

The Daily Astorian.

ASTORIA, OREGON: TUESDAY, MARCH 6, 1883. Presidential Aspirations.

It is said that the movement started several months ago to promote Gen. Sherman's aspirations for the presidency, so far from having been abandoned, is in active operation. Not only has it the warm support of public characters like Col. Ingersoll, who are well known friends and followers of Mr. Blaine, but the ex-secretary himself in various ways gives it encouragement.

To this Mr. Blaine is at present giving considerable attention. He and Gen. Sherman are not only close friends—rather closer than on a former occasion—besides being distantly related, but between them there exists the kind of understanding which becomes necessary at the outset of an enterprise of this kind.

Wm. Cramp, the Philadelphia iron shipbuilder, recently said: "We maintain that British steamships are built of poor material and they are not equal to American-built iron ships, and that the frequent calamities that overtake them result from inferior work and bad iron."

The cigarette has obtained a popularity among the schoolboys of Philadelphia that has alarmed the authorities, and various plans for reform have been proposed. A principal of a grammar school estimates that 75 per cent of the male pupils under his charge are smokers, against half that number before cigarettes came into common use.

Pooled Their Issues.

A CHICAGO dispatch says that John Muir, superintendent of traffic for the western division of the Northern Pacific railroad who will soon assume the position of superintendent of traffic of all the Northern Pacific & Oregon Railway & Navigation companies' lines, is now in that city and from him a reporter of the Tribune learned full particulars of the agreement recently entered into between the Oregon Railway & Navigation company and the Union Pacific for interchange of through traffic to Portland, Oregon, via the Union Pacific & Oregon Short Line, and other matters of interest regarding the doings of the Northern Pacific & Oregon Railway & Navigation companies.

During the recent trip of the coast and geodetic survey steamer Blake to make deep sea soundings from Bermuda to the Bahamas, the deepest soundings ever made in the Atlantic ocean were taken. It was taken in latitude 19 deg. 41 min. north, longitude 66 deg. 24 min. west, about one hundred and five miles northwest from St. Thomas. The lead did not touch bottom until 4,561 fathoms of line had been paid out.

If what is stated by those who hail from Apache county, Arizona, be true, then C. A. Franklin, of that place, must be the happiest "prunt" in the country. It is said that this genius is publisher and owner of the Apache County Pioneer, a member of the territorial council, county judge, county clerk, runs a saloon, tobacco store and faro bank, and is accorded peculiar privileges pertaining to his official rank and dignity.

Congress adjourned last Saturday. Edmunds of Vermont was elected President of the senate. The tariff bill was passed, and is a law, having received President Arthur's signature.

ALEX. H. STEPHENS, the most singular figure in American politics, died at his home in Atlanta, Georgia, last Saturday, in the seventy-first year of his age.

BORN. In Upper Astoria, March 4th, to the wife of Albert Johnson, a boy, 11 1/2 lbs. all well. Portland papers please copy.
