Oh, My Back!

That's a common expression and has a world of meaning. How much suffering is summed up in it.

The singular thing about it is, that pain in the back is occasioned by so many things. May be caused by kidney disease, liver complaint, consumption, cold, rheumatism, dyspepsia, over-work, nervous debility, &c.

Whatever the cause, don't neglect it. Something is wrong and needs prompt attention. No medicine has vet been discovered that will so quickly and surely cure such diseases as BROWN'S IRON BITTERS, and it does this by commencing at the foundation, and making the blood pure and rich.

> Wm. P. Marshall, of Logansport. Indiana, writes: " My wife has for many years been troubled from pain in her back and general debility incident to her sex. She has taken one bottle of Brown's Iron Bitters, and I can truthfully say that she has been so much benefited that she pronounces it the only remedy of many medicines she has tried."

Leading physicians and clergymen use and recommend Brown's Iron Bir-TERS. It has cured others suffering as you are, and it will cure you.

The expenditures for this service twenty-eight years. It is remarkable that the increase in outlay should have begun with what is called the "peace policy" of Gen. Grant, early in 1869. That policy was adopted at the instance of alleged philanthropists, and was intended by its authors to improve the condition of the Indians. But, as often happens in moral movetheories became the instruments of perversion and the beneficiaries of organized corruption.

The enormous increase in the cost of the Indian service will be seen by comparing the aggregate expenditures for the fourteen years since 1869 with those for a similar period before Grant and Columbus Delano took charge. Expenditures for Indians from

The Cost of the Indian Service.

The Indians are decreasing in number. It is the constant boast of the department charged with their affairs that they are gradually, and in several tribes rapidly, adopting the habits of civilized life. For two reasons, therfore, the cost of maintaining the Indians ought to be growing smaller. Experience shows the contrary.
