

The Daily Astorian.

ASTORIA, OREGON: SATURDAY, JUNE 16, 1883

The Oregon is due from San Francisco to-day.

There will be no skating at the rink to-night.

The Argonaut will be treated to a new propeller to-day.

M. C. Crosby is a returning passenger on the Oregon.

The Portland fire department will parade in uniform on the Fourth.

Alfred Anderson has been finally sentenced to be hanged in Portland on July 20th.

F. W. Stechhan, the popular theatrical manager is on the incoming steamer.

Puget Sound streams are running bank high with melted snow from the far-off mountains.

The barkentine North Bend arrived yesterday, and is discharging cargo at Flavel's wharf.

Fred Hewitt has returned to his former station on the O. R. & N. dock, and looks as fresh and hearty as of yore.

J. E. Mayo, who built the Odd Fellows' Temple in this city, has been nominated for mayor by East Portland Republicans.

Messrs. J. Q. A. Bowly and B. Van Dusen, who have been attending the Masonic grand lodge at Portland, returned yesterday.

Jas. Williams, of Tanzy Point, one of our successful Columbia river cannery men, is about to establish a similar institution at Tacoma, W. T.

Contrite and Hawkins minstrels appear at Liberty Hall to-night. They are first-class, and will, no doubt, play to a crowded house.

A hotel is to be built in New Tacoma by the Tacoma Land and Northern Pacific Railroad companies. Its dimensions will be 200x80 feet, and the cost \$75,000.

E. C. Holden arrived down from Portland yesterday afternoon; Mrs. W. J. Strong, his oldest daughter, will come down from The Dalles this afternoon on a visit to the seaside.

The floral concert at the Baptist church Sunday school to-morrow evening promises to be an attractive entertainment. Much interest is manifested by the members and the church will be beautifully decorated.

The contest at the Salem tournament for steam engine to station with cold water, lay 100 feet of hose, and throw water 100 feet, was won by the Tigers of Salem; time, 11 10. Astoria number one, won first money on that contest last year; time, 6 02 1/2.

Jacob Kamm, a gentleman whose reputation for liberality has never reached par, did not deceive the public in his riggarly action toward the committee having the printers' picnic in charge. Kamm's agent, says the Standard, hired the steamer Ladine and a barge to the committee for \$225; but Kamm, who was absent at the time, upon his return demanded \$600, which was refused, and the committee was forced to make other arrangements. They were blocked at every move by the actions of Kamm, but finally secured two steamers and a barge for \$350. They ought to sue Jake for damages.

In the report of the tournament, the Standard in speaking of the steam engine contest says: "The cause of 'no time' being called on the Astoria No. 1, was because of their failure to attach their nozzle, the water coming in full force through the hose before they were ready, rendering it impossible to attach it in time. They really made as good time on the run as their competitors, and but for the accident, would have stood an equal show to have won the prize." According to dispatches received here, No. One's made a splendid run. It will be remembered that last Fourth the same bobble occurred, and they missed winning the prize. But it was an Astoria company that won it anyhow, and they deserve three cheers and a tiger when they land at the wharf this morning.

Some of the San Francisco papers are prone in speaking of the Columbia salmon catch, to hint that "Oregon papers" make biased statements relative thereto. As one of the "Oregon papers," THE ASTORIAN has this to say. When we publish the catch of salmon, it is after an examination of the fish books of several canneries. These books are supposed to represent a correct account of the daily catch. Where the list shows for instance, that on a certain day 35 boats caught 1040 fish, the presumption is that that days catch for that cannery, indicates an average of about 30 fish to the boat. If our carrying S. F. contemporaries can devise a better way of getting at correct results we shall adopt it with pleasure. In this connection it may not be out of place to suggest that readiness to cast discredit on a contemporary publication is presumptuous evidence that the fault finding newspaper is not above suspicion itself.

THE STATE CHAMPIONSHIP.

HANG OUT YOUR BANNERS And Give the Boys a Welcome.

Our delegation arrives on the Wide West, this morning. They come crowned with victory and deserve a reception. Rescue No. 2 has won the first prize at the tournament and has been awarded the championship of the state. The department will parade and meet them at the dock to welcome and congratulate them. Astoria No. One's team did well too, and it is not their fault that they didn't win first money. The Astoria Fire Department has demonstrated that its claim to superiority is not an idle one and the boys should have an ovation upon their arrival. We don't have holidays enough, and no matter how "busy" you are this morning let things run themselves for a few hours and give our firemen a hearty welcome home.

