or portions so as to be on a grade corresponding with such crossings. When so graded and West 9th street crossing as it now is, and then by planking it over in the center to the width of sixteen feet with sound fir planks not less than three inches thick and twelve inches wide, to be laid on sleepers as follows: One sleeper four inches by twelve inches shall be imbedded in the center of the street and shall be so beveled that the planking will rest firmly on it; two sleepers four inches by six inches shall be placed on either side of and parallel with the center sleeper, the outer edge of the outside sleepers to be eight feet from the center of the center sleeper, the other sleepers shall be placed in the middle between the center and outside sleepers; on the sleepers and at right angles thereto the planking shall be laid each plank to be spiked to the sleepers, two spikes to each sleeper. From the west side of West 9th street to said west end of Cedar street, said repairs and improvements shall be made by constructing a new work and planking the same to the width of sixteen feet on a grade running from the west side of said West 9th street when graded as above provided, and planking it over the planking on the roadway in Ohney street in said City as laid out and recorded by John McClure, the said road and planking to be done as follows: Mullsils, 4 inches by 12 inches 16 feet in length, shall be laid in the center of the street and at right angles to the center of the street, and at right angles thereto the planking shall be laid each plank to be spiked to the sleepers, two spikes to each sleeper. From the west side of West 9th street to said west end of Cedar street, said repairs and improvements shall be made by constructing a new work and planking the same to the width of sixteen feet on a grade running from the west side of said West 9th street when graded as above provided, and planking it over the planking on the roadway in Ohney street in said City as laid out and recorded by John McClure, the said road and planking to be done as follows: Mullsils, 4 inches by 12 inches 16 feet in length, shall be laid in the center of the street and at right angles to the center of the street, and at right angles thereto the planking shall be laid each plank to be spiked to the sleepers, two spikes to each sleeper. From the west side of West 9th street to said west end of Cedar street, said repairs and improvements shall be made by constructing a new work and planking the same to the width of sixteen feet on a grade running from the west side of said West 9th street when graded as above provided, and planking it over the planking on the roadway in Ohney street in said City as laid out and recorded by John McClure, the said road and planking to be done as follows: Mullsils, 4 inches by 12 inches 16 feet in length, shall be laid in the center of the street and at right angles to the center of the street, and at right angles thereto the planking shall be laid each plank to be spiked to the sleepers, two spikes to each sleeper. From the west side of West 9th street to said west end of Cedar street, said repairs and improvements shall be made by constructing a new work and planking the same to the width of sixteen feet on a grade running from the west side of said West 9th street when graded as above provided, and planking it over the planking on the roadway in Ohney street in said City as laid out and recorded by John McClure, the said road and planking to be done as follows: Mullsils, 4 inches by 12 inches 16 feet in length, shall be laid in the center of the street and at right angles to the center of the street, and at right angles thereto the planking shall be laid each plank to be spiked to the sleepers, two spikes to each sleeper. From the west side of West 9th street to said west end of Cedar street, said repairs and improvements shall be made by constructing a new work and planking the same to the width of sixteen feet on a grade running from the west side of said West 9th street when graded as above provided, and planking it over the planking on the roadway in Ohney street in said City as laid out and recorded by John McClure, the said road and planking to be done as follows: Mullsils, 4 inches by 12 inches 16 feet in length, shall be laid in the center of the street and at right angles to the center of the street, and at right angles thereto the planking shall be laid each plank to be spiked to the sleepers, two spikes to each sleeper. From the west side of West 9th street to said west end of Cedar street, said repairs and improvements shall be made by constructing a new work and planking the same to the width of sixteen feet on a grade running from the west side of said West 9th street when graded as above provided, and planking it over the planking on the roadway in Ohney street in said City as laid out and recorded by John McClure, the said road and planking to be done as follows: Mullsils, 4 inches by 12 inches 16 feet in length, shall be laid in the center of the street and at right angles to the center of the street, and at right angles thereto the planking shall be laid each plank to be spiked to the sleepers, two spikes to each sleeper. From the west side of West 9th street to said west end of Cedar street, said repairs and improvements shall be made by constructing a new work and planking the same to the width of sixteen feet on a grade running from the west side of said West 9th street when graded as above provided, and planking it over the planking on the roadway in Ohney street in said City as laid out and recorded by John McClure, the said road and planking to be done as follows: Mullsils, 4 inches by 12 inches 16 feet in length, shall be laid in the center of the street and at right angles to the center of the street, and at right angles thereto the planking shall be laid each plank to be spiked to the sleepers, two spikes to each sleeper. From the west side of West 9th street to said west end of Cedar street, said repairs and improvements shall be made by constructing a new work and planking the same to the width of sixteen feet on a grade running from the west side of said West 9th street when graded as above provided, and planking it over the planking on the roadway in Ohney street in said City as laid out and recorded by John McClure, the said road and planking to be done as follows: Mullsils, 4 inches by 12 inches 16 feet in length, shall be laid in the center of the street and at right angles to the center of the street, and at right angles thereto the planking shall be laid each plank to be spiked to the sleepers, two spikes to each sleeper. From the west side of West 9th street to said west end of Cedar street, said repairs and improvements shall be made by constructing a new work and planking the same to the width of sixteen feet on a grade running from the west side of said West 9th street when graded as above provided, and planking it over the planking on the roadway in Ohney street in said City as laid out and recorded by John McClure, the said road and planking to be done as follows: Mullsils, 4 inches by 12 inches 16 feet in length, shall be laid in the center of the street and at right angles to the center of the street, and at right angles thereto the planking shall be laid each plank to be spiked to the sleepers, two spikes to each sleeper. From the west side of West 9th street to said west end of Cedar street, said repairs and improvements shall be made by constructing a new work and planking the same to the width of sixteen feet on a grade running from the west side of said West 9th street when graded as above provided, and planking it over the planking on the roadway in Ohney street in said City as laid out and recorded by John McClure, the said road and planking to be done as follows: Mullsils, 4 inches by 12 inches 16 feet in length, shall be laid in the center of the street and at right angles to the center of the street, and at right angles thereto the planking shall be laid each plank to be spiked to the sleepers, two spikes to each sleeper. From the west side of West 9th street to said west end of Cedar street, said repairs and improvements shall be made by constructing a new work and planking the same to the width of sixteen feet on a grade running from the west side of said West 9th street when graded as above provided, and planking it over the planking on the roadway in Ohney street in said City as laid out and
