

The Daily Astorian.

ASTORIA, OREGON: TUESDAY, MARCH 20, 1883

The Viola has arrived out. Read THE ASTORIAN for home news.

A dense fog detained the Oregon outside yesterday.

Read A. M. Johnson & Co.'s new adv. concerning their crockery.

The O. R. & N. bunker will be ready for use about the 1st prox.

The new steam packet A. B. Field, will be launched at high tide this morning.

Business cards with tide table for fishing season on back, at THE ASTORIAN office.

Among the latest rumors is one to the effect that Weidler's mill is to be removed to Columbia City.

Mr. J. P. Miller has sold his place on Grays river, and will remove to Starks Point the coming season.

Father Powers was taken to Portland yesterday morning, it being his wish to consult with a physician there.

Grading has begun above Columbia City, and the St. Jacob's Oil man has already a big ad. on the quarried rocks.

The Luproils gave an entertainment at Liberty hall last evening which will be repeated with a change of programme to-night.

The Shubrick has been laying beacon and range lights in the channel above last week, and started up again yesterday morning.

The river boats are doing proportionately as good business as the ocean steamers. The travel is immense, every passenger boat being crowded.

Judge McGuire is getting some fine stock on his place. It is his intention this week to bring down a Norman stallion from the Willamette valley.

Capt. A. W. Berry has been appointed Lloyd's commercial agent for this place, and in that capacity will transact all local business connected with Lloyd's.

Ross Bros. are running three large logging camps, one being at Deep River. They employ about seventy-five men, and are getting out a large quantity of logs.

A large sawmill is to be built at Skamokawa, just above the steamboat landing. Work began yesterday. It is for J. B. Montgomery, and we are informed it will cost \$100,000.

Special communication of Temple Lodge No. 7, F. & A. M. this evening at half past seven o'clock. Work on the E. A. degree. Sojourning brethren invited to attend.

Services in Grace church during holy week will be as follows: Daily at 3:30 p. m.; Wednesday, Litany at 9 a. m.; and on Good Friday morning, prayer and Litany at 10 a. m.

The American ship Helicon which arrived in from New York with railroad material Nov. 19th, came down the river yesterday. She goes to Port Blakely to load lumber for New Caledonia.

An active boy that can read English and is willing to learn, can get a good chance by applying at THE ASTORIAN office this morning from nine to eleven. No extraordinary smartness required.

The latest development is the organization of a company who have acquired a large tract of fine timber land in this and Columbia counties. The intention is to put up a large sawmill and ship all lumber east. Work will begin by May 1st.

"The Northwest" for March is received. The compiler does not seem to have learned anything nor forgotten anything since he issued the last number. The publication before us has a map of the Northwest, in which the name of ASTORIA is conspicuous by reason of its not appearing.

The March moon fills on the 23d at 1:20 o'clock in the evening. The full March moon plays an important part in the affairs of men. For as she fills three days after the vernal equinox, she determines, in accordance with the law, that Easter shall fall on the following Sunday, the 25th, and Easter in turn determines the movable feasts and fasts of the church. The short time intervening between the vernal equinox and the full of the moon brings Easter this year within three days of the earliest date the festival can occur. In 1818 Easter fell on the 22d of March, the earliest date possible. Such will not be the case again either in this or the following century.

Oregon Fir Going East

The immense amount of agricultural implements imported into this country from eastern states is something phenomenal. It seems as though their manufacture would pay here. Vessels discharge thousands of tons of plows, threshing machines, fanning mills, hoes, rakes, pitchforks, churns, etc., stowed away in New York and Philadelphia and carried around the Horn. We are doubly impressed with this fact on being told that there is a company now organizing who propose to cut Oregon fir and send it to Ohio factories to make up wood fittings for agricultural implements: the fact that good second growth oak and hickory are becoming scarce impels them to this, and eastern manufacturers have demonstrated by experiment that Oregon fir will make excellent fittings for implements of farm use. If it pays to carry Oregon fir from the Columbia it will surely pay when this country fills up to make the castings, the steel and iron works here, and thus make the entire machinery on the Columbia.