Since the above was in type the following has been handed in by the department: TO THE MAYOR, COMMON COUNCIL, CITIZENS AND LADIES OF THE CITY OF ASTORIA: You are earnestly requested to participate with the Astoria Fire Department in giving a cordial welcome to the returning victorious hose teams from the state tournament, at 10 o'clock A. M. June 16, '83.

OFFICERS AND MEMBERS A. F. D. NOTICE RESCUE NO. 2. All members are requested to meet at the hall in full uniform Saturday, June 16th, at 10 A. M. to receive our tournament hose team at O. R. & N. Co.'s dock.

C. H. STOCKTON, Acting Foreman. R. F. PRAEL, Secy. NOTICE ASTORIA NO. ONE. Same.

S. G. INGALLS, Foreman. L. E. SELIG, Secy. ATTENTION HOSE AND LADDER.

The officers and members of Alert Hook & Ladder Co. No. 1, will meet at their hall at 10 o'clock A. M. to-day, for the purpose of receiving the firemen on their return from the State Firemen's Tournament at Salem. By order of F. B. ELKESON, Foreman. C. B. BROWN, Secy.

Not Just.

The great demand for timber land presents a good many anomalous features. Many who are looking up "timber claims," while they comply with the letter of the law are breaking the law in purpose and intent. A man should not take up a timber claim to sell his right to another at an advance of a few hundred dollars. Leaving out of the question the fact that he is selling his birthright for a mess of pottage, it is manifest that he makes himself a party to fraud by such unwarrantable action. There will be trouble in this direction yet, and while the tendency is to be deplored, yet it is but just that at least passing comment be made upon this fashion of filing on land and then turning it over for coin to another, a fashion which is becoming too general for public good.

Finding of Walter Pohl's Body.

Mr. J. W. Hume, of this city has received a letter from the Quinault reservation, dated June 10th 1883, from which we extract the following: "We picked up a drowned man last Friday, and there is no doubt but that it is Walter Pohl, who was drowned from the Pioneer. You had better inform Capt. Bohan. This man has been drowned about ten days; he had on a navy blue shirt, buttons on each side, blue overalls, red underclothing, and a small belt around his waist. His hair was kind of brown, and he had a very small mustache. His face was bruised, but there is no doubt that it is him."

Yesterday's Passengers.

Geo Kennans, G Duff, M Gener, W F Brown, J Moritz, M Ross, M P Fleming, L Morris, J Hickey, Messrs Sharpe, Gerhauser, Gladwitz and Alexander, J E Mattison, T Simmons, R Constable, Jno Alvia, Miss Mountain, Jno Schmeer, A J Lanning, A Rosenthal, C J Trenchard and S T Powell.

The following are the names of the officers of the State Firemen's Association for the ensuing year: Frank G. Abell, president; Geo. W. Belt, vice-president; F. E. Hodgkin, secretary; Joseph Webber of Albany, A. E. Strang of Salem and F. P. Hicks of Astoria, board of directors.

Cards, Cards, Cards.

A beautiful selection of Birthday Cards at Carl Adler's.

My Stock of Cigars.

Frank Fabre's Oyster and Chop House.

Those wishing a nice plate of Eastern or Shoalwater bay oysters cooked in any style, or an early breakfast before going aboard the boat, should call and see him. Fresh Eastern and Shoalwater bay oysters received by every steamer.

The Astoria Gaslight Company.

"Let there be light" has been the prevailing rule, according to Genesis since the creation of the world. The mode of lighting varies with the demand of the consumer. The candle, fish supply light to the Alaska Indian, nut oil to our Chinese friends, candles to the remote dwellers of our own race, and the familiar kerosene with its attendant accidents and annoyances had its era of prosperity inaugurated about twenty years ago. Last January some of our citizens concluded the time had come when Astoria could discard the ancient system of lighting by coal oil and advance a step by using gas for artificial illumination. Accordingly a corporation was formed and a contract made with J. Elliott Condit, of Philadelphia to build and place in operation a system of gas lighting commensurate with the probable extent of our growing city. The northeast corner of West 5th and Court street was selected as the most suitable place for the erection of the works, and in the latter part of February grading was begun. The work like all Astoria improvements was slightly retarded by the scarcity of material and supplies, but was pushed ahead as rapidly as possible, and is now completed. The plant of the company consists of a brick building 20x40 feet, in which are two benches, each with three retorts, a frame building 50x50 in which is the gas holder, and about two and one half miles of pipe; 2,500 feet 6 in., 4,000 feet 4 in., 4,000 feet 3 in., and 2,000 feet 2 in. The entire property is worth \$75,000. The work has been done under the personal supervision of P. E. DeMille, of Detroit, Michigan, engineer in charge. The officers of the company are C. S. Wright, President; C. H. Page, Secretary; I. W. Case, Treasurer. It is expected by Monday next to have the meters all tested and arranged, and the enterprise fairly under way. To expiate upon the importance and advantage of this new company to our city is unnecessary. They propose furnishing gas light of A, 1, quality, and at a price that will make it a desirable convenience to our citizens. Those who consume any quantity up to 5 M per month will be furnished gas at \$4.25 per M. Over that quantity there will be a material discount.

