After a Rainy Ride a Country Physician Tells What He Thinks

"I wish to gracious some people would learn when they need a doctor and when they don't. exclaimed Doctor E---, as he entered his house in a cosey little village in the interior of the State of New York, after a tedious night ride of many miles. "I have been down among the mountains to see a man, who the messenger said, was very sick and not likely to live 'till morning, unless he had immediate help; and found him suffering from a rather sharp attack of colic, which his family might have relieved in ten minutes, if they had a grain of sense and two or three simple remedies in the house. But no : they must remain as ignorant as pigs, and when the least ache or pain takes them, send for a doctor, whether

they pay him or not."
"Why, Doctor, what kind of simple reme dies as, you call them, do you expect people to keep in the house?" asked his wife, as she

he would have been all right in an hour, and saved me a dreary ride,"

In all ordinary complaints it cures at once. All diseases are eliminated from the system by what may be roughly called expulsion or extraction, or by a union of the two processes: Benson's Plaster promotes both. It incites the torpid organs to act, and sends its healing influence through the myriad pores of the skin. All other plasters oblige the patient to wait. They give him hope for to-morrow, Benson's plaster gives him help to-day. Which is better, do you think? Buy the CAPCINE, and keep it in the house.
