TRUE Temperance

Is not signing a pledge or taking a solemn oath that cannot be kept, because of the non-removal of the cause -liquor. > Itisafact! Brown's Iron BITTERS, a true non-alcoholic tonic, made in Baltimore, Md., by the Brown Chemical Company, who are old drug-gists and in every particu-lar reliable, will, by removing the craving appetite of the drunkard, and by curing the nervousness, weakness, and general ill health resulting from intemperance, do more to promote temperance, in the strictest sense than anyother means now known.

It is a well authenticated fact that many medicines, especially bitters, are nothing but cheap whiskey vilely concocted for use in local option countries. Such is not the case with Brown's IRON BITTERS. Itisa medicine, a cure for weakness and decay in the nervous, muscular, and digestive organs of the body, producing good, rich blood, health and strength. Try one bottle. Price \$1.00.

SECRET!

SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neural-gia, while so-many so-called specifies and supposed panaceas only treat locally the legitimate prey of rheumatism. If

effect on this acid and so removes the disor-der. It is now exclusively used by all cele-brated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent cures in three days. REMEMBER

Oregon Short Line

A gentleman who has just returned from a trip through Eastern Oregon and Idaho gives the Oregonian a glowing account of the progress which is being made by the Oregon Short Line. Chief Engineer Blickendorffer has completed an inspection of the line over its entire length to the crossing of Snake river at Burnt river canyon. Work is being pushed at all points. Graders working east from Snake river will, within a month, have thirty-five miles of the road graded. This will leave only about fifty miles to be graded to make the connection with the party working from the east. Much of the work in this section can be done with scrapers. It is confidently expected that the road will be finished to Burnt river crossing this fall. The Idaho people all consider it certain that the road will be continued to the Sound. R. S. Moseript, who, with a party of surveyors, left Lewiston some time since to explore the route from that point up the Snake, had at last accounts proceeded fiftyfive miles and found a practicable route for that distance. Engineer Clarke started from Burnt river crossing with forty men, five boats and provisions for two months, with orders from headquarters to proceed down the Snake till he met Moscript's party. The short line having left Boise City out in the cold, the citizens of that place last week organized a corporation with a capital stock of \$5,000,000 to build a railway from Boise to connect with the O. R. & N. Co's. road at Burnt river crossing.

"Where are your kids?" a society man asked, looking at the bare hands of a poor but deserving editor at a society party. "At home in bed" was the indignant reply. "Do you suppose I'd bring my children to a party like this?"

"Pour oil on troubled waters" is an old recommendation; in the modern interpretation of the phrase we hear such expressions and advice as the following contained in in the Boston Herald: During my jauntings around town I heard Fresh Eastern and Shoalwater Bay many remarks of a complimentary character in relation to the merits THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEU-MATIC AND GOUTY PATIENTS.
