TRUE Temperance

Is not signing a pledge or taking a solemn oath that cannot be kept, because of the non-removal of the cause -liquor. The way to make a man temperate is to kill the desire for those dreadful artificial stimulants that carry so many bright intellects to premature graves, and desolation, strife and unhappiness into so many families.

Itisafact! Brown's Inon BITTERS, a true non-alcoholic tonic, made in Baltimore, Md., by the Brown Chemical Company, who are old drug-gists and in every particu-lar reliable, will, by removing the craving appetite of the drunkard, and by curing the nervousness, weakness, and general ill health resulting from intemperance, do more to promote temperance, in the strictest sense than any other means now known.

It is a well authenticated fact that many medicines, especially bitters, are nothing but cheap whiskey vilely concocted for use in local option countries. Such is not the case with Brown's IRON BITTERS. Itisamedicine, a cure for weakness and decay in the nervous, muscular, and digestive organs of the body, produc-ing good, rich blood, health and strength. Try one bottle. Price \$1.00.

A Cure for Sleeplesaness.

There is a form of wakefulness which is a somewhat frequent experience with persons engaged in active work, especially of the brain. A man who has been busily engaged during the day in his usual avocation, retires, let us say, at about 10 or 11 o'clock, feeling SALT RHEUM. quite sleepy. After a period of slumber, perhaps of two or three hours, he finds himself wide awake at about 2 o'clock in the morning. It may betoken serious impairment of the nervous system if allowed to continue. What may be done by the per-

son himself, on awakening during the night, in order to again induce sleep? The expedients at our disposal, it must be admitted, are exceedingly variable in their efficacy, but most of them are worth trying. A sense of drowsiness is sometimes easily induced by getting up and standing by the bed side until one feels almost chilly and the bed is cold. Another expedient is to wash the head, neck and upper part of the body in cold water-a lower temperature of the skin inducing probably a more active circulation of the blood to Fire years established and never known to surface and away from the nervous centers.
