

The Daily Astorian.

ASTORIA, OREGON: SUNDAY, MARCH 4, 1888

School Meeting.

THERE will be a meeting of the voters of districts No. 1 and 18 to-morrow evening at half-past seven, for the purpose in each case of electing a school director for three years, and a clerk for one year, and to levy a tax for school purposes for the ensuing year.

In regard to married women making entry under the timber law of June 3, 1878, Commissioner McFarland says what follows in a letter to the register and receiver at Oregon City: "In reply to your letter of the 20th ultimo, in which you ask if married women will be allowed to purchase timber land under the act of June 3, 1878, you are advised that while it is possible that the statute is broad enough to admit of such a construction, still in view of the restriction of the act to one entry by any person, and the general policy of the laws confirming entries of public lands to heads of families and persons over the age of 21 years, I am of the opinion that it would not be in conservice with the intention of the act to allow entries in such manner that one person could control two entries instead of the one which he is restricted to by law. I prefer, however, not to decide absolutely that a married woman cannot make an entry under the timber land act, unless an actual case should come before me on appeal from your decision."

The government of Ireland consists of an English viceroy and English chief-secretary, a Scotch under-secretary, an English assistant under-secretary, with an Orange Irish coadjutor. The English lord lieutenant of Ireland has the privy council—the privy council of Ireland. The title at least is Irish, but the privy council of Ireland is as much Irish as the Castle system is constitutional. The constitution of the body is as follows: two Protestant archbishops, one an Englishman, aged seventy-six, and the other an Irish Tory, aged eighty-two; two ex-Irish chancellors, nine Englishmen who have at some time or other during the century been chief-secretaries for Ireland, and three ex-commanders of the forces in Ireland. There are also seven peers, of whom four at least are pronounced Tories, four Irish non-official commoners, who ought to know the country, for they are all rejected parliamentary candidates, a couple of heads of Irish offices and several Irish judges.

RECENT statistics make noticeable the increasing proportion of foreign flour shipments. The amount of flour shipped from the United States in January was 935,486 barrels, against 482,731 in January, 1881. The total shipments of wheat from the United States for the seven months of the fiscal year ended January 31st were 82,618,153 bushels, against 66,731,515 bushels for the same time in 1881. The flour shipments were 5,469,470 barrels, against 3,326,975 barrels for the same time last year.

THE Chico Enterprise says: Before Jim Keene became a stock speculator he tried to run a newspaper in Shasta county, but failed for \$20. The proprietor of the Shasta Courier took some old type from him as security for debt some twenty years ago. They have it yet boxed up in the Courier office.

JOAQUIN MILLER was in Washington during the late session of congress with a \$300 claim. The Republican thinks: "He could probably earn \$300 writing poetry much easier than he can straighten out a \$300 claim before congress, though he may get the points for a great American novel while he is trying. He has long, tawny hair, as frequently described, and a shrewd, pleasing face, but all his sketches have neglected to mention his bald head, which is a fact, and, like all facts, unpoetic."

SECRET!

THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.

SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

It has been endorsed by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.

SALICYLICA works with marvelous effect on this acid and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe, Highest Medical Academy of Paris reports 80 per cent cures in three days.

REMEMBER
