The Daily Aslocian

ASTORIA, OREGON:

THUR DAY FEBRUARY 15, 18-3 Relapsed to Burbarism.

Base to RANIZANI, a nephew of the Unief Mosheth, after leading for years the life of an educated, luxurious Kaffir dandy, suddealy relapsed into the pagan barburism of his youth at the very moment when he was delivering an eloquent harangue in favor of civilization, education and peace. Rantzani, dressed in the pink of fashion, was discoursing to an assembled palaver, summoned to de cide on a question of peace or war with the Free State, on the importance of peace. He began well, but his paper collar chafed his neck. In trying to smooth it he broke the buttonhole, and in attempting to keep it in its place he lost patience, wrenched it off altogether, and immediately after an eloquent eulogy of "the regular life of the school, the happy, happy quietude of a district won to Jeff's VARIETY CHOP HOUSE, on the regularity of church and labor," he burst out: "I am fired of this imposture. A something arises within me; it springs on me now; it tells me I am talking nonsenseplaying a part I never was fit for. These clothes [which, as he spoke, he tore off and flung on the ground] confine free limbs once unfettered by any of the trammels of this civilized life that I have been trying to praise, but cannot endure Away with this spurious civilization! Away with the chains we lay upon ourselves! Let those who will have Meshesh and freedom follow me. Liberty is worth more than a blanket, and the sname of a warrior better worth than this." After this emphatic percration the young chief, now standing naked before his people, set fire to the schoolhouse, burned down all the appliances of civilipeared among the hills. He fought brevely in the war, but after it was over he never returned

Tun editor of the Seattle Herald has made a discovery. That great inventors sometimes mistake the JOBBING IN SHEET IRON, TIN, COP bounds between invention and PER PLUMBING and STEAM FITTING discovery is not surprising, nor is at wonderful that impulsive statisticians should vield information that lacks the requisite element of trath. Our Sound or unsound contemporary doth state in a powerful editorial on the importance of Seattle that "the exports of the Columbia river seaward for the last venr did not exceed 275,000 tons." The possibility that THE ASTORIAN of the 1st ult. did not Iron, Steel, Coal, Anchors, Chains, reach his sanctum affords the only excuse for our erring brother's wayward statement.

to his former life.

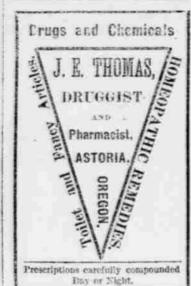

LAST Tuesday the California legislature passed an excellent law. It enacts that a person accused of crime, and pleading insanity, shall have the question of insanity tried first, with no reference to the crime. In cases of homicide, where insanity is pleaded and sustained, the court shall commit the accused to the insane asvine, from whence he shall not be discharged unless upon proof that he was not insane at the time of the commission of the offense charged, and in such case he shall upon hemy discharged from the asylum, be recommitted for trial for the original offense charged.

RESIARD WARNER, the great musical composer, died at Venice her Tesday. He originated a new era in masic and created the greatest sensation by his two most famons compositions "Die Nieblunthe right eye, Restlessment of ful dreams, highly colored gen" and "Lohengrin," which were brought out at Bayreuth in the grandest manner.

Maxies near Pittsburgh object to the importation of cheap foreign labor. They argue that if the bosses are "protected" against foreign competition they ought to be also. They are either right or wrong, and if protection is right so are they.