Columbia City.

Columbia City seems to be having a little boom of its own. The following paragraphs are from the Columbian: The N. P. R. R. are surveying up the opposite side of the Columbia to Maxwell's Point opposite Columbia City.

The N. P. R. R. has commenced operations at Columbia City. They have surveyed out the streets, etc., of the city.

About \$1,200 worth of lots were sold at Columbia City on Wednesday. A Mr. Pinkney was one of the purchasers.

D. G. Caples and Hezekiah Caples sold last Saturday \$1,800 worth of lots in Columbia City.

"The Drunkard's Bride" was the name of a cleverly rendered recitation by little Edith Conn at the Baptist church last Sun lay evening.

Attention is directed to the adv. of Wm. Pfunder & Co.'s Oregon Blood Purifier. It is emphatically an Oregon production, is compounded with skill, and deserves consideration.

At the regular meeting of the Astoria Longshoremen and Riggers' Association held at their rooms last evening, it was resolved that from date none but Astoria Longshoremen should be employed on vessels loading or unloading below Walker's Island. See notice.

J. E. Mayo, the contractor for the Odd Fellows' building now in process of completion, is also building a brick structure for the Astoria Gas Light company. Last Saturday he signed a contract for a similar building in East Portland for the gas company lately organized in that place.

The Geo. W. Hume sawmill recently bought by Dr. Kinney will be turned over to its new proprietor on April 1st. It will be run on its present site for this season. A new mill will be built on the water frontage above the city, recently purchased by Dr. Kinney, next year, when the present mill will be removed.

Last Sunday morning a crowd of Chinese passengers were stopped at Morrison street wharf, Portland, on their way to the Fleetwood, for non-payment of poll-tax. Captain Scott insisted that the official had no right to attempt collection of poll-tax on Sunday, and the matter ended by the heathens filing on-board to the number of thirty.

The Boston Post believes that the idea of having state capitols in large cities is all wrong. "Have 'em in small towns," the Post says, "where the hotels are bad, variety shows scarce and the girls homely. Then you get short sessions and quick adjournments." Should those ideas prevail we need never expect to have the state capital in Astoria.

Now that the building of brick stores has become a settled fact the establishment of a brick yard is in order. We have splendid brick clay in the vicinity, at Fort Clatsop, and elsewhere, and in connection with the brick yard, pottery works could be made a profitable industry, the best quality of clay being now shipped to Portland from here for that purpose.

Gas and Billiard Fixtures.

Silver-plated basin cook, etc., very elegant and cheap, at Loryea Bros., Plumbers and Gas Fitters, Chenamus street, opposite Dement's Drug Store. Go and look at them.

Recommended to me, the great OREGON BLOOD PURIFIER, I have obtained the most satisfactory and quickest result from the remedy ever known, and send me some more per Wells, Fargo & Co. for sick friends. H. C. WILKINSON.

History Repeating Itself

The Albany Herald says that the spring of 1883 is similar in many respects to the spring of 1861. In 1861 it cleared up the last of January and the month of February and two weeks of March were in all respects like the month of March 1883, thus far. Six weeks of beautiful weather at that time smiled upon the earth, without rain. Farmers finished seeding, the roads presented a hard and dusty surface, vegetation advanced rapidly, and about the middle of March it commenced raining, and for five weeks it came down steadily with scarcely any interval. The mud became knee deep again, but the rains were warm and grain and all kinds of vegetation grew without interruption and the crops were never excelled for quantity and yield. If the grain crop of 1861 repeats itself in 1883, we shall have good times next fall.

The chamber of commerce held its regular monthly meeting last evening. Communications were read from Spencer F. Baird, U. S. Fish commission, and Hon. Clarence A. Seward, of New York. Documents were received from our state congressional delegations. After the transaction of some minor business the meeting adjourned.

