ASTORIA. OREGON:

FRIDAYJANUARY 19. 1883

A Washington dispatch says: There is a well defined rumor here that a change in the cabinet is checked, might soon result in such imminent; that Secretary Teller combination that a few magnates will either take an appointment could "sit in . Wall street with abroad or succeed in his senatorial closed doors, and by the light of a ambition. Aside from a certain candle direct the whole carrying element in the east, chiefly located trade of this continent." He was Carl & Cler in Philadelphia and Boston, Seore- ridiculed at the time, but it betary Teller's management of the gins to look very much that way. Indian bureau has met with the heartiest support. It is known that from the element reserred to, there has been a very earnest opposition, and that it has had some effect upon the President there can be but little doubt. If the change is made, those who claim to be in Senator Mitchell, of Oregon, will disease. An English society that that Senator Mitchell enjoys the fossils, now prove that pre-historic warm personal friendship of the man had the toothache and rheumapresident. Here the proseeution rested. Whereupon the prisoner's counsel went to the jury gravely protesting that there was no case; that to make out a case extent which the evidence would warrant. After a brief absence the jury returned a verdict of guilty against the prisoner as to his right arm, right shoulder, and head, and the judge sentenced the arm shoulder and head to the state prison for two years. The prisoner might do with the remainder of his body as he pleased.

Evolution claims at length to have solved the problem of the origin of wheat. Grant Allen, the noted botanist, says: Wheat ranks by origin as a degenerate and degraded lily. The primitive ancestor of the lily was a very simple plant with a "triple set of ovaries, and three triple sets of stamens," etc. The development went on through many stages. With the wood rush period commenced the process of storing the position of speaker of the gluten and starch along with the next house. His cap and bells embryo, which has made that would ill become the speaker's cereal so valuable for human food, and raised the wheat, the descendant of the lily, the queen of the floral world to the rank of the prince of grains, holding princely sway upon all the golden harvest fields of every civilized race and nation on the globe.
