BY MAIL AND TELEGRAPH

DUBLIN, May 14.—Joe Brady was hanged at 8 o'clock this morning. A vast concourse gathered outside the prison yard in which Brady was executed, this morning. A strong force of cavalry, infantry and police were present to preserve order, and there was no attempt at disturbance. However, a wreath of flowers was received by Brady, to which was attached a card bearing an expression of grief at his fate, from Irishmen living in Liverpool. Brady made no statement to the jail chaplain or to the governor of the prison. One of the last things he did was to write a letter to his mother. He carried a prayer book in his hand to the scaffold, and was thoroughly resigned and firm. His body fell nine feet, and his death was instantaneous. The number of persons in the crowd outside of the jail is estimated to reach 100,000. The throng is said to have been even greater than any of those which collected when executions were public. At the moment the black flag was seen over the jail the cry was raised "Hats off!" and every head was uncovered. The crowd shortly afterwards dispersed quietly.

Sullivan Victorious.
NEW YORK, May 14.—Fully 10,000 people witnessed the Sullivan-Mitchell sparring match this evening. In the first round Sullivan knocked Mitchell down twice, and was himself knocked down once. In the second round Mitchell was knocked down twice, going off the platform once and hurting his leg. In the third round Mitchell went down in Sullivan's corner for the second time, and was knocked down on the ropes. He failed to come to time, and the battle was awarded to Sullivan. Mitchell was entirely over-matched.

What Senator Miller Thinks.
SAN FRANCISCO, May 14.—Senator Miller was interviewed this evening and said: "Though the Democrats affect to believe their chance of success certain, I differ from them. The election last fall cannot be considered a criterion in national politics, and the tariff issue is apt to contravene their calculations. Every one who knows anything about politics in New York, knows that she is as apt to give a large majority the other way as she gave the Democratic ticket last fall. It is manufacturing issues which decide elections, and I shall be surprised if the tariff issue does not play an important role in the results. I do not by any means consider the result as a foregone conclusion. On the contrary, it all rests on the next session of Congress and its acts. Until that is ended all opinions as to the chances of various candidates is but guess work."

The yellow fir of Oregon and Washington Territory, cut in winter, the proper season, when the sap is down, is very far superior to the white oak of the Eastern Coast. It will more than double outlast it. Oregon fir planking being also so much longer than that of white oak, it makes a far stronger vessel. It combines, therefore, the two great advantages of superior strength and durability. There are vessels afloat at the present time constructed of this kind of timber, which have been near thirty years in service, and are still rated as seaworthy.

The Willamette valley and all Oregon is interested in building up a commercial city in our own state either at Portland or Astoria. Every interest of state economy and state pride demands that we favor our own state rather than Puget Sound. For that reason we are all interested in the effects which Villards bridge will have on wheat and other foreign ships coming into our own state.

—Shiloh's Catarrh Remedy—a positive cure for Catarrh, Diphtheria and Canker Mouth. Sold by W. E. Dement.

Amos Markel, a well-known and reliable gentleman, writes us from Mount Baker, Samish river, Whatcom county, W. T., under date of May 7th, 1883, as follows: "You are at liberty to publish the following facts in your paper: A fir tree was cut and hauled at Moan & Monroe's logging camp on Joe Leary slough, last Saturday, containing four logs. The first measured 24 feet in length and 80 inches in diameter, and contained 5424 feet of lumber, board measure. The second was 24 feet long and 71 inches in diameter, and contained 4749 feet of lumber. The third, 24 feet long and 66 inches in diameter, contained 4,214 feet of lumber. The fourth was 32 feet long and 61 inches in diameter, and sealed 3779 feet, making a grand total of lumber in this one tree of 19,166 feet. This is one of the largest trees cut in this section during the present season, and I took pains to get its accurate dimensions, thinking it might be of interest to some of your readers."

Returning home from a party in St. Petersburg once, Prince Gortschakoff missed from the pocket of his overcoat his pocketbook containing 30,000 roubles. He at once informed the chief of police, who assured him that the thief would be quickly hunted down. Surely enough, before a week had passed the chief returned to the prince the entire sum of money intact, but without the pocketbook, which, he said, the thief had thrown away to avoid identification. This was very well, but a day or two later, Gortschakoff, putting on the same overcoat, was surprised to find in a pocket, overlooked before, the missing pocketbook containing untouched the 30,000 roubles, which he really had never lost at all. The idea of restoring the supposed stolen money to the prince from the public funds, in the hope of thus winning favor for zeal and efficiency, speaks worlds for the police officer's ingenuity, but presents a curious phase of Russian official ethics.

