Oh, My Back!

That's a common expression and has a world of meaning. How much suffering is summed up in it.

The singular thing about it is, that pain in the back is occasioned by so many things. May be caused by kidney disease, liver complaint, consumption, cold, rheumatism, dyspepsia, overwork, nervous debility, &c.

Whatever the cause, don't neglect it. Something is wrong and needs prompt attention. No medicine has yet been discovered that will so quickly and surely cure such diseases as Brown's Iron Bitters, and it does this by commencing at the foundation, and making the blood pure and rich.

Wm. P. Marshall, of Logansport, Indiana, writes: "My wife has for many years been troubled from pain in her back and general debility incident to her sex. She has taken one bottle of Brown's Iron Bitters, and I can truthfully say that she has been so much benefited that she pronounces it the only remedy of many medicines she has tried."

Leading physicians and clergymen use and recommend Brown's Iron Bitters. It has cured others suffering as you are, and it will cure you.

A Common-sense Remedy. Salicylic Acid.

No more Rheumatism, Gout or Neuralgia. Immediate Relief Warranted. Permanent Cure Guaranteed.

Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standard of Salicylic Acid.

SECRET!

THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.

SALICYLIC ACID is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

REMEMBER

that SALICYLIC ACID is a certain cure for Rheumatism, Gout and Neuralgia.

The most intense pains are subdued almost instantly.

HOME COMFORT:

After a Rainy Ride a Country Physician Tells What He Thinks of Some People.

"I wish to gracious some people would learn when they need a doctor and when they don't, exclaimed Doctor E—, as he entered his house in a cozy little village in the interior of the State of New York, after a tedious night ride of many miles. 'I have been down among the mountains to see a man, who the messenger said, was very sick and not likely to live till morning, unless he had immediate help; and found him suffering from a rather sharp attack of colic, which his family might have relieved in ten minutes, if they had a grain of sense and two or three simple remedies in the house. But no: they must remain as ignorant as pigs, and when the least ache or pain takes them, send for a doctor, whether they pay him or not.'

"Why, Doctor, what kind of simple remedies, as you call them, do you expect people to keep in the house?" asked his wife, as she poured him a cup of hot tea. "In this case," answered the Doctor, "if they had only put a BENSON'S CAPSICUM PAIN-RELEASER on the man's stomach, he would have been all right in an hour, and saved me a dreary ride."

In all ordinary complaints it cures at once. All diseases are eliminated from the system by what may be roughly called evaporation, or extraction, or by a union of the two processes. Benson's Plaster promotes both. It incites the torpid organs to act, and sends its healing influence through the myriad pores of the skin. All other plasters obligate the patient to wait. They give him hope for to-morrow, Benson's plaster gives him help to-day. Which is better, do you think? Buy the CAPSICUM, and keep it in the house. Price 25 cents. Seabury & Johnson, Pharmaceutical Chemists, New York.

—COLDEN'S LIQUID BEEF TOXIC will cure indigestion, and perpetuate bodily vigor. Take no other. Of druggists.

The New Government Vessels.

It begins to look as if ex-Commander Goringe might yet prove quite as uncomfortable a person to the navy department as he was before he left. In an interview about the new cruisers he is thus reported: "I notice that the department calls for several vessels, and the second paragraph of the advertisement seems to require that all bidders shall be prepared to build both the hulls and engines of these ships or the engines only. If it means this, it excludes all but three of the shipbuilders of this country, for only three of our iron shipyards are fitted to build both hulls and engines. But I am not discouraged about this. I mean to put in my bids, and I may say to you that I have already arranged with one of the most competent engine builders in the country to build the engines, if my bid should be accepted by the department. About four-fifths of the English war vessels have their hulls built in government dock yards. Hull building and engine building, though closely allied, are essentially different businesses. At least two-thirds of the English shipbuilders do not build engines. I see that fourteen knots an hour, which now-a-days cannot be considered fast enough to keep out of the way of a modern ship of superior force, is all that is required. To set a fourteen-knot cruiser to catch a seventeen-knot trans-Atlantic steamer would be like setting a pig to catch a greyhound. No passenger steamer is highly thought of in these days which will not average a mean sea speed of fifteen knots. A man-of-war to be effective must be able to catch such steamers. The English have now a man-of-war frigate which steams eighteen and one-quarter knots. She has done it, and they are building more such ships. What would be the use of our cruisers, going at the highest mean sea speed of fourteen knots, against such ships as these, or against the trans-Atlantic steamers now in use, which, in case of war would be turned into cruisers by the English government."

The iron stone deposits of England cover 420 square miles of territory, and have an average yield of 30,000 tons per acre. The estimated contents reach the enormous amount of five thousand million tons, and the coal district has ten thousand million tons, yet these immense resources are in the hands of a few men.

It Never Fails.

If all other remedies have failed to afford relief there is one that will never disappoint you, and that one is Syrup of Figs. The strong and the weak alike find it powerful for good; harmless, yet thorough, always giving strength to the bowels, so that regular habits may be formed and the system restored to a healthy condition.

Each half-dollar bottle contains from twenty to thirty average doses, and the dollar bottles more than double. For sale by W. E. Dement & Co., Astoria.
