

ASTORIA, OREGON: THURSDAY, JULY 19, 1883 State Population.

RHODE ISLAND is the state that has the largest population in proportion to its area, the extreme smallness of the latter giving it an exceptional density of habitation.

A New departure in journalism is said to have been originated by the proprietors of the New Orleans Democrat.

The scene of the massacre of General Custer and the seven companies under his command is to be marked with a granite monument.

BORN. In Astoria, July 18, 1883, to the wife of Abe Hyman, a son.

BURGLARIES are so common in Massachusetts that a Naugatuck merchant has posted this on his safe: "We keep no money in this safe. This is for fire only; our money is up to the house; come up. We have four shotguns, two rifles, three horse pistols, and one revolver, all loaded and ready for use, and warranted to kill at ten rods. Time spent here is time wasted." Then follow the figures of the combination, so that if a burglar is determined to get in he can do so without breaking the lock.

QUARANTINE was invented in Venice in the year 1157, all merchants and others from the Levant and other eastern ports being obliged to remain in the house of St. Lazarus or the Lazaretto forty days before they were allowed to enter the city.

Various southern states copied the example of Venice; the habit soon spread into every European country, and was introduced by the Venetians into Syria and Egypt. At Gaza or Beyrouthe the guardian who formerly exercised, kept one denizen of the Lazaretto from communication with another, was a Venetian, while the sick were attended by a medico hailling from some part of Italy, who looked at them from a safe distance through ass-fetida smoke.