A citizen of Paducah, Ky., recently became possessed of a litter of pups of an utterly worthless breed, but, being a humane man, was averse to slaughtering them. So he proposed to the Captain of a steamer that he should take them up the Tennessee and try to give them away to the denizens of that region. The Captain assented and told the owner to put them in the basket, cover the same with mosquito-netting and invoice them to some person in Florence, Ala., at a value of \$25 each. This was done, and the basket of pups placed at the foot of the cabin stairway, where they were surrounded by an admiring throng, the Captain occasionally speaking a good word for them. Before the boat reached Johnsonville every pup in the basket had been stolen or spirited away by the admirers of choice dog-flesh on board.

It has done more for the rheumatic sufferers throughout the land than any remedy ever known. We refer to the Great German Remedy, St. Jacobs Oil. I. I. Tobias, the well known and popular cigar manufacturer of 447 Third avenue, New York, informs the writer that both himself and his wife have been great sufferers from rheumatism, and St. Jacobs Oil is the only thing that did either of them any good.

"The fact is," said Mr. Tobias, "It has cured us entirely and in a very short time, and we used only a couple of bottles—the whole cost two dollars. Much less expensive than a long doctor's bill, with the apothecary's charge for putting up his prescription added. You can tell the world what I know of St. Jacobs Oil, and what my wife knows about it. I want everybody with rheumatism to know as much of it as we do, and to feel as good as we did when we found ourselves as well as ever."

—The Rev. Geo. H. Thayer, of Bourbon, Ind., says: "Both myself and wife owe our lives to SMITH'S CONSUMPTION CURE." Sold by W. E. Dement.

Down in the State of Cauca in the Republic of Colombia there are many deposits of auriferous gravel. Most of the small gulches and ravines have been worked out a hundred years ago, though more or less mining is still going on. Many large streams have auriferous beds and the natives are not up to turning the course of the river, so they mine in a peculiar way. The women take a batea in their hands and dive down in ten or fifteen feet of water, scrape the loose sand and gravel into it and bring it to the surface. They then climb on the bank and "pan" it out. The get all the way from a few cents to four bits a batea. Sometimes the men engage in this work, but it is mainly done by the women. After a dive they sit down on the bank and smoke awhile before going down again. They teach the children of twelve to dive down for gold also. Sometimes rich pockets or deposits are struck.

Arrangements are rapidly proceeding for the opening of the universal fisheries exhibition in London. The American department has obtained 1200 feet additional space from Denmark, and goods from America will thus be exhibited to better advantage. A prominent feature of the American department will be 500 crayon drawings, illustrating the whole process of fish culture.

It is said that the Nihilist leaders have spread a report through their agents in all parts of Russia that the czar has promised to make large grants of land to the peasantry immediately after his coronation, hoping that their disappointment at what they will suppose to be a violation of his promise will provoke them to disloyalty and insurrection.

SYMPTOMS OF A DISEASED LIVER.
Pain in the right side, under edge of ribs, increasing on pressure, sometimes the pain is on the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder and is sometimes taken for Rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are constive, sometimes alternating with laxity; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes complained of, and the patient complains of weariness and debility; he is easily startled; his feet are cold or burning; and he complains of a prickly sensation of the skin; his spirits are low, and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it.

If you have any of the above symptoms, you can certainly be cured by the use of the genuine DR. C. McLANE'S LIVER PILLS.
When you buy McLANE'S PILLS, insist on having DR. C. McLANE'S CELEBRATED LIVER PILLS, made by Fleming Bros., Pittsburgh, Pa.
If you do not get the genuine DR. C. McLANE'S LIVER PILLS, send us 25 cents by mail, and we will send them to you.

Pacific Net and Twine Co.
SAN FRANCISCO, April 11th, 1883.
DEAR SIRS:
For general convenience, we have sent a supply of No. 30, 12-ply Genuine Scotch Salmon Net Twine, to the care of A. M. JOHNSON & Co., Astoria, which will be sold at low enough figures to make it an object for all net menders to use it for repairs, in place of the more costly No. 40, 12-ply.
Fishermen who have heretofore used this grade of twine for repairs, claim that the durability of the patch is equal to the balance of the net, after the latter has had a few weeks use. We think it will be money in your pocket to try it. For prices and samples apply to
