

**The Daily Astorian.**

ASTORIA, OREGON:  
FRIDAY, JUNE 15, 1883

A WASHINGTON special says the report of the probable abdication of Queen Victoria causes a good deal of stir in diplomatic circles. The general expression is that the event is quite probable. Later reports seem to have reached this country well authenticated, and even the British minister is said to have expressed a belief in the report, though he has no official notification of the fact. The queen's advanced age, and the increasing troubles, are urged as entirely confirmatory of the report. Mr. West is reported as saying that he has, for some time, expected to hear that such a step was in contemplation. The queen is now in her 65 year, and the cares of state rest heavily upon her shoulders.

A SAN FRANCISCO dispatch says arrangements have been made by Captain B. B. Tuttle for the transmission overland of mails for Oregon and Washington Territory from the east, which, it is believed, will materially shorten the time of their transit. Instead of being sent in the usual manner the mails will be taken off the overland train at Sacramento, and thence forwarded to Portland via Redding, by stage to the extension of the Oregon and California railroad from Roseburg. Mails arriving one day previous to the sailing of Portland steamers will be landed at San Francisco and forwarded by water. The new arrangement went into effect on the 11th.

It has been said by the railroad people that they would like the Astoria land grant forfeited so that the "overlapping grant" will go to the Northern Pacific railroad company. This kind of argument will not convince any one in this section. If the Northern Pacific takes the overlapping land grant of the Astoria grant there will be that much less for the Northern Pacific to select from other points. The Northern Pacific grant is a grant of a certain specified number of sections of land to each mile built. If more is taken in one place there will be less to take in another.

In 1840 Harriet Martineau found seven vocations open to women in the State of Massachusetts; now there are 284 occupations, in which 251,158 women earn their own living, receiving from \$150 to \$3,000 each per annum.

A PARIS journal alleges that Russia is aiming at the conquest of British India, in which she has the approval of France, in consequence of Great Britain assuming to occupy Egypt.

The Cincinnati *Commercial Gazette* says there are symptoms that ex-Governor Hendricks believes in the old ticket, and will not be unwilling to see it at the front in 1884.

RAILWAY construction in the United States for the year 1883 is estimated as not likely to exceed 8,000 miles, against 11,000 miles last year.

Away Across the Mississippi is held a  
Convincing Conversation.  
"I tell you sir, that they are one of the greatest combinations ever produced, and my experience of that sort of thing has been wide enough to entitle my judgement to some respect."  
The talk of which the foregoing is a fragment, took place in Gallatin, Missouri, not long ago, in the snug office of Dr. M. P. Flowers, one of the leading physicians of the State who followed up the vein in which he had introduced it substantially in these words:  
"Nonsense, that is the riddle of a boy, or rather of a man who doesn't know, or doesn't care what he says. Those things, as you call them, are just as different as the moon is from green cheese. Now, liniments, lotions, and ointments are very good in most cases for the relief of pain or inflammation. But in the first place they are useless. They soil the hands and the linen, besides being always out of reach when they are most wanted."  
"Well, my dear Doctor," sighed the traveler from the North, "what would you hazard? This is a wretched world anyhow, and nothing is ever at hand when it is wanted. You can't suggest anything."  
"Yes, I can," broke in the Doctor, thumping the table with his fist. "I can suggest BENSON'S CAPSINE RUBBER PLASTER. I have tried it on my patients, and I have tried it on myself for an attack of Pneumonia, and in all cases relief has followed in from three to forty-eight hours. The old plaster is a stage coach—the Capsine is a telegraph in dispatch. For instance, in cases of Neuralgia, Muscular Rheumatism, Lumbago, retarded action of the Kidneys, and—"  
"I give it up, Doctor, and in case of need I'll buy Benson's, and travel pleasantly."  
At the center of the genuine is our word CAPSINE  
Benson & Johnson, Chemists, New York.
