-The Portland Journal of Commerce suggests a convention of delegates from the various boards of trade on the Columbia river to take action concerning river and bar improvement. Good idea.

-The Mason & Hamlin organ at Carl Adler's which is for the M. E. suffer from it again next year. The water will have a tinge of green which church has been pronounced by Prof. Capitol Packing company of Sacra- will grow stronger as the point of A. L. Francis to be possessed of the mento, finding that they could not precipitation is approached. Prof. purest and sweetest tone, and an in- pay the price asked for fish on the Spring concludes that if lime is added strument of great musical value.

-A man from Gray's Harbor inthere is a rush in that region for timber claims. A cruising party are in the woods, and squatters are building cabins ahead of the party.

-General Superintendent Kimball a fisherman who would agree to sell hue than elsewhere. has issued an order that on and after by weight. On their way back, how-June 1st next the numbers by which ever, fishermen ran their boats alonglife saving stations are at present des- side the steamer and wanted their ignated shall be abandoned and the fish weighed in. In some instances names only be employed. This order they obtained as high as \$1.50 for one Francisco every three days: will affect all divisions of this ser- fish. The idea has rather taken with them and the Capitol Packing comvice.

-Every well regulated newspaper pany is having no trouble in getting in the land has the Czar's obituary all fish." written up, and as soon as the news comes that some Nibilistic bomb has sent him to the hereafter, it will only be necessary to reach the pigeon hole marked "obituary notices," and a column will be forthcoming.

-Out of gratitude for the assistance rendered by the Indians around of her condition in time to intercept the Idaho before she starts on her tude. Means of unfailing and per-St. Lawrence bay, to the crew of the May trip, and the only possible chance fect cure are suggested in large illus-burned exploring steamer Rogers, the of intercepting the Idaho lay in an aplast congress appropriated \$3,000 with peal to Commander Merryman of the Dispensary Medical Association, which to purchase presents for them. United States steamsnip Adding. The Buffalo, N. Y. The navy department is now propar- tant from the wreck and could ing to distribute the presents. The only be reached by sending a Corwin with the material on board boat to Killisnoo, forty-five miles will leave San Francisco for the far services of one of the Northwest Tradnorth next month.

Sacramento Salmon The Color of Water

The run on the Sacramente river is What is the color of pure water? very, very light and is getting less Almost any person who has no special every day. Very few canning houses knowledge of the subject will reply at are doing anything, and even those once "It has no color," yet everybody

are obliged to "rustle" for fish. To knows, either through hearsay or by the Grocer and Canner it looks as the evidence of his own eyes, that the though both buyers and packers were ocean is blue. Why the ocean looks in a bad boat. Fish are selling for 70 blue is a question that few who have cents, large or small. "Many of the crossed it have ever sought to solve, packers sold for future delivery a and there are, probably, many travel-City's municipal election last Mon- positive number of cases, which they lers who, though they have seen most will either not be able to pack at all, of the famous rivers and lakes in the

or, if they can, will only do so at a world, have failed to notice the reloss. Other packers, sgain, sold their markable differences in color which entire pack, whatever it might be, and their waters present. Even the ocean many sold a certain number of cases is not uniform in color; in some places -A. H. Johns, of the firm of with the proviso "if packed." Some its waters are green, or even yellow-

which is a losing game, considering others present various shades of green, the price of fish. The jobbers who so that in some cases they are hardly have so done, in nine cases out of ten, And so also with rivers. From the they will have no fish to deliver. As mountains to the sea, our own noble -The surveying party broke camp a case in point: one firm of packers on river exhibits every variety from light-

game for them to attempt to pack versity of Liege, has carefully in--There will be a sociable at the and deliver at their contract restigated the question of the color of river and selling the fresh fish to the masses of sufficient thickness, is blue, markets. What will the jobber real- and all the varieties of color exhibited ize who purchased from them if packed in lakes and streams arise from the and sold as if he had the fish to de- presence in the water of mineral salts liver? This is not the first lesson of of different degrees of solubility and this kind which the jobbers have ex- in varying quantities. Water con-

perienced. Last year and the year taining carbonate of lime in a state of previous some of them had a slight almost complete solution remains blue, touch of it, and most likely will but if the solution is less complete the river and pay as much for a 7 or 8-lb. to blue water, in which so much fish as for one weighing 20 lbs., made carbonate of lime is already dossolved forms the Olympia Transcript that an estimate and concluded that they that the point of saturation is apcould afford to pay 41 c. per lb. with proached the water will become green. a stipulated discount for heads, tails In proof of this he cites the fact that and offsl. On their way down the water near the shores of lakes and river they made their offer to fisher- seas, where it comes in contact with

men without getting a fish or finding limestone, is generally of a greener Steamer Days.
