The Secret

of the universal success of Brown's Iron Bitters is simply this: It is the best Iron preparation ever made; is compounded on thoroughly scientific, chemical and medicinal principles, and does just what is claimed for it-no more and no less.

By thorough and rapid assimilation with the blood, it reaches every part of the system, healing, purifying and strengthening. Commencing at the foundation it builds up and restores lost health-in no other way can lasting benefit be obtained.

ng sintilar names. Be sure you get

The majority of farmers interviewed claim fair crops, many say that they will have very large yields while a few claim to have been damaged by the drought. The lowest possible estimate of while the highest is sixty. Those reporting fair crops claiming that they will barvest from twenty-five to forty bushels per acre. Last season there were 36,699 acres put in grain, while this year the total acreage is 65,612, a gain of 28,913 acres in favor of the season of 1883. In this county there are now 53,335 acres in wheat, 10,207 acres in barley, and 2,-060 acres in cats. Putting the average yield of wheat at the very low figure of 221 bushels per acre, we have a crop of 1,200,0374 bushels; barley at 40 bushels per acre, we have 408,-280 bushels, and 2,060 acres of oats at 45 bushels per acre, will give a total of 92,700 bushels. The entire yield of cereals in this county giving the sum total of 1,701,0174 bushels; besides this we have the corn crop, but being Notice of Application to Purchase raised for home consumption no note has been taken of the acreage or probable yield. The mills of this county will consume \$00,000 bushels of wheat, and Isaacs' mill, at Prescott, will grind 400,000 more, making a total of 1,200, for milling purposes. Of this amount probably 600,000 bushels will be taken from the product of, this county, leaving 600,037½ bushels for export, or formation of the product of this county, leaving 600,037½ bushels for export, or formation of the product of the county of the product of this county, leaving 600,037½ bushels for export, or form date hereof, are hereby required to file their claims in this effect within sixty on days from date hereof.

This product of this county, leaving 600,037½ bushels for export, or feet of the product of the product of the county, leaving 600,037½ bushels for export, or feet of the product of the county, leaving 600,037½ bushels for export, or feet of the product of the county of the product of the product of the county, leaving 600,037½ bushels for export, or feet of the product of the county of the product of the county, leaving 600,037½ bushels for export, or feet of the product of the county of the product of the county, leaving 600,037½ bushels for export, or feet of the product raised for home consumption no over twice the amount shipped last year. The proportionate shipment from that section of Umatilla county, lying south of Walla Walla, will be much great-