In Memoriam.

KNAPPA, June 14, '83.

ED. ASTORIAN: For ten weeks past the illness of Mrs. S. M. Knapp, mother of A. Knapp, of this place, familiarly and tenderly called "Grandmother Knapp," caused a sad and subdued feeling as it was reported, from day to day, "such the case," "failing considerably," and although at the advanced age of 86 years her presence among us for eleven years had been as pleasant and cheerful that she seemed to have drunk from the fountain of eternal youth and sunshine. A descendant of the stern old Puritan stock of Connecticut, her religious ideas were eminently of the orthodox style, striving to live to the letter and spirit of the Bible, making her life a consistent Christian one. Her spirit passed "over the river" the morning of June 24, peacefully as rests the summer's sun. The funeral was attended by a large concourse of relatives and friends.

The Services, conducted by Rev. J. W. Harris, of Albany, (a former pastor) from the words, "Blessed are the dead," etc., were very impressive and interesting.

Though gone from our sight our hearts are filled with "blessed memories" and we shall hope that the sweet example of her life may make faith in goodness strong, and her mantle fall laden with blessings upon all with whom she was acquainted.

In mansions of the best, Where wondrous beauty stands, Rest, gentle spirit rest! Guarded by angel bands. P.

Knappa Notes.

KNAPPA, OREG., June 14, 1883.

ED. ASTORIAN:

The spring has passed with us with its usual quiet, except the scare occasioned by our case of scarlet fever, which, wonderfully, has not spread and two or three cases of measles, a light form. The early spring was so dry and hot that our fruit crop will be nearly a failure, all kinds of garden as well as orchard fruits feeling its effects. The place shows marked signs of improvement everywhere; new houses, barns and fences, showing that our people have "come to stay." And why shouldn't they? With a soil that ranks with the best in Oregon, producing vegetables and cereals that rival California, and growing grasses the most succulent in their nature, making the best of hay which at present prices is a very lucrative business, and the prosperity of our new settlers proves that there is no basis so sure as an agricultural one. There are ten logging camps in the vicinity doing a thriving business, and were it not for the fact that the stomachs of both man and beast must be filled, which is a great item at the present price of provisions, the business would be a lucrative one. To those wishing homes in "the loveliest place on the river" we extend a welcome. To those wishing pleasures our streams filled with trout and salmon our forests with elk and bear, offer inviting pastime. To the capitalists, our forests of timber and favorable hill sides with outcroppings of coal, the most favorable of any yet found on the river, offer chances most favorable for the profitable investment of money.

Why are King's Combination Spectacles the Best?

1st. They are composed of a Combination Frame, set with the finest French polished lens; they do not rust, and are the most durable in use.

2d. The lenses are of different shapes, so as to correct imperfect sight in youth as well as old age, both for reading and seeing at a distance.

3d. They can be so adjusted that the cone of the lens will come before the eye, which is very important for distinct vision.

4th. They will neither confuse the sight nor cause dizziness by long and continued use, as is the case with common spectacles of unequal focus.

5th. They supply the deficiency that occurs from the flattening of the crystalline lens and will enable one to see as well as in youth.

6th. They are recommended by the leading opticians of the country, are not expensive, over a million of them are now in use.

As the need of glasses does not depend on age alone, it is very important to have the eyes properly tested, and not fitted by guess.

Beware of Imitations. The genuine are marked KING'S PATENT, on the nose piece. Peddlers cannot obtain the genuine.

Don't trust to travelling opticians and pay exorbitant prices, but call on the only authorized agent, who has King's new system by which defective sight can be corrected by scientific principles.

An Aromatic Fragrance

is imparted to the mouth by the use of SOZODONT. It is beyond doubt the cleanest, purest and best wash ever offered to the public. SOZODONT and comfort are synonyms. It cleanses the cavities in the enamel of the teeth.

Its Wonderful Efficacy.

No remedy ever discovered possesses the wonderful efficacy of Syrup of Figs. The certainty with which it expels all impurities from the system, at the same time giving tone to the liver, stomach and bowels, places it above all other remedies, to say nothing of its being more easily taken. It is selling very rapidly. Messrs. W. E. Dement & Co. are agents for Astoria.
