

The Daily Astorian.

ASTORIA, OREGON. FRIDAY, FEBRUARY 9, 1883.

The London Exhibition.

The International Fish Exhibition, to be held in London next May is attracting the universal attention of all interested in the industry of fishing.

The fisheries of the United States surpass in extent and value those of any other country in the world, and it is our hope that the American display will, in its competition with the exhibits of other countries, fully sustain this fact.

Our preparations for illustrating the methods employed in our fisheries are well under way, and very little remains to be done. We are, however, particularly anxious to make a full exhibit of the products of the fisheries, and for this purpose we solicit the co-operation of every establishment engaged in canning, or otherwise preparing, such products.

The exportation of American canned fish to England is constantly increasing, and in 1881 amounted in value to nearly two millions of dollars, the total exports of fishery products from the United States closely approximating six millions of dollars.

By a retrospective view of the beneficial results to commercial enterprise due to the agency of past international expositions, we have every reason to believe that the European demand for American fish may, by an effective display at the exhibition in question, be immensely increased in the future.

We shall be glad to have your establishment well represented in London, and will transport without expense to you such exhibits of every brand of canned, or otherwise prepared, fish, as you may feel disposed to prepare.

For purposes of exhibition, dummies are preferable to filled cans. Of the former, we should like to have one dozen cans of each brand; and of the latter, the same quantity; in order that the merits of the contents may be tested by the juries appointed for that purpose.

The U. S. Government will pay freight on these goods from your packing establishment to London, exhibit them in London, attend to the printing of the catalogues, and, if desired, distribute at the exhibition any printed information relating to the business of your house.

On Paget Sound and Frazer river the utmost interest is manifested, the cannerymen rightly deeming it a good opportunity to advertise their wares. Our Columbia cannery will make their usual superior display, and will doubtless carry off whatever honors may be awarded for excellence in quality of salmon exhibited.

A BILL providing for the counting of ballots is now before the California legislature. One of the clauses is to the effect that all ballots shall be burned as soon as counted.

THE Walla Walla Union speaks of Gen. Hancock as the "last" Democratic candidate for president. Does the Union insinuate that there will be no Democratic candidate for the presidency next year?

Timber Claims.

A CITIZEN of the Skagit, evidently opposed to the operation of the timber claim act, desires the Puget Mail to answer how it is that a tract of land having a heavy growth of merchantable timber but which makes good agricultural land when cleared, can be taken up under the timber act.

If "protection" is so good a thing, so great a blessing as its adherents claim, what a pity that free trade should be allowed between Oregon and California, and between New York and Connecticut, and between Louisiana and Illinois.

Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylic A. SECRET!

THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS. SALICYLIC A is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

It has been recognized by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.

SALICYLIC A works with marvelous effect on this acid and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. High-st Medical Academy of Paris reports 95 per cent cures in three days.

REMEMBER that SALICYLIC A is a certain cure for Rheumatism, Gout and Neuralgia. The most intense pains are subdued almost instantly. Give it a trial. Relief guaranteed or money refunded. Thousands of testimonials sent on application.
