The new dock at Cardiff, of which Lord Bute cut the first sod the other day, will extend over thirty-five acres exclusive of timber ponds, and wni cost about £600,000. It is to be completed within three years. The lock will be the largest in the world, its dimensions being 80 feet wide and 600 feet long, while the depth of water over the sills will vary from 26 to 30 feet. The dock will be 2,400 feet long and 600 feet wide, the depth of water varying between 25 and 33 feet, according to tide. There will be timber ponds covering eighteen acres adjoining. All the railway arrangements and the loading and discharging machinery will be of the most complete description. When the new dock is completed there will be a water area in Cardiff basins and docks of 130 acres, and a quayage of five

The prolonged warm weather last fall filled the trees prematurely with sap and moisture, and during the unprecedented cold weather which followed they were frozen as bard as adamant. The bark peels off and the trees turn black. As a consequence, it is said that the loss in the section about Dayton will not fall short of \$1,000,000.

About a week ago 700 feet of the Mullen tunnel, on the Northern Pacific railway, in Montana, caved. No lives were lost, but the damage is heavy.

For tremulousness, wakefulness, dizziness, and lack of energy, a most valuable remedy is Brown's Iron Bit-

In no way can disease be so surely prevented as by keeping the system in perfect condition. Brown's IRON BITTERS ensures perfect health through the changing seasons, it disarms he danger from impure water and miasmatic air, and it prevents Consumpilon, Kidney and Liver Dis-Sec.
