The run of salmon for '83 as yet affords no tangible bases for calculation as to the probable result at the close of the season. It is the impression among some that the run is somewhat earlier than usual, this idea results from noticing the weight of the fish; rick. as a general thing the first salmon that come are not large, not averaging over fourteen cans to the fish; as the season goes on the average weight culminates in June to eighteen and Raymond Holmes Comedy Compains is the title of a large illustrated treatise, by Dr. R. The run, so far, is below that of the last four years up to this time. The books of one of our largest canneries show that in April '82, they packed 2,297 fish; in April '83, 2,693; in May '82 up to the 25th were packed 13,808; in May '83, up to the 25th, 8,165; this cannery is running nearly fifty per cent, more boats than it did