A. W. Berry's establishment at Ranier is now in operation and is turning out a fine article of smoked smelt. From actual experience we can say that the smelt thus prepared are of a fine flavor, and we have no doubt that when introduced on the market the demand will be fully up to the supply. The smelt are put through a smoking and curing process, then packed in air tight cans holding from eighteen to twenty-two smelt, and two dozen of these cans constitute a case. The smelt thus prepared are juicy and of a delicate flavor; they more resemble sardines than any thing else in the fish line to which we can compare them.

RED-RIDDEN AND CURED.

W. E. HURST, of Emporia, Kansas, says that his wife had been sick nearly seven years, and for the last four months bed-ridden. She has been treated by a number of physicians and only grew worse. Her attention was called to Dr. Pierce's "Golden Medical Discovery" and "Favorite Prescription," which she commenced using. In one week she could sit up, and in three weeks could walk about. By druggists.

Last Evening's Entertainment

The Lupproll combination appeared at Liberty Hall last evening in one of their entertainments such as they have rendered in Portland, during their six weeks engagement in that city. A fair house greeted the troupe, and the audience was evidently pleased with the several acts. The Moore sisters received an encore which was cheerfully responded to, after which Harry Tyler and his eight trained dogs entertained the audience. Joe Carter as a clog dancer is hard to beat, and in character impersonation John Irwin made a hit. The feature of the evening in our estimation was the trapeze act of the Luproils, Pauline and George. They are artists in their profession and should be seen. "The School for Scandal" closed the performance. It will be repeated this evening, and those of our readers who want an entertaining evening should surely go; there will be an entire change of programme.

Good News.

SAN FRANCISCO, March 17, 1883. CARL ADLER: I send by steamer twenty baby carriages on sale at nearly one-third of regular price. An eastern factory having suspended we bought their stock for a mere song. Be sure to sell them as we have no room to store them. We also send you velocipedes, bird cages, and a variety of other goods which you will sell regardless of price. Will send you another lot shortly, as these prices will sell the goods on sight. Yours,

FIGENBAUM & CO.

Referring to the above I would respectfully inform the public that I will sell the carriages and other goods on their arrival on incoming steamers, at 20 per cent. less than the same articles are now marked. Call and examine the goods. CARL ADLER.

Personal.

Dear Julia:—Go to "Jeff's" Variety Chop House for your meals while in Astoria. Meet me same time and place in Portland, next Sunday. G. W.

Nitrous Oxide Gas.

Painless extraction of teeth at Dr. LaForce's dental rooms over I. W. Case's store.

Wood Choppers Wanted.

Men who want to contract for cutting timber into cord-wood can get a chance for a contract by calling on JAS. BELL, Upper Astoria.

Useful in the Family.

We usually leave it to Doctors to recommend medicines, but Parker's Ginger Tonic has been so useful in our family in relieving sickness and suffering that we cannot say too much in its praise.—Salem Argus.

The Results.

All persons feeling dull and depressed or perhaps feverish with no appetite, no energy, the system clogged, the liver torpid, and the bowels inactive, who are wondering how to find relief, should purchase a 20 cent or \$1 bottle of Syrup of Figs, read the circular around the bottle, follow the directions, taking a few doses of this pleasant remedy and be restored to health and happiness. It may be had of W. E. Dement & Co., Astoria.

Hodge Davis & Co., Wholesale Agents, Portland Oregon.

Foul tartar is disease and death. Not only to the teeth, but to the breath. It taints the mouth, and to our smile gives a most ghastly tinge, the while. But if we're SOZODONT close by. We may its worst assaults defy.

The Rev. Geo. H. Thayer, of Bourbon, Ind., says: "Both myself and wife owe our lives to SHILOH'S CONSUMPTIVE CURE." Sold by W. E. Dement.
