"Flavel's Monopoly."

In an article on "port dues" in yesterday's Northwest News is an allusion to "the Flavel monopoly" which calls for a little comment.

Capt. Flavel has just the same "monopoly" that any business man has. Time was when he got a state subsidy when without that subsidy he could not have run his business. That subsidy ceased when the increasing commerce of the Columbia made towage a self-sustaining industry. His tugs have always been kept in good service and well manned. Any one desirous of engaging in the business of towing on the bar has precisely the same opportunities—no more, no less. When Portland capitalists concluded that the business would pay, they bought a tug and put her to work. Should any other parties decide to apply some of their surplus capital in the same line of business, there is nothing to prevent them from embarking in the enterprise. Whatever "monopoly" Capt. Flavel has, arises from a thorough knowledge of his business and ample facilities for keeping his tugs in trim.

We believe the News would not knowingly make indefensible statements, and in the kindest spirit suggest to our enterprising contemporary, that in asserting the possession of a monopoly in this instance, it is mistaken.

ABOUT a month ago we wrote an item about a strawberry plant in fullest leaf etc., that one of our subscribers brought into the office. It thrived well, and we ate two finely flavored berries off it; why we allude to it now is this. The statement has appeared in many of the principal papers throughout the United States; and with a northeast wind howling in the trees, and the thermometer away down we fear some of our Mississippi Valley friends may get a wrong impression of Astoria. True, strawberries grow here in December, but that doesn't prevent their being nipped by a January Nor'easter.

In the 48th Congress, which meets next December, there will be 401 members, the largest in the history of the country. Of the senate's seventy-six members there will be thirty-nine Republicans and thirty-seven Democrats; of the 325 members of the house there will be 119 Republicans, 191 Democrats, and thirteen "pinto."

YEARS ago a Dakota herd of cattle was destroyed by a prairie fire and as the twelve-year-old boy in charge was missing it was feared he had met the same fate. Last week he appeared, a grown man, and explained that fearing to return he had stayed away till he earned enough to replace the cattle, in which he was successful.

PERHAPS nothing better illustrates the vague ideas of foreigners towards this country than the recent question of the leading primate of England, the Archbishop of Canterbury, directed to an American visitor, wherein he asked for an explanation of "the attitude of the United States as to dissenters."

REFERRING to the statement regarding the alleged combination of Portland hotel men in relation to the Oregonian, that paper says it does not publish the hotel lists because it objects to doing so without proper compensation, and that is probably the true state of the case.

THE stone that Oregon will send as a tribute to the Washington monument is at a Josephine county quarry, and after being suitably dressed, carved and engraved, will be sent to the national capital about April 1st.

The 47th Congress has but four weeks more of life: what it has done in this last session can best be represented by a negative quantity.

REDUCED letter postage is now an assured fact. The only question is when it will go into effect—probably about July 1st.

To "pass away gently while preaching" is Preacher Barnes' idea of a happy death.

AN offer of marriage to a Michigan girl occasioned a fatal attack of heart disease.

A Common-sense Remedy.

Salicylic Acid. No more Rheumatism, Gout or Neuralgia. Immediate Relief Warranted. Permanent Cure Guaranteed.

REMEMBER

THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS. SALICYLIC ACID is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

It has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.

SALICYLIC ACID works with marvelous effect on this acid and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. High Medical Academy of Paris reports 95 per cent cures in three days.

Give it a trial. Relief guaranteed or money refunded. Thousands of testimonials sent on application.
