The blood is the foundation of life, it circulates through every part of the body, and unless it is pure and rich, good health is impossible. If disease has entered the system the only sure and quick way to drive out is to purify and enrich the

These simple facts are well known, and the highest medical authorities agree that nothing but iron will restore the blood to its natural condition; and also that all the iron preparations hitherto all the iron preparations hitherto made blacken the teeth, cause headache, and are otherwise injurious.

BROWN'S IRON BITTERS will thor oughly and quickly assimilate with the blood, purifying and strengthen-ing it, and thus drive disease from any part of the system, and it will not blacken the teeth, cause headache or constipation, and is posi-tively not injurious.

Concerning Certain Relies of the Past-Dogs that have had their Day.

George Stephenson's "Rocket," and the agnificent locomotives of to-day, are built upon the same general principal, yet the machine with which the great engineer astonished his age, is interesting now only as an illustration of the beginning of the invention. There were plasters with holes in them long before BENSON'S CAPCINE POROUS PLASTER surprised both the public and the physicians; and the triumph of the Capcine is founded upon the partial successes, or the utter failures of its predecessors. Everything of value in the old porous plaster is retained in the Capcine; but at this point all compari-

son ends, and contrast begins. For example: The old plasters were slow in their action; the Capcine is quick and sure. The old plasters lacked the power to de more than to impart slight, temporary relief in cases easy of treatment; the Capeine penetrates the system and permanently cures the troubles for which it is recommended.

The old plasters depended for any good results they might attain, upon an accident of their makers and the naked faith of their wearers; the Benson's reaches its ends by means of the scientific combination of the rare medicinal ingredients which its contains. In brief, the old plasters, like Stephenson's liscarded engine, are switched off the track, while the Bensen's goes on its way winning

Celebrated Columbia Brewer golden opinions from all sorts of people. Yet in this very fact lies the leading danger to the people who buy and use this reliable and scientific remedy. "Hypocrisy is the tribute vice pays to virtue." Imitation is the oncession failure makes to success. Benson's Plasters are parodied in name and style. Beware of swindles. The genuine have the word CAPCINE out in the center. Price 25 cents. Seabury & Johnson, Chemists, New York. Brewery Beer Saloon.
