A Positive Fact.

The refusal to admit Dakota to statehood should not be allowed to bear upon the question of Washington Territory's admission. Dakota is objected to for reasons of a pecular nature-fraud and dishonesty on the part of the people towards the people of other states and territories. No one pre sumes to arge the lack of population, for it is admitted that the territory exceeds in this respect several of the states and exceeds every other territory admitted since the earliest days of the Union. We have no blot of dishonesty to contend with, and as for population and wealth we are on an equality with Dakota, if not ahead, for Dakota is not more than twice as large as Washington, and they do not care for admission unless divided. Here, on the contrary, we ask admission with north Idaho joined, and we claim that so augmented, Washington is far ahead of either half of Dakota, having today 120,000 inhabitants and \$40, 000,000 of taxable property, with the positive certainty of the figures being 140,000 and \$50,000,-000 before the expiration of 1883, -Scattle Post-Intelligencer.

Says an exchange: Wheat kept on going out of the country until now our millers are at a loss to know where to obtain enough for home consumption. It brings now from 72 to 75 cents per bushel, and even at that good price, farmers rather hold on it, than let it go, because they expect a little more.

All pain leaves when St. Jacobs Oil comes.

37 Walker St., Baltimore, Dec. 1881.
For six years I have been a great sufferer from Blood Disease, Dyspepsia, and Constipation, and became so debilistated that I could not retain anything on my stomach, in fact, life had almost become a burden. Finally, when hope had almost left me, my husband seeing Brown's Inon BUTTENS advertised in the paper, induced me to give it a trial. I am now taking the third bottle and have not felt so well in air years as I do at the present time.
