The Secret

of the universal success of Brown's Iron Bitters is simply this: It is the best Iron preparation ever made; is compounded on thoroughly scientific, chemical and medicinal principles, and does just what is claimed for it-no more and no less.

By thorough and rapid assimilation with the blood, it reaches every part of the system, healing, purifying and strengthening. Commencing at the foundation it builds up and restores lost health-in no other way can lasting benefit be obtained.

Census Superintendent Seaton says an effort will be made next winter to reme- SALT RHEUM. dy the defect. It is thought that nearly all of the states will avail themselves of the opportunity for taking a census at half price. This would practically result in a new census of the United States. The headquarters would remain there, the only difference being that the states would be required to "foot" half the bill. The scheme is favored by the census officials, who have a strong desire to perpetuate themselves in office. It would furnish abundant work for the civil service board, as it would necessitate the employment of 2,000 eryw extra clerks.

Center, W. T., the wife of Mr. Joe. Eaton discovered a large black bear which she set the dogs upon and then followed the chase until the animal was treed. To carry off a prize in the face of that tremendous competition was a task of no ordinary difficulty. Inventions and preparattons for the alleviation of pain and the cure of diseases were present in the greatest possible variety, representing the skill and the profoundest study of the age, and it may be of vital importance to you, personally, to know that the highest and only medal given to rubber Porons plasters, was awarded to the manufacturers of BENSON'S CAPCINE PO-ROUS PLASTER, by the following jury: Dr. WM, ROTH, Surgeon-General, Prussian

Army . J. H. THOMPSON, A. M., M. D., Washington, D. C.

C. B. WHITE, M. D., New Orleans, ERNEST FLEISCH, M. D. Austria. The decision was afterwards confirmed by the medical jury at the last Paris Exposition. Knowing the value of such high and unbiased testimony, the medical profession, both in the United States and in Europe, quickly threw saide the old, slow-acting plasters they had been using, and adopted Benson's in their regular practice. It is no more than just to add that the average physician of to-day is not dominated by the prejudices which retarded the progrets and modified the successes of his predecessors of not more than twenty-five years ago. He accepts hints from all quarters and endorses and adopts demonstrated healing agents wherever he finds them.

The right of Benson's Capcine Porous Plas ter to stand at the head of all external applications whatsoever, for the mitigation of cure of disease, is no longer questioned. Let the purchaser, however, be on his guard
