## PLAIN TRUTHS

The blood is the foundation of life, it circulates through every part of the body, and unless it is pure and rich, good health is impossible If disease has entered the system the only sure and quick way to drive it out is to purify and enrich the

blood. These simple facts are well known, and the highest medical authorities agree that nothing but iron will restore the blood to its natural condition; and also that all the iron preparations hitherto made blacken the teeth, cause headache, and are otherwise injurious.

BROWN'S IRON BITTERS will thoroughly and quickly assimilate with the blood, purifying and strengthen-ing it, and thus drive disease from any part of the system, and it will not blacken the teeth, cause headache or constipation, and is posi-tively not injurious.

#### Saved his Child.

17 N. Eutaw St., B. Itimore, Md.
Feh. 12, 1850.
Gents:—Upon the recommendation of a friend I tried Beows's
Inon Britans as a tonic and restorative for my daughter, whom
I was thoroughly convinced was
wasting away with Consumption
Having lost three daughters by the
terrible disease, under the care of
eminent physicians, I was both to
believe that anything could arrest
the progress of the disease, but, to
my great surprise, before my daugh
ter had taken one bottle of Brown's
Iron Britans. ter had taken one bottle of Bnown's Isow Birtrass, she began to mend and now is quite restored to former health. A fifth daughter began to show signs of Consumption, and when the physician was consulted the quickly said "Touics were required;" and when informed that the elder sister was taking Bnown's Isow Birtrass, responded "that is a good tonic, take it."

Anonaw Preuss. ADDRAM PHELPS.

BROWN'S TON BITTERS effectually cures Dyspepsia, Indigestion and Weakness, and renders the greatest relief and benefit to persons suffering from such wasting diseases as Con-sumption, Kidney Complaints, etc.

At his death, Mr. Phillips, after after making a few trifling bequests, left the remainder of his property, amounting to about \$60,000, to the Phillips Academy at Andover and the Phillips Exeter Academy, one-third to the former and two-thirds to the latter institution. The following illustrates the economy which made possible such generosity. In those days the houses were all heated by wood fires kept burning against a huge backlog in open fireplaces. In the Phillips house the backlogs were soaked in water for several hours before they were placed in the fireplace. This caused them to burn slowly-this was economy. Imagine the grim old founder of "Phillips Exeter" bringing in a dripping log for the fire! Tradition further affirms that, when the household was assembled for evening prayers and the chapter had been read, the good man always extinguished the light before the long prayer. This was to save the candle, which could be readily relighted at the open fire after the prayer was ended .- F. H. Cumningham.

If the stories of the plantations in the heart of Brazil are true, that empire is an inviting field for abolitionists. It is told that In- Iron, Steel, Coal, Anchors, Chains, dians in the Bolivian territory, among the tributaries of the upper Amazon, are seized and sold for servitude in Brazil; that families are broken up by kidnappers, who openly carry off their victims Shelf Hardware, Paints and Oils in droves; and that this trade of man-stealing thrives in some parts of South America as it has done in Africa among the negro race.

A Spanish grandee has a bed that is made entirely of glass. He got it to save his wife the trouble of getting down on her knees every night to look under the bed.
